NEW QUESTION # 67

Which statement is a value from the Agile Manifesto?

- A. Customer collaboration over contract negotiation
- B. Customer collaboration over a constant indefinite pace
- C. Customer collaboration over Feature negotiation

- D. Customer collaboration over ongoing internal conversation

Answer: A

Explanation:

This statement is one of the values from the Agile Manifesto. The Agile Manifesto is a declaration of four values and twelve principles that guide Agile software development. The four values are: individuals and interactions over processes and tools; working software over comprehensive documentation; customer collaboration over contract negotiation; and responding to change over following a plan. Customer collaboration over contract negotiation means that Agile teams value building strong relationships with their customers based on trust, feedback, and shared understanding, rather than relying on rigid contracts that limit flexibility and creativity. NEW QUESTION # 68

What is "precisely specify value by product" central to?

- A. Lean Thinking
- B. Agile Manifesto
- C. SAFe Principles
- D. SAFe Core Values

Answer: A

Explanation:

Explanation

"Precisely specify value by product" is central to Lean thinking. Lean thinking is a philosophy and a set of principles and practices that aim to eliminate waste and optimize value delivery. Value is defined as anything that a customer is willing to pay for or that meets their needs or desires. Value is specified by product, which means that each product or service should have a clear and explicit definition of what value it provides to the customer and how it differs from other products or services. Specifying value by product helps avoid ambiguity, confusion, and inefficiency in the value delivery process. References: Thriving in the Digital Age, SAFe Principle #1
