

# SAP C-BW4H-2404 Dumps PDF To Gain Brilliant Result (2025)

P.S. Free & New C-BW4H-2404 dumps are available on Google Drive shared by iPassleader: <https://drive.google.com/open?id=1s5hH990zGOrUt-AHzuSnNDbKeIDFGtIe>

The clients at home and abroad can both purchase our C-BW4H-2404 study materials online. Our brand enjoys world-wide fame and influences so many clients at home and abroad choose to buy our C-BW4H-2404 study materials. Our company provides convenient service to the clients all around the world so that the clients all around the world can use our C-BW4H-2404 Study Materials efficiently. Our company boosts an entire sale system which provides the links to the clients all around the world so that the clients can receive our products timely.

## SAP C-BW4H-2404 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>SAP Datasphere: This part investigates the implementation of SAP Datasphere, encompassing its modeling components and the SAP BW bridge capabilities.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Data Governance, Security, and Authorization: This part concentrates on safeguarding assets and information within SAP BW</li><li>4HANA and SAP HANA ecosystems.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>SAP BW4HANA Project and Modeling Process: In this topic, candidates learn about how to design and implement efficient data models within environment of the SAP BW</li><li>4HANA.</li></ul>

Topic 4	<ul style="list-style-type: none"> <li>SAP BW Query Design: This portion encompasses the development and implementation of BW queries in the SAP BW</li> <li>4HANA environment.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Performance Optimization: This section scrutinizes elements associated with enhancing system efficiency.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>Data Acquisition into SAP BW</li> <li>4HANA: This section addresses the incorporation of diverse data origins into SAP BW</li> <li>4HANA and the methodologies for data ingestion.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>Data Modeling and Design: This segment delves into the attributes and features of modeling entities within SAP BW</li> <li>4HANA and SAP HANA HDI frameworks.</li> </ul>

## **100% Pass 2025 SAP C-BW4H-2404: Latest SAP Certified Associate - Data Engineer - Data Fabric Test Preparation**

Our C-BW4H-2404 practice engine with passing rate up to 98 percent can build a surely system to elude any kind of loss of you and help you harvest success effortlessly. We are in dire to help you conquer any questions about C-BW4H-2404 training materials emerging during your review. If you want to be accepted as an indispensable member in your working condition, and obliterate opponents from a great distance, start by using our C-BW4H-2404 Exam Prep to pass the C-BW4H-2404 exam now.

### **SAP Certified Associate - Data Engineer - Data Fabric Sample Questions (Q58-Q63):**

#### **NEW QUESTION # 58**

InfoObject "CITY" is defined as a display attribute for InfoObject "CUSTOMER" InfoObject "COUNTRY" is defined as a display attribute for InfoObject "CITY". In a master data report you want to display the "COUNTRY" of a "CUSTOMER".

Which options do you have to realize this scenario? Note: There are 3 correct answers to this question.

- A. Generate external views for "CUSTOMER" "CITY" "COUNTRY" join them in another calculation view.
- B. Include "CUSTOMER" to the rows in the BW Query on "CUSTOMER" activate the Universal Display Hierarchy setting.
- C. Combine "CUSTOMER" "CITY" "COUNTRY" in an Open ODS View using a sequence of associations.
- D. Add "COUNTRY" as a transitive attribute for "CUSTOMER" in InfoObject definition.
- E. Combine "CUSTOMER" "CITY" "COUNTRY" in a Composite Provider using a sequence of left outer join operators.

**Answer: B,C,E**

#### **NEW QUESTION # 59**

How can the delta merge process be initiated in SAP BW/4HANA? Note: There are 2 correct answers to this question.

- A. By setting a specific flag in the transformation
- B. By using the SAP BW/4HANA data load monitor.
- C. By using a specific process type in a process chain
- D. By setting a specific flag in the data transfer process

**Answer: C**

Explanation:

The delta merge process is used to transfer data modifications from the delta storage to the main storage in SAP HANA database. It can be initiated in SAP BW/4HANA in the following ways:

\* By using a specific process type in a process chain, called Trigger for DB Merge. This process type can be added to a process chain and linked to the loading processes that require a delta merge. The process type allows specifying the object type and name for the delta merge.

\* By using the SAP BW/4HANA data load monitor, which is a web-based tool for monitoring and managing data loads. The data load monitor has an option to trigger a database merge for an object after a successful data load.

## NEW QUESTION # 60

What does a Composite Provider allow you to do in SAP BW/4HANA? Note: There are 3 correct Answers to this question.

- A. Create new calculated fields Integrate
- B. SAP HANA HDI calculation views.
- C. Define new restricted key figures
- D. Combine Infoprovider using Join and Unions
- E. Join two ABAP CDS views

**Answer: B,C,D**

Explanation:

\* A. Combine InfoProviders using Join and Unions: This is what a Composite Provider allows you to do in SAP BW/4HANA. A Composite Provider is an InfoProvider that combines data from several analytic indexes or from other InfoProviders (by union or inner join or left outer join), and makes this data available for reporting and analysis. Storing the data in BW Accelerator or in an SAP HANA database also ensures faster access to data in the query12.

\* C. Define new restricted key figures: This is what a Composite Provider allows you to do in SAP BW/4HANA. A Composite Provider can define new restricted key figures based on the existing key figures of the underlying InfoProviders. Restricted key figures are key figures that are restricted by one or more characteristics13.

\* E. Integrate SAP HANA HDI calculation views: This is what a Composite Provider allows you to do in SAP BW/4HANA. A Composite Provider can integrate SAP HANA HDI calculation views as part of its data sources, using a virtual table or an external SAP HANA view. This can enable mixed modeling scenarios that leverage both SAP BW/4HANA and SAP HANA capabilities14.

## NEW QUESTION # 61

Which recommendations should you follow to optimize BW query performance? Note: There are 3 correct answers to this question.

- A. Include fewer drill-down characteristics in the initial view.
- B. Create linked components.
- C. Use the dereference option for reusable filters.
- D. Use the include mode within filter restrictions.
- E. Use mandatory characteristic value variables.

**Answer: A,D,E**

Explanation:

B. Fewer drill-down characteristics in the initial view:

\* Minimizing drill-down characteristics reduces the volume of data retrieved during query execution, improving performance.

C. Mandatory characteristic value variables:

\* Restricting queries to smaller data subsets by requiring users to input characteristic values enhances query speed.

D. Include mode within filter restrictions:

\* The include mode narrows the dataset scope, improving query performance by reducing unnecessary data retrieval.

## NEW QUESTION # 62

You notice that an SAP ERP ODP\_SAP DataSource is delivering incorrect values into the first persistent data layer in SAP BW/4HANA. Which options do you have to analyze a potential extractor issue? Note: There are 2 correct answers to this question.

- A. Check entries in table RSDDSTATEXTRACT in SAP ERP
- B. Use the ODQ maintenance in SAP BW/4HANA
- C. Use transaction RSA3 (Extractor checker) in SAP ERP
- D. Use program RODPS\_REPL\_TEST in SAP ERP

**Answer: C,D**

## NEW QUESTION # 63

.....

If you would like to use all kinds of electronic devices to prepare for the C-BW4H-2404 C-BW4H-2404 exam, then I am glad to tell you that our online app version is definitely your perfect choice. In addition, another strong point of the online app version is that it is convenient for you to use even though you are in offline environment. In other words, you can prepare for your C-BW4H-2404 Exam with under the guidance of our training materials anywhere at any time. Just take action to purchase we would be pleased to make you the next beneficiary of our C-BW4H-2404 exam practice.
