Scrum SAFe-Practitioner (SAFe 5 Practitioner (SP)) exam is a certification that validates a person's skills and abilities in implementing Agile methodologies and delivering value to organizations using the Scaled Agile Framework (SAFe). SAFe

Practitioner Exam (6.0) certification exam is designed for individuals involved in implementing and executing Agile practices in organizations. It covers advanced concepts involved in applying Agile principles at scale to improve business outcomes.

The SAFe 5 Practitioner certification is highly valued in the Agile community, as it demonstrates an individual's ability to lead Agile teams and implement SAFe principles and practices at the enterprise level. Organizations that adopt SAFe principles and practices can deliver higher-quality products and services, decrease time-to-market, and improve customer satisfaction. The SAFe 5 Practitioner certification is a valuable asset for individuals looking to advance their careers in Agile and pursue leadership roles in Agile adoption at the enterprise level.

Scrum SAFe Practitioner Exam (6.0) Sample Questions (Q66-Q71):

NEW QUESTION # 66

Which of the below are Core Competencies for Business Agility?

- A. Agile Product Delivery
- B. Continuous Learning Culture
- C. Continuous Integration
- D. Lean Portfolio Management

Answer: A,B,D

NEW QUESTION # 67

The primary goal of SAFe is to achieve what?

- A. Learn Portfolio Management
- B. Business Agility
- C. Customer centricity
- D. Organizing around value

Answer: B

Explanation:

Business agility is the ability to compete and thrive in the digital age by quickly responding to market changes and emerging opportunities with innovative business solutions¹. It is the primary goal of SAFe, as it enables enterprises to deliver value faster, better, and more sustainably². SAFe provides a set of principles, practices, competencies, and values that help organizations achieve business agility³. NEW QUESTION # 68

Which implementation step follows Coach ART Execution on the SAFe Implementation Roadmap?

- A. Organize Around Value
- B. Train Executives, Leaders, and Managers
- C. Launch more ARTs and Value Streams
- D. Accelerate

Answer: C

Explanation:

According to the SAFe Implementation Roadmap¹, the step that follows Coach ART Execution is Launch more ARTs and Value Streams. This step involves identifying and launching additional ARTs and Value Streams that are needed to deliver the full solution value. It also involves synchronizing the dependencies and alignment across the ARTs and Value Streams, and establishing Solution Trains to coordinate them. This step is essential to scale up the benefits of SAFe and achieve business agility. NEW QUESTION # 69

What is the focus of Lean Thinking?

- A. Ensuring respect for people and culture
- B. Moving to an iterative development process
- C. Implementing objective measures of progress
- D. Reducing delays

Answer: D

Explanation:

Lean Thinking is a philosophy that aims to create value for customers by eliminating waste and unnecessary steps in company processes. One of the main sources of waste is delay, which can be caused by long lead times, large batch sizes, excessive inventory, poor quality, and lack of coordination. Reducing delays can improve customer satisfaction, increase efficiency, and lower costs. Lean Thinking is based on two pillars: respect for people and continuous improvement. Respect for people means empowering and engaging employees, customers, and stakeholders to participate in problem-solving and innovation. Continuous improvement means constantly seeking ways to improve the process and the product by applying the Plan-Do- Check-Act cycle and the scientific method.
