What is RPFT?

Effective June 2015, the Certification Examination for Entry-Level Pulmonary Function Technologists (CPFT) and the Registry Examination for Advanced Pulmonary Function Technologists (RPFT) will transition to a one-examination, two-cut scores examination. If a candidate achieves the lower cut score, they will earn the CPFT credential. If a candidate achieves the higher cut score, they will earn the RPFT credential. The new Pulmonary Function Technologist (PFT) Examination is designed to objectively measure essential tasks required of a pulmonary function technologist. The PFT Examination will contain 115 multiple-choice items (100 scored, 15 pretest) distributed among the three major content areas: instrumentation/equipment, procedures, and data management. Candidates will be given two hours to complete the PFT Examination.
