C-ACDET-2506 learning materials are high-quality, because we have a professional team to collect the latest information for the exam. We can ensure you that C-ACDET-2506 exam braindumps you receive is the latest information we have. Our company is strict with the quality and answers, therefore you just need to use them at ease. We offer you free demo to have a try before buying C-ACDET-2506 Exam Dumps, so that you can have a better understanding of what you are going to buy. In addition, you can receive the download link and password within ten minutes, and if you don't, you can contact us, and we will solve that for you.

SAP C-ACDET-2506 Exam Syllabus Topics:

Topic	Details
Topic 1	Field Configuration: This domain evaluates the knowledge of an SAP Deployment Specialist and focuses on customizing and configuring business fields in the SAP system according to client-specific needs. This includes adjusting system settings for master data, transaction data, and other essential field-level controls to support business processes effectively. The section tests the candidate's ability to use configuration tools, apply SAP standard templates, and ensure that the field configurations align with the desired operational workflows of the business. It also touches upon validation, testing, and documenting the configuration changes made during the implementation.
Topic 2	Deploy and Migration: This part of the exam assesses the expertise of an SAP Deployment Specialist and focuses on the final deployment of the configured solution and the data migration process. Candidates should demonstrate a solid grasp of how to move configurations from a testing environment into production while minimizing disruption. It also includes knowledge of tools and strategies used for data extraction.

Topic 3	• Project Overview, Roles and Responsibilities: This section of the exam measures the skills of an SAP Cloud Consultant and covers the fundamental understanding of SAP Activate methodology within the context of a cloud implementation project. Candidates are expected to be familiar with the project lifecycle, including phases such as Prepare, Explore, Realize, Deploy, and Run. This part also focuses on identifying key roles and responsibilities within a cloud project team, ensuring clarity in collaboration between consultants, clients, and SAP. It checks whether the consultant understands governance, stakeholder management, and the high-level structure of cloud deployment using SAP best practices.

Free PDF Quiz 2025 C-ACDET-2506: Reliable SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Reliable Test Guide

Different age groups prefer different kinds of learning methods. In order to meet the requirements of all people, we have diversified our C-ACDET-2506 exam questions to suit a wider range of lifestyles and tastes. At present, we have PDF version, online engine and software version. You can choose which C-ACDET-2506 test guide version suits you best. Generally, young people are inclined to purchase online engine or software version because they like experiencing new things. Middle aged people are more likely to choose PDF version because they get used to learning the printed SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite test questions. Of course, the combination use of different version of the C-ACDET-2506 Test Guide is also a good choice. You can purchase according to your own tastes.

SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q27-Q32):

NEW QUESTION # 27

While working on editing a field for a customer, you notice that "Editable in full Contract Amendment" is not an option available in the advanced tab of field configuration.

What is likely the cause for this behavior? Note: There are 2 correct answers to this question.

- A. The field you are customizing is standard and therefore cannot be changed.
- **B. The contract must be in an amendment state for this option to be visible in customizing**
- C. A customization is in flight and needs to be cleared and reset prior to making this change.
- **D. The field you are customizing is not in the contract workspace or request classes.**

Answer: B,D

NEW QUESTION # 28

During the configuration of a new custom field, after it's been saved but before the field has been published, you realize that you set the wrong field type. What is the next step you should take to resolve the issue?

- A. Clear and recreate the field with the same field name and the intended field type
- **B. Delete the field and create a new field with the same name and the intended field type**
- C. Change the field type by selecting the intended type in the dropdown and Save
- D. Mark the field as Hidden, and create a new field with a slightly different name and the intended field type

Answer: B

Explanation:

Once a custom field has been saved, its field type cannot be changed—even if the field has not yet been published. The correct approach is to delete the incorrect field and create a new one with the intended type, optionally using the same name to maintain naming consistency. Clearing or hiding the field does not solve the issue, and the system does not allow type changes via the UI once saved. This approach is standard in SAP Ariba field management to avoid data integrity issues.

NEW QUESTION # 29

What is the recommended order of operations for creating a required Flex Master Data (FMD) type field in a project header?

- A. 1. Create the FMD template 2. Load the data 3. Create the FMD type field
- B. 1. Load the data 2. Create the FMD type field 3. Create the FMD template
- C. 1. Create the FMD type field 2. Create the FMD template 3. Load the data
- **D. 1. Create the FMD template 2. Create the FMD type field 3. Load the data**

Answer: D

Explanation:

The correct order is to first create the Flex Master Data (FMD) template, which defines the structure and attributes of the data. Then, create the FMD type custom field in the project header referencing that template. Finally, load the master data records into the template via CSV import. This sequence ensures the field has a valid template to reference, and data is available when users interact with the field.

NEW QUESTION # 30

Which read-only files show the key and English translations for custom field labels and helptips?

- **A. The JSON files that can be exported through AML & Translations Upload**
- B. The JSON files that can be exported through ICM
- C. The customerResource files that can be exported through ICM
- D. The customerResource files that can be exported through AML & Translations Upload

Answer: A

Explanation:

SAP Ariba stores translations for custom field labels and help tips in JSON files exported and imported via AML (Advanced Metadata List) & Translations Upload. These JSON files contain key-value pairs representing the translation keys and their English or localized strings. This mechanism supports language management and bulk updates of translated content.

ICM exports configuration bundles but does not handle translation files in JSON format. CustomerResource files are not the standard format for translation export/import.

Using AML & Translations Upload allows administrators to maintain and update translations across multiple languages efficiently, ensuring consistent user experience in multi-lingual deployments.

NEW QUESTION # 31

Which document outlines the roles and responsibilities for the SAP Deployment Lead assigned to your project?

- A. Partner Statement of Work
- B. Inline Help
- C. Onboard Resource Center
- **D. Deployment Description**

Answer: D

Explanation:

The Deployment Description document formally defines the scope, roles, and responsibilities of the SAP Deployment Lead within a specific SAP Ariba project. It provides clarity on tasks such as migration coordination, technical issue resolution, and stakeholder communication. Other documents like the Onboard Resource Center provide logistical support, the Partner Statement of Work focuses on partner deliverables, and Inline Help offers in-application guidance—not role definitions. The Deployment Description is the authoritative reference for deployment lead responsibilities.

NEW QUESTION # 32

.....

Thanks to modern technology, learning online gives people access to a wider range of knowledge, and people have got used to convenience of electronic equipment. As you can see, we are selling our C-ACDET-2506 learning guide in the international market, thus there are three different versions of our C-ACDET-2506 exam materials which are prepared to cater the different demands of various people. It is worth mentioning that, the simulation test is available in our software version. With the simulation test, all of our

customers will get accustomed to the C-ACDET-2506 Exam easily, and get rid of bad habits, which may influence your performance in the real C-ACDET-2506 exam. In addition, the mode of C-ACDET-2506 learning guide questions and answers is the most effective for you to remember the key points. During your practice process, the C-ACDET-2506 test questions would be absorbed, which is time-saving and high-efficient.
