They tried their best to design the best SAFe-SPC study materials from our company for all people. By our study materials, all people can prepare for their SAFe-SPC exam in the more efficient method. We can guarantee that our study materials will be suitable for all people and meet the demands of all people,

including students, workers and housewives and so on. If you decide to buy and use the SAFe-SPC Study Materials from our company with dedication and enthusiasm step by step, it will be very easy for you to pass the exam without doubt. We sincerely hope that you can achieve your dream in the near future by the SAFe-SPC study materials of our company.

Scaled Agile SAFe Practice Consultant SPC (6.0) Sample Questions (Q21-Q26):

NEW QUESTION # 21

What metric measures the organization's proficiency in the practices that enable Business Agility?

- A. Flow
- **B. Competency**
- C. Outcome
- D. Performance

Answer: B

Explanation:

SAFe 6.0 uses "Competency" as the primary metric to measure an organization's proficiency in the seven core competencies that enable Business Agility. These are assessed using the SAFe Business Agility Assessment and the SAFe Core Competency Assessments. The results show how well the organization is performing in practices that drive Business Agility.

SAFe 6.0, "Measuring Business Agility" and "SAFe Core Competency Assessments" SPC 6.0 Guide, "Accelerating to Business Agility"

NEW QUESTION # 22

What do Value Streams deliver?

- A. Strategic Themes
- B. Agile Release Trains
- **C. Solutions**
- D. Cyber-physical systems

Answer: C

NEW QUESTION # 23

(Select 2) What are the responsibilities of a Business Owner?

- A. Determine the product Roadmap
- B. Assign business value to Epics and Features.
- **C. Assign business value to Team Objectives during PI Planning.**
- D. Ensure that the Solution Demo occurs.
- **E. Participate in Post-PI Planning and assist trains in adjusting ART PI plans as needed.**

Answer: C,E

Explanation:

A: Business Owners assign business value to PI Objectives during PI Planning, ensuring alignment with business priorities and objectives.

B: Business Owners participate in PI events (including Post-PI Planning) and help ARTs adjust plans to better meet business needs.

Assigning value to Epics/Features (C) is the responsibility of Product Management. Ensuring the Solution Demo (D) is a shared leadership responsibility, not specific to Business Owners. Determining the roadmap (E) is owned by Product Management.

SPC 6.0 Guide: "Business Owners assign business value to objectives and participate in PI Planning and ART events."

NEW QUESTION # 24

Cultural change must come before you start a SAFe implementation.

- A. False
- B. True

Answer: A

Explanation:

SAFe recognizes that cultural change occurs alongside, not before, SAFe implementation. Leading change, including shifts in mindset and behavior, is integral to the SAFe Implementation Roadmap and happens through practice and reinforcement as the framework is adopted.

"Cultural change happens concurrently with the implementation of SAFe-not as a prerequisite. Mindset and behaviors evolve as people begin to experience new ways of working." (Source: SAFe 6.0 Framework: Implementation Roadmap; SPC 6.0 Guide "Leading the Change")

NEW QUESTION # 25

(Select 2) What are the ways to evolve the Solution Intent from variable to fixed scope?

- A. Creating work breakdown structures.
- B. Adapting WIP limits
- C. Building prototypes
- D. Modeling

Answer: C,D

Explanation:

Solution Intent captures the "single source of truth" regarding the current and intended behavior of the solution. As solutions evolve, so does the Solution Intent-from variable (unknown, undecided) to fixed (known, decided). Ways to evolve the Solution Intent include:

Modeling: Documenting aspects of the solution using models helps clarify and fix certain elements.

Building prototypes: Prototypes allow for validation and learning, which in turn help evolve the intent from exploratory (variable) to more defined (fixed).

Creating work breakdown structures is not a recommended SAFe practice for evolving Solution Intent.

Adapting WIP limits pertains to flow, not directly to Solution Intent.
