NEW QUESTION # 25

Which of the following best describes the concept of people sustainability?

- A. paying employees a living wage
- **B. Treating people ethically and fairly**
- C. Identifying the skills required to support sustainability initiatives
- D. Providing employees with benefits such as healthcare.

Answer: B

Explanation:

C . Treating people ethically and fairly - According to learning.sap.com, "People Sustainability ... focuses on treating people ... ethically and fairly" across the workforce, supply chains, and communities.

The other choices don't align with the core definition of people sustainability on learning.sap.com:

* A. Paying employees a living wage - While important, it's a specific action, not the broad concept.

* B. Identifying the skills required to support sustainability initiatives - That's tied to talent management and sustainability skills, but not the overarching definition.

* D. Providing employees with benefits such as healthcare - Important for employee well-being, but still part of tactical benefits rather than the concept itself.

Final correct answer: C. Treating people ethically and fairly.

NEW QUESTION # 26

What is the purpose of total workforce management from SAP?

- A. Proactively managing full-time employees
- B. Automating only manual processes.
- C. Analyzing historical data for strategic planning
- **D. Providing a clear view of the entire workforce**

Answer: D

Explanation:

A . Providing a clear view of the entire workforce - As stated on learning.sap.com, "Total Workforce Management from SAP helps the organization establish a clear view of the entire workforce", including full-time, part-time, and contingent workers.

The other options don't match the SAP description exactly:

* B refers only to full-time employees, but Total Workforce Management covers all workforce segments - internal and external - not just full-time .

* C mentions analyzing historical data for strategic planning. While SAP solutions include analytics, this isn't listed as the core purpose of Total Workforce Management on learning.sap.com.

* D says "automating only manual processes." The site describes reducing manual effort, but that isn't the sole purpose - it's part of a broader goal including visibility and proactive management.

Correct answer: A.

* Learning & Talent Management

* Workforce Analytics & Planning

☐ C. People managers can accelerate key decision-making by quickly identifying employee skills gaps.

* The lesson states: "People managers can accelerate key decision-making by quickly identifying employee skills gaps."

learning.sap.com B is a valid use case-but it's described under SAP Business Technology Platform (BTP) in the context of

onboarding process automation, not SAP Business AI.

D refers to the Opportunity Marketplace, which is used for career growth recommendations-not content curation via AI. The relevant AI-powered feature is actually the Talent Intelligence Hub, not the Opportunity Marketplace.

Correct selections: A and C.
