Revenue-Cloud-Consultant-Accredited-Professional Exam Questions And Answers assist people to master the real test questions and key knowledge so that candidates will feel easy and casual in real test so that they can clear exams and obtain a Salesforce certification certainly.

Salesforce Revenue-Cloud-Consultant-Accredited-Professional Exam Syllabus Topics:

Topic	Details
Topic 1	Revenue Cloud Technical Design: In this topic, Salesforce consultants delve into CPQ and Billing design solutions, evaluating the capabilities of managed packages while assessing implications of legacy data. Consultants will determine when customization is necessary and identify project risks. Mastering this area ensures expertise in architecting robust Revenue Cloud solutions while mitigating implementation challenges.
Topic 2	Revenue Cloud Implementation Management: This topic equips Salesforce consultants to lead CPQ and Billing scoping sessions effectively, capture comprehensive solution designs, and prepare for Revenue Cloud projects. Emphasis is placed on managing activities across build, test, deployment, and support phases. Success in this section reflects proficiency in executing end-to-end implementation strategies.
Topic 3	New Release Capabilities: In this topic, Salesforce consultants explore the impact of new release capabilities on existing designs. The topic gives an understanding of the importance of aligning solutions with current and available functionalities.

Salesforce Revenue Cloud Consultant Accredited Professional Exam is a valuable certification for professionals who have experience working with Salesforce Revenue Cloud. It demonstrates their expertise in implementing Revenue Cloud solutions and advising clients on revenue management best practices. Salesforce Revenue Cloud Consultant Accredited Professional certification can open up new career opportunities and enhance an individual's credibility in the field of revenue management.

Salesforce Revenue Cloud Consultant Accredited Professional certification is beneficial for professionals who work in revenue management, finance, accounting, and consulting. It demonstrates to employers and clients that the individual has the knowledge and skills to implement Revenue Cloud solutions that can help their organization streamline their revenue management processes and improve their overall financial performance.

Salesforce Revenue Cloud Consultant Accredited Professional Sample Questions (Q60-Q65):

NEW QUESTION # 60

what are 3 risks when using too many cross-object formula fields in a revenue cloudproject?

- A. Formula fields have unlimited access to objects many relationships away which makes itvulnerable to data changes
- B. Formula field are editable after thecalculation completes the Sales user or processautomation can overwrite its value
- C. They can easily exceed limits if not carefully designed and tested
- D. Formulas field data is not always available during CPQ quote calculation
- E. They are computationally expensive

Answer: A,D,E

NEW QUESTION # 61

What does RASIC stand for?

- A. Responsible, Actionable, Supporting, Informed, Consulted
- B. React, Action, Support, Informed, Consulted
- C. Responsible, Actionable, Supporting, Informed, Communicate
- D. Responsible, Accountable, Supporting, Informed, Consulted

Answer: D

Explanation:

RASIC is an acronym used in project management to define the roles and responsibilities of each person who interacts with the project. Each letter represents a designated role in a task's completion:

R (Responsible): This is the task lead - the individual who is ultimately responsible for getting the job done. There should only be one person responsible.

A (Accountable): This is the person, or people, who will approve or deny the task once it's complete. The person responsible can also play this role, but it can also be a technical expert or stakeholder.

S (Supporting): The individual(s) in this role actively work on the task and help the person responsible.

I (Informed): The individual(s) in this role need to be informed of the task's progress and any decisions being made. These are the people who need to know when the task is complete.

C (Consulted): People in this role offer advice or guidance but do not actively work on the task. These are often subject matter experts who offer guidance or one-time technical reviews.

NEW QUESTION # 62

A revenue cloud consultant determines that price rules will not address additionalcalculation steps to accurately set the quote line list price needed for a project. What isthe next functionality that should be investigated that will address the requirements?

- A. A Quote Calculator plugin(QCP)
- B. Use a Record Change Flow to trigger on the Quote Line.
- C. Use an Apex Trigger on the Quote Line
- D. Set Pricing Method to Custom

Answer: A

Explanation:

In Salesforce Revenue Cloud, if price rules are not sufficient to accurately set the quote line list price for a project, the next functionality to consider would be a Quote Calculator Plugin (QCP)¹. A QCP is a JavaScript snippet that you can use to perform complex calculations and manipulations on quote lines¹. It provides a way to customize the calculation sequence that happens when a quote is calculated¹. This can be particularly useful when there are additional calculation steps needed that are not addressed by standard price rules¹. References

NEW QUESTION # 63

Universal Containers recently migrated legacy contracts and subscriptions into Salesforce in order to facilitate amendments and renewals in CPQ. However, sales users are getting the 'attempt to de-reference a null object' error when amending the legacy contract. What is the most likely cause for the error?

- A. Required fields are missing or incorrectly populated on the legacy contract and subscription data
- B. Legacy subscription data are missing a lookup to a source quote line record
- C. Migrated contracts and subscriptions cannot be amended using Salesforce CPQ
- D. Amendment of legacy contract and subscription data requires asset-based renewal method

Answer: A

Explanation:

The error 'attempt to de-reference a null object' typically occurs when there is an attempt to access a field or method on an object that has not been initialized or has been assigned a null value. In the context of Salesforce Revenue Cloud, when amending legacy contracts and subscriptions, this error can occur if required fields are missing or incorrectly populated on the legacy contract and subscription data. This could be due to incorrect data migration or manual data entry errors. It's important to ensure that all required fields are correctly populated when migrating legacy data to Salesforce CPQ.

NEW QUESTION # 64

Universal Containers is beginning the process of SKU rationalization as part of their Revenue Cloud project. They have been advised that rationalizing their product catalog will reduce complexity and increase flexibility. Which three areas can they look to consolidate products?

- A. Same product names with different attribute values
- B. Same products with different serial numbers
- C. Same product names with different Term length
- D. Same product names commonly found in the same bundle
- E. Same product names with different bulk discount levels

Answer: A,C,D

Explanation:

SKU rationalization is a process that involves reviewing and trimming down the product variety to focus on the most profitable SKUs¹. This process is crucial in managing SKU proliferation, which refers to the creation of multiple product records for various product combinations offered, even though they are the same product, merely sold under different scenarios².

In the context of Salesforce Revenue Cloud, SKU rationalization can be achieved through the consolidation of products in the following areas:

B) Same product names with different attribute values: Products that are essentially the same but have different attribute values can be consolidated. This reduces the complexity of the product catalog and makes it easier to manage².

- D) Same product names commonly found in the same bundle: Products that are often sold together in the same bundle can be consolidated. This not only simplifies the product catalog but also makes it easier for customers to make purchases2.
- E) Same product names with different Term length: Products that are the same but have different term lengths can be consolidated. This can simplify the product catalog and make it easier for customers to understand the products they are purchasing2.
