It is highly respected in the industry and can open up new career opportunities for certified individuals.

Salesforce Certified Advanced Administrator Sample Questions (Q178-Q183):

NEW QUESTION # 178
An administrator has created a flow that sends platform events whenever an opportunity is updated. An Apex developer has been tasked to write code that listens for these events. When reviewing the debug logs for a user, the developer can see that the flow ran, but the debug Information is missing.
What should the administrator recommend to assist with debugging?

- A. Set a debug log on the Automated Process entity.
- B. Select the Debug Enabled checkbox on platform events,
- C. Search the AppExchange to And a tool that assists with debugging.
- D. Platform events are unavailable for debugging.

Answer: A

Explanation:
To debug platform events in Apex code, you need to set a debug log on the Automated Process entity. This entity represents an automated process user that runs flows and processes in your org. By setting a debug log on this entity, you can capture the events that are published and consumed by your flow and Apex code, as well as any errors or exceptions that occur during the execution.

NEW QUESTION # 179
In Collaborative Forecasting, what can a Forecast manager do? Choose 2.

- A. Ability to assign users to forecasts in the Forecasts hierarchy
- B. Ability to see all forecasts of the users below the Forecast hierarchy
- C. Ability to view opportunities of the users below the Forecast hierarchy
- D. Ability to edit opportunities of the users below the Forecast hierarchy

Answer: B,C

NEW QUESTION # 180
Which of the following statements about Standard and Custom Price Books are accurate?
Choose two answers

- A. A Standard Price Book includes a master list of all Products with their associated Standard Prices.
- B. A Custom Price Book includes a master list of all Products with their associated Custom Prices.
- C. A Custom Price Book is a subset of the Products listed in the Standard Price Book.

Answer: A,C

NEW QUESTION # 181
Admin wants to restrict visibility of product support cases to a set of five users with different roles. How can he achieve this requirement?

- A. Create Public Group and add those five users in groupand use Sharing rule to grant access that public group
- B. Create New Profile and Provide all five users with View All and Modify All permission to cases.
- C. Add permission sets to grant access to the product support record type to the set of five users
- D. Change the profile setting of each user's profile to provide access to cases with product support record type
- E. Change the OWD settings of cases to public read-only

Answer: A

NEW QUESTION # 182
An administrator is given a .csv file of 5,000 leads with External Id and Status fields. They need to match existing and add new records with Data Loader.
What action should be taken to populate the Status field on the records and add new records?

- A. Export
- B. Update
- C. Insert
- D. Upsert

Answer: D

Explanation:
Upsert is an operation that can either update existing records or insert new records based on the External Id field. This way, the administrator can match existing leads and add new ones with Data Loader. References:
