Salesforce Salesforce-Data-Cloud Valid Test Notes - Salesforce-Data-Cloud Test Online

One of the biggest highlights of the Salesforce Data Cloud Accredited Professional Exam prep torrent is the availability of three versions: PDF, app/online, and software/pc, each with its own advantages: The PDF version of Salesforce-Data-Cloud Exam Torrent has a free demo available for download. You can print exam materials out and read it just like you read a paper. The online version of Salesforce-Data-Cloud test guide is based on web browser usage design and can be used by any browser device. At the same time, the first time it is opened on the Internet, it can be used offline next time. You can practice anytime, anywhere. The Salesforce Data Cloud Accredited Professional Exam software supports the MS operating system and can simulate the real test environment. The contents of the three versions are the same. Each of them neither limits the number of devices used or the number of users at the same time. You can choose according to your needs.

Salesforce Data Cloud Accredited Professional Exam Sample Questions (Q85-Q90):

NEW QUESTION # 85

How many calculated insights can be created per tenant?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:

The maximum number of calculated insights that can be created per tenant is 50. A calculated insight is a metric that defines and calculates a multidimensional measure on your data. You can use calculated insights to create segments and analyze your data in Data Cloud. You can also use calculated insights to create dashboards and reports in Tableau CRM. References: Calculated Insights

NEW QUESTION # 86

What should be the type of the Event Time Field while ingesting Engagement data?

- A. Inconsistent
- B. None of the above
- C. Mutable
- **D. Immutable**

Answer: D

Explanation:

The type of the Event Time Field while ingesting Engagement data should be Immutable. Immutable means that the field value cannot be changed once it is ingested. The Event Time Field is a mandatory field for Engagement data that represents the timestamp of when an event occurred. It is important to keep this field immutable to ensure the accuracy and consistency of the event data.

References: Engagement Data Model

NEW QUESTION # 87

What is a DMO called if it inherits the name, shape, and semantics of the reference object?

- A. Custom DMO
- B. Data Source Object (DSO)
- **C. Standard DMO**
- D. Data Lake Object (DLO)

Answer: C

Explanation:

A Data Model Object (DMO) that inherits the name, shape, and semantics of the reference object is called a Standard DMO. A reference object is a predefined object in the Data Cloud data model that represents a common entity or concept, such as Individual, Order, or Product. A Standard DMO is a copy of a reference object that you can use to ingest data from a specific source without modifying the original reference object. A Standard DMO has the same fields and relationships as the reference object, but you can add custom fields or relationships to it if needed. References: Data Model Objects

NEW QUESTION # 88

What are three benefits of Calculated Insights over Segmentation Operators?

- **A. Calculated Insights are better suited for complex queries over multiple objects**
- **B. Calculated Insights are better suited for non-trivial calculations, such as calculating a Net Promoter Score as a percentage**
- **C. Calculated Insights can query engagement data greater than 2 years**
- D. Calculated Insights results can be refreshed near real time
- E. Calculated Insights are better suited for single row based operation

Answer: A,B,C

Explanation:

Calculated Insights are predefined and calculated metrics that can help you build segments. Some of the benefits of Calculated Insights over Segmentation Operators are:

Calculated Insights are better suited for non-trivial calculations, such as calculating a Net Promoter Score as a percentage, which would require multiple steps and operators in segmentation.

Calculated Insights can query engagement data greater than 2 years, while segmentation operators are limited to 2 years of

engagement data.

Calculated Insights are better suited for complex queries over multiple objects, such as joining data from different sources or aggregating data across different levels.

NEW QUESTION # 89

How many Metrics can be present in 1 segment container?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: A

Explanation:

Explanation

Only one metric can be present in one segment container. A segment container is a logical grouping of segments that share the same metric and granularity. A metric is a calculated insight that defines and calculates a multidimensional measure on your data. A granularity is the level of detail at which you want to analyze your data, such as daily, weekly, or monthly. You can create multiple segment containers with different metrics and granularities, but each segment container can only have one metric. References: Segment Containers

NEW QUESTION # 90

.....

Nowadays, there are more and more people realize the importance of Salesforce-Data-Cloud, because more and more enterprise more and more attention it. If someone pass the Salesforce-Data-Cloud exam and own relevant certificates that mean he had good grasp of this field of knowledge, that is to say, he will be popular and valued by more enterprise. In order to help most candidates who want to Pass Salesforce-Data-Cloud Exam, so we compiled such a study materials to make exam simply. Our Salesforce-Data-Cloud guide torrent has gone through strict analysis and summary according to the past exam papers and the popular trend in the industry and are revised and updated according to the change of the syllabus and the latest development conditions in the theory and the practice.
