C-ACDET-2506 Latest Test Fee, Test C-ACDET-2506 Dumps.zip

All the advantages of our C-ACDET-2506 exam braindumps prove that we are the first-class vendor in this career and have authority to ensure your success in your first try on C-ACDET-2506 exam. We can claim that prepared with our C-ACDET-2506 study guide for 20 to 30 hours, you can easy pass the exam and get your expected score. Also we offer free demos for you to check out the validity and precise of our C-ACDET-2506 Training Materials. Just come and have a try!

**SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite
Sample Questions (Q45-Q50):**

NEW QUESTION # 45

Which document must be returned to SAP before a Deployment Lead can be assigned to the project?

- A. Solution Design Matrix
- B. Enablement Workbook
- C. Deployment Overview
- **D. Delivery Engagement Readiness Checklist**

Answer: D

Explanation:

The Delivery Engagement Readiness Checklist is a critical gatekeeper document that confirms all prerequisites and readiness criteria have been met before SAP assigns a Deployment Lead to a project. This checklist ensures project scope, resourcing, access, and other foundational elements are in place to proceed.

Other documents like Deployment Overview and Enablement Workbook are informative or internal project management tools but do not formally trigger Deployment Lead assignment. The Solution Design Matrix is a design artifact and not a staffing gating document.

This process supports structured project governance and resource allocation within SAP.

NEW QUESTION # 46

How can you set the order of your custom Contract Workspace fields? (Select 2 correct answers)

- **A. Select Field Configuration and under the Advanced tab set the Sequence property, then publish.**
- **B. Select Field Configuration, find the class, and select the Layout tab. Drag and drop the order of the fields, then publish.**
- C. Navigate to the UI where the class is presented, select Customize in the banner, edit, and drag and drop fields, then publish.
- D. Fields are presented in alphabetical order of the field label.

Answer: A,B

Explanation:

Custom Contract Workspace field order can be controlled through two methods:

* Using the Layout tab in Field Configuration, where fields can be dragged and dropped to reorder them visually, followed by publishing the changes.

* Using the Sequence property under the Advanced tab, assigning numeric values that define the sort order, with lower numbers appearing first. Option B is incorrect because UI banner customization does not manage field order in Contract Workspace screens. Option C is incorrect; field order is controlled by explicit settings, not alphabetical label order.

NEW QUESTION # 47

Users are able to publish a contract workspace without populating the Supplier field.

What action can be performed on the Supplier field to force population before publishing?

- **A. Enable Require value before publish**
- B. Configure a validity condition
- C. Configure a visibility condition
- D. Enable Required

Answer: A

NEW QUESTION # 48

A Migration is performed for a Greenfield deployment to production, and the status of the Template configuration type indicates that it Failed. What actions do you take to make the failed template(s) available in production?

- A. The template must always be rebuilt in production
- B. Request SAP intervention
- **C. Import the missing data in production and then import the template in production**
- D. Import the template in production

Answer: C

NEW QUESTION # 49

Which of the following languages is used to define defaults on fields within SAP Ariba?

- A. JavaScript
- B. ABAP
- C. Python
- **D. Ariba expression language**

Answer: D

Explanation:

SAP Ariba uses its proprietary Ariba expression language, based on OGNL (Object-Graph Navigation Language), to define default value expressions on fields. This language supports logical conditions, comparisons, and public Java method calls to create dynamic defaulting logic. ABAP, Python, and JavaScript are not supported languages for field default expressions in SAP Ariba. This expression language provides a concise and powerful way to tailor defaults based on context.

NEW QUESTION # 50

.....

Nowadays the requirements for jobs are higher than any time in the past. The job-hunters face huge pressure because most jobs require both working abilities and profound major knowledge. Passing C-ACDET-2506 exam can help you find the ideal job.
