Salesforce Salesforce-Slack-Administrator Prüfungsplan:

Thema	Einzelheiten
Thema 1	• App Administration: This section evaluates the skills of Slack Administrators in managing applications within Slack. Candidates will summarize the value of interoperability for both decision-makers and end-users while learning to use Workflow Builder for automating tasks.
Thema 2	• Channel and User Group Administration: This section measures the skills of Salesforce Administrators in setting up and managing Slack channels. Candidates will learn when to use channels versus direct messages or group DMs, as well as when to opt for public or private channels.
Thema 3	• Fundamentals: This section of the exam measures the skills of Salesforce Administrators and covers the key privileges and responsibilities associated with each Slack user role. Candidates will identify unique features of Slack's paid plans and understand the common responsibilities shared by Admins and Owners. Additionally, this section emphasizes the importance of workspace and organization-level settings and dashboards, focusing on how they contribute to effective Slack management.

Falls Sie die Salesforce Salesforce-Slack-Administrator Prüfung nicht wunschgemäß bestehen, geben wir Ihnen volle Rückerstattung zurück, um Ihren finanziellen Verlust zu kompensieren.

Salesforce Certified Slack Administrator Salesforce-Slack-Administrator Prüfungsfragen mit Lösungen (Q38-Q43):

38. Frage

You're a prospective customer looking to purchase Slack for your organization of approximately 50 employees. You need to ensure that the plan supports SAML single sign-on (SSO) for authentication.

Which plan(s) fit the requirement?

- A. Business+ and Enterprise Grid
- B. Free, Pro, Business+ and Enterprise Grid
- C. Enterprise Grid only
- D. Pro, business+ and Enterprise Grid

Antwort: D

39. Frage

The Customer Support team for Large Inc is now using Slack to access the tools and information they need to help customers quickly.

As an Admin, what should you do to set them up for success? (Choose all that apply.)

- A. Approve and install apps to integrate their support tools with Slack.
- B. Streamline an incident management workflow.
- C. Organize and name channels in a way that makes information, procedures, and policies easier for people to find.
- D. Allow everyone on the Customer Support team to approve and install the apps they need.

Antwort: A,B,C

Begründung:

Slack recommends Admins:

"Approve and install key apps to ensure security, streamline workflows (such as for incident management), and organize channels to make information discoverable." Allowing all members to approve apps (Option A) is discouraged because it can pose a security risk.

40. Frage

The marketing team at ACME Ltd has 10 team members, and has a public channel called #marketing- discussion. The team collaborates and shares ideas on this channel. Now, other teams have joined, so the total channel membership is 50.

The marketing director has the following needs:

There is an urgent marketing idea that must be prioritized in tomorrow morning's planning meeting.

The 10 team members are the only ones attending the planning meeting.

The 10 team members need to be notified before the meeting.

Of note, the marketing director sends urgent re-prioritization messages weekly. How should the marketing director reach the marketing team?

- A. Send a separate direct message to each of the 10 team members notifying them of the change.
- B. Post a message to #marketing-discussion, without notifying anyone.
- C. Use @here and @channel to notify the entire channel of the change.
- D. Create an @marketing-team user group and use the @marketing-team user group in #marketing- discussion to communicate the change in priority to the team that needs to be informed for tomorrow's team meeting.

Antwort: D

41. Frage

You're an Org Owner hoping to help your admins implement an automated approval process for app and integration requests.

What is the best approach to take?

- A. * Create a list of trusted members for app and integration approvals.
* Enable custom approval status notifications to approvers.
* Create rules at both the Enterprise Grid and workspace level.
- B. * Create rules to approve apps and integrations based on their licensing cost.
* Enable custom approval status notifications to requesters.
* Create rules at the workspace level.
- C. * Create an ordered list of conditional rules for app and integration approvals.
* Enable custom approval status notifications to requesters.
* Create rules at both the Enterprise Grid and workspace level.

Antwort: C

Begründung:

Slack automation for app approvals suggests:

"Admins can define conditional rules to automatically approve or restrict apps and integrations and notify requesters of the approval status, while creating rules both at the org and workspace level for flexibility." Listing trusted members (B) does not automate the process. Cost-based approvals (C) are too narrow and risky.

(Reference: Slack Administration Study Guide - Automating App and Integration Approvals)

42. Frage

Pawnee Technologies is a global cloud software company that uses Slack Enterprise Grid to communicate and collaborate. You're a Slack Workspace Admin for your company's External workspace where your team collaborates with external partners. Today you're onboarding a new team member who will need to log in and join your workspace. You receive a direct message (DM) from them reporting a problem. While they had no issues joining the Global and Social workspaces, they report that Slack isn't giving them an option to join the External workspace, even though it shows up when they search for it.

Why is the new hire unable to join your workspace?

(Select the best answer.)

- A. The workspace requires an invitation from the Workspace Admin to join.
- B. The workspace requires the new member to request to join.
- C. The workspace requires approval from the external partner for new members to join.
- D. The Workspace Admin must add the new hire as a Single Channel Guest to the workspace.

Antwort: A

Begründung:

In Slack Enterprise Grid, for workspaces set to Invite Only (especially those involving external partners), users must be explicitly invited.

According to Slack documentation:

"Invite-only workspaces require an invitation from a Workspace Admin before members can join." Because the External workspace is likely Invite Only for security reasons, the new hire must be invited to join it. Searching and seeing the workspace does not bypass the requirement.
