SAP C-THR81-2505 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Scenario 2: Approvals for Self-Service: This section of the exam assesses the competency of SAP Consultants in configuring self-service approval workflows. It covers the setup of dynamic approval chains and ensures policy compliance for employee-initiated actions. The focus is on enabling seamless and scalable workflow automation tailored to organizational structures and user roles.

Topic 2	<ul style="list-style-type: none"> Position Management: This section of the exam evaluates the knowledge of SAP Consultants in configuring and managing Position Management functionality. It focuses on understanding position hierarchy, relationship assignments, and synchronization with job information. Candidates are assessed on how effectively they support organizational planning through accurate position data setup and integration with other SAP modules.
Topic 3	<ul style="list-style-type: none"> Scenario 1: HR Transaction Rules: This section of the exam tests the proficiency of HRIS Analysts in applying HR transaction rules within the system. It focuses on the creation and use of business rules for automating actions, enforcing data accuracy, and streamlining HR processes. Candidates demonstrate the ability to define rule contexts and apply logic relevant to specific HR transactions.
Topic 4	<ul style="list-style-type: none"> Employee Central Core: This section of the exam measures the skills of HRIS Analysts and covers the essential components of the SAP SuccessFactors Employee Central Core module. It assesses the ability to configure foundational system features, including data models, business rules, event reasons, and workflows. Emphasis is placed on navigating the core employee data lifecycle, managing personal and employment information, and maintaining organizational structure within Employee Central.

Each of them is eager to have a strong proof to highlight their abilities, so they have the opportunity to change their current status. It is not easy to qualify for a qualifying exam in such a short period of time. Our company's C-THR81-2505 Study Guide is very good at helping customers pass the exam and obtain C-THR81-2505 certificate in a short time, and now you can free download the demo of our C-THR81-2505 exam torrent from our website. You will love our C-THR81-2505 exam prep for sure.

SAP Certified Associate - SAP SuccessFactors Employee Central Core Sample Questions (Q31-Q36):

NEW QUESTION # 31

Due to confidentiality reasons, when the HR Business Partner (maintained in Job Relationship) is creating a change in salary for an employee, this action will need to be approved by the manager of the HR Business Partner creating the request.

How do you define this in the workflow when filling in the Approver Type, Approver Role, Context, and Relationship to Approver? Refer to the screenshot to answer the question

- A. By selecting in Step 1: Role - Manager - Source - Initiator
- B. By selecting in Step 1: Role - Employee HR - Source - Employee
- C. By selecting in Step 1: Role - Self-Source - Initiator
- D. By selecting in Step 1: Role - Employee HR-Source- Initiator

Answer: A

Explanation:

To ensure that the salary change initiated by the HR Business Partner is approved by their manager, you need to configure the workflow with the following details:

Approver Type: Manager

Approver Role: Manager

Context: Initiator (this ensures the approval request is routed to the manager of the person initiating the workflow).

Relationship to Approver: From the initiator's position, the system derives the relationship to their manager.

Selecting Role: Manager - Source: Initiator in Step 1 aligns with these requirements.

Scenario 2: Approvals for Self-Service

NEW QUESTION # 32

Which rule can effectively catch all unspecified events in a transaction?

- A. Option C
- B. Option A
- C. Option B
- D. Option D

Answer: C

Explanation:

The rule in Option B effectively captures all unspecified events in a transaction because:

It sets the Event Reason Value to "Data Change" whenever the Event Reason Value is null.

This ensures that all unplanned or unspecified events are assigned a default action, which is crucial for maintaining data consistency and avoiding errors during transactions.

Scenario 1: HR Transaction Rules

NEW QUESTION # 33

When the manager updates the location of an employee, the HR admin must be the approver Note that the HR admin, manager, and HR Business Partner have access to change the location.

How do you create the IF condition for the workflow derivation rule to meet the above requirements?

- A. Option A
- B. Option C
- C. Option B
- D. Option D

Answer: A

Explanation:

To meet the requirement where the HR admin must approve the manager's updates to an employee's location, the workflow derivation rule must include the following IF condition:

Option A: Ensures that the condition checks whether the user belongs to the permission group for HR Admins, and the Event Reason value matches "Location Change".

This configuration aligns the workflow rule with the scenario requirements, where HR admins are explicitly designated as approvers

Scenario 2: Approvals for Self-Service

NEW QUESTION # 34

The HR admin has to change the salary of an employee, which will trigger a workflow for the employee's manager. The employee's manager should be able to edit the transaction if the proposed amount is NOT correct.

Where in the workflow do you need to define this?

Refer to the screenshot to answer the question

The screenshot displays the SAP Workflow Configuration interface for Step 1. The SAP logo is visible in the top left. The interface includes fields for Workflow ID, Name, and Description, each with a 'Click or focus to edit' button. Below these is a 'Future Dated Alternate Workflow' dropdown menu. The main configuration area is divided into three sections: 'Workflow Contributor', 'CC Role', and 'Future Dated Alternate Workflow'. Each section contains a table of configuration options with icons for editing or deleting. The 'Workflow Contributor' section includes 'Contributor Type', 'Contributor', 'Relationship to Approver', 'Context', and 'Respect Permission'. The 'CC Role' section includes 'CC Role Type', 'CC Role', 'Relationship to Approver', 'Context', 'Respect Permission', and 'Email Template Group'. The 'Future Dated Alternate Workflow' section includes 'Edit Transaction', 'Context', 'Relationship to Approver', 'No Approver Behavior', and 'Respect Permission'.

- A. Edit Transaction
- B. Context
- C. No Approver Behavior
- D. Respect Permission

Answer: A

Explanation:

To allow the employee's manager to edit a transaction in a workflow if the proposed salary change is incorrect, you must configure the "Edit Transaction" setting in the workflow.

The "Edit Transaction" option is part of the workflow configuration in Step 1 (as shown in the screenshot).

When enabled, it allows the approver (in this case, the manager) to make adjustments to the transaction before approving it.

Scenario 2: Approvals for Self-Service

NEW QUESTION # 35

What does SAP SuccessFactors recommend when you create custom associations between foundation objects (FO)?

- A. All custom associations should be built between an MDF FO and another MDF FO.
- **B. All custom associations should be built as one-to-many.**
- C. All custom associations should be built between an XML FO and another XML FO.
- D. All custom associations should be built as one-to-one.

Answer: B

Explanation:

SAP SuccessFactors recommends that all custom associations between foundation objects (FO) be built as one-to-many. This configuration reflects real-world organizational structures where a single entity, such as a department, can be associated with multiple positions or employees. Implementing one-to-many associations ensures flexibility and scalability in the system, allowing for accurate representation of complex organizational relationships.

NEW QUESTION # 36

.....

Heaps of beginners and skilled professionals already have surpassed the SAP C-THR81-2505 certification exam and pursuing a worthwhile profession inside the quite aggressive market. You may additionally turn out to be a part of this skilled and certified community. To try this you sincerely need to pass the SAP C-THR81-2505 Certification examination.
