We know that your time is very urgent, so we do not want you to be delayed by some unnecessary trouble.

Salesforce Certified Slack Administrator Sample Questions (Q17-Q22):

NEW QUESTION # 17

How many integrations can be installed on a workspace on the Standard plan?

- A. 25 integrations
- B. 5 integrations
- C. Unlimited
- D. 10 integrations

Answer: C

Explanation:

On the Standard plan (and higher tiers), Slack allows:

"Unlimited app integrations, meaning you can install as many apps from the Slack App Directory or custom-built apps as needed."

There are no integration limits beyond any practical workspace-specific guidelines.

-

NEW QUESTION # 18

GoodAdvertisements Inc works with several companies to support global advertising campaigns and are on a paid plan. They are preparing for a campaign launch that requires input from multiple companies.

GoodAdvertisements Inc wants the ability to coordinate effectively with the companies before and during their respective launch in a private channel, but it is not clear whether the companies use paid Slack plans.

The Admins at the company want to take security precautions before inviting any outside individuals into their Slack workspace.

What is the best way for the Admins to have the individuals from the outside companies join the Slack workspace and ensure the process scales for future launches with other companies?

- A. Require that invitations get approval via a #guest-invitation-approval channel so Admins can action the requests and inform project leaders to invite individuals from outside companies as Single-Channel Guests. Set expiry dates for the Single-Channel Guests.
- B. Require that invitations get approval via a #guest-invitation-approval channel so Admins can action the requests and inform project leaders to invite individuals from outside companies as Multi-Channel Guests. Set expiry dates for the Multi-Channel Guests.
- C. Have the Admins individually send out Single-Channel Guest invitations.
- D. Ask the outside companies to upgrade to the paid plan. Then, share the launch channel externally to the companies, and set a reminder to unshare the channel when the launch is complete.

Answer: A

Explanation:

The best practice in Slack for securely collaborating with external partners is:

"Use Single-Channel Guests for external users when collaboration is limited to specific channels. Admins should control guest approvals, ideally via a private approval workflow, and set expiry dates for guest accounts to ensure access is revoked after projects end." Multi-Channel Guests (Option B) provide broader access than necessary, and manually inviting guests (Option C) does not scale well. Asking companies to upgrade (Option D) is unrealistic for scalable collaboration.

(Reference: Slack Administration Study Guide - Guest Management and External Collaboration)

-

NEW QUESTION # 19

Your company, Alpha Corp, highly prioritizes information security. The company has just set up Slack Connect channels to work with Beta Corp, Slack Connect direct messages (DMs) are disabled at this time. Given this, your Chief Information Officer (CIO) wants to know whether your organization's users can communicate with external users from Beta Corp using Slack Connect Dis.

What should you tell the CIO?

(Select the best answer.)

- A. Alpha Corp users cannot DM anyone from Beta Corp since Slack Connect Dis are disabled.
- B. Alpha Corp users can DM any Beta Corp users now that the two organizations have been connected.
- C. Alpha Corp users can DM any Beta Corp users that are in the same Slack Connect channels as they are.
- D. Workspace Admins can give access to specific Alpha Corp users to DM with Beta Corp.

Answer: A

NEW QUESTION # 20

Large Corp is shutting down its Marketing team based in Europe. Deprovisioning is supported through their IdP.

When Large Corp removes users from their IdP, what will happen to their Slack accounts?

- A. Their accounts will be deactivated, but they won't be signed out of their devices. A session reset is also required.
- B. Their accounts will be deactivated, they will be signed out on all of their devices, and their accounts will be removed from channels. However, only their messages and files in direct messages will be deleted.
- **C. Their accounts will be deactivated, they will be signed out on all of their devices, and their accounts will be removed from channels. However, their messages and files won't be deleted.**
- D. Their Slack accounts will be deleted permanently, and all messages and files will be deleted, as well, for compliance reasons.

Answer: C

Explanation:

When users are deprovisioned via SCIM or IdP integration:

"Their accounts are deactivated, they are signed out from all sessions, and their accounts are removed from channels, but their messages and files remain intact in Slack unless a separate data retention policy dictates otherwise." Slack retains historical content unless specifically configured for deletion.

(Reference: Slack Administration Study Guide - Deactivation and Deprovisioning via SCIM)

-

NEW QUESTION # 21

You're an Org Owner on your organizations slack enterprise grid instance an employee recently quit and there's a concern that the employee exported sensitive information prior to leaving. the security team know what this former employee may have accessed What should you do?

(Select the best answer.)

- A. Revoke the encryption key with the Enterprise Key Management (EKM) feature so that the data from the former employee's account is protected.
- B. Use the member analytics dashboard to confirm the former employee's account activity.
- **C. Export the former employee's access logs from the admin dashboard.**
- D. Access your security information and event management (SIEM) tool to view actions logged by the former employee.

Answer: C
