SAP Certified Associate - Positioning SAP Business AI Solutions as part of SAP Business Suite Sample Questions (Q25-Q30):

NEW QUESTION # 25

What is the primary objective of SAP Responsible Design and Production?

Please choose the correct answer.

Response:

- A. Automate payroll processing
- **B. Support circular economy strategies**
- C. Manage employee benefits
- D. Enhance customer relationship management

Answer: B

NEW QUESTION # 26

Which SAP solution provides a centralized platform for tracking sustainability performance? Please choose the correct answer.

- A. SAP Fieldglass
- B. SAP Business One
- C. SAP Extended Warehouse Management
- **D. SAP Sustainability Control Tower**

Answer: D

Explanation:

SAP Sustainability Control Tower is the centralized platform for tracking and managing sustainability performance across an organization. The correct answer is SAP Sustainability Control Tower, as it is explicitly designed for this purpose.

SAP documentation highlights: "SAP Sustainability Control Tower provides a centralized platform to track, measure, and manage sustainability performance, enabling organizations to achieve their environmental, social, and governance (ESG) goals." It supports "real-time monitoring of sustainability metrics, such as carbon emissions, energy consumption, and waste management," and integrates with other SAP solutions to provide a holistic view of sustainability performance. For example, it enables companies to "set and track sustainability KPIs" and "report on ESG compliance," aligning with global standards.

The incorrect options are not relevant to sustainability performance tracking. SAP Extended Warehouse Management focuses on logistics and inventory management. SAP Business One is an ERP solution for small businesses, not specifically for sustainability. SAP Fieldglass manages contingent workforce and services, not sustainability metrics. SAP Sustainability Control Tower's role in SAP's sustainability portfolio confirms its suitability as the centralized platform.

NEW QUESTION # 27

Match the outcomes in the dropdown lists to the capabilities of Joule

Get the insights you need, when you need them.

Increased workforce productivity, fewer operational errors, and quicker task completion
Higher NPS, better conversion rates, and stronger customer retention
