PRINCE2 Agile Foundation Sample Questions (Q33-Q38):

NEW QUESTION # 33

Which is a collaborative technique for defining decision-making within teams?

- A. Magic estimation
- **B. Delegation poker**
- C. Personas
- D. Team skills matrix

Answer: B

Explanation:

Delegation poker is a collaborative game used to define and clarify decision-making authority within teams. It helps teams agree on who has the power to make decisions for specific areas, from the team level to senior management. Using cards representing different levels of delegation, team members discuss and align expectations, ensuring clarity and reducing conflicts.

This technique fosters transparency, shared ownership, and empowerment, which are critical for agile teams operating under PRINCE2 governance. It also helps balance autonomy and control, supporting the principle of manage by exception.

Other options: a team skills matrix documents competencies, personas represent user archetypes for design, and magic estimation is

a sizing technique - none focus on decision authority.

Delegation poker aligns well with PRINCE2 Agile's emphasis on defined roles and empowered teams.

Answer: C

NEW QUESTION # 36

What describes essential aspects of project management that must be applied consistently and throughout the project lifecycle?

- A. The people element
- B. The PRINCE2 processes
- **C. The PRINCE2 practices**
- D. The project context

Answer: C

Explanation:

The PRINCE2 practices represent the essential aspects of project management that must be applied consistently from start to finish in every project. These practices cover key areas such as managing risks, issues, quality, plans, progress, and change. They provide structured guidance and tools to ensure the project remains viable, controlled, and aligned with business objectives.

While processes define the stages and flow of activities, and the people element refers to roles and skills, practices are the ongoing activities and controls embedded throughout the project lifecycle. The project context shapes how practices and processes are tailored but does not itself define the consistent elements.

This consistent application of practices supports governance, transparency, and control, critical for successful project outcomes.
