Scrum SAFe Practitioner Exam (6.0) Sample Questions (Q242-Q247):

NEW QUESTION # 242

Which of the following SAFe Core Competencies of Business Agility includes the Customer Centricity and Design Thinking dimension?

- A. Lean-Agile Leadership
- **B. Agile Product Delivery**
- C. Lean Portfolio Management
- D. Continuous Learning Culture

Answer: B

Explanation:

Agile Product Delivery is one of the SAFe Core Competencies of Business Agility that includes the Customer Centricity and Design Thinking dimension. Agile Product Delivery is a customer-centric approach to defining, building, and releasing a continuous flow of valuable products and services to customers and users. It requires a close collaboration between the business and IT, and a focus on delivering solutions that meet the current and future needs of the customers and users. Customer Centricity and Design Thinking are key aspects of Agile Product Delivery that help enterprises understand their customers and users better, empathize with their problems and goals, and co-create solutions that delight them. Customer Centricity and Design Thinking also enable enterprises to validate their assumptions and hypotheses, and pivot when necessary to achieve the desired outcomes. NEW QUESTION # 243

What is one result from Iteration Planning for SAFe Scrum Teams?

- A. Iteration estimate
- B. Iteration sequencing
- **C. Iteration goals**
- D. Iteration demo

Answer: C

Explanation:

One of the results from Iteration Planning for SAFe Scrum Teams is the Iteration goals, which are short, specific, and measurable statements that describe what the Agile team intends to accomplish in an Iteration.

The Iteration goals are derived from the team backlog, the PI objectives, and the team vision. The Iteration goals help to align the team to a common vision of work in the Iteration, and provide clarity, focus, and motivation. The Iteration goals also enable the team to communicate their progress and dependencies to other teams and stakeholders, and to demonstrate value delivery in the system demo. References: Exam Study Guide: SP (6.0) - SAFe Practitioner, Iteration Goals

NEW QUESTION # 244

What is the role of the System Architect/Engineer?

- **A. To guide the teams and support the Architectural Runway**
- B. To manage dependencies
- C. To define the design for the system
- D. To implement continuous improvement methods

Answer: A

Explanation:

The role of the System Architect/Engineer in SAFe is to guide the teams and support the Architectural Runway, which is the existing code, components, and technical infrastructure needed to implement near-term features without excessive redesign and delay. The System Architect/Engineer defines and communicates the technical and architectural vision for the solutions developed by an Agile Release Train (ART), ensuring that they fit the intended purpose and align with the enterprise and solution architecture. The System Architect

/Engineer also collaborates with various roles, teams, and stakeholders within and outside the ART to ensure that the system architecture supports the evolving business needs and enables fast and reliable implementation. - Scaled Agile Framework

NEW QUESTION # 245

Kanban is a pull system

- A. FALSE
- **B. TRUE**

Answer: B

NEW QUESTION # 246

Which of the following roles is responsible for prioritizing the Agile Team Backlog?

- A. Release Manager
- B. Release Train Engineer
- C. Scrum Master/ Team Coach
- **D. Product Owner**

Answer: D

Explanation:

According to SAFe, the Product Owner (PO) is the member of the Agile Team who serves as the customer proxy and is responsible for working with Product Management and other stakeholders to define and prioritize stories in the Team Backlog¹. The PO has the primary role of ensuring that the team delivers value to the business and aligns with the Program Backlog². The PO collaborates with the team, the Scrum Master /Team Coach, and other stakeholders to refine, order, and maintain the Team Backlog³. The PO also participates in PI Planning, Iteration Planning, System Demo, and Inspect and Adapt events⁴.
