before the SAP C-WME-2506 exam is easy.

SAP Certified Associate - WalkMe Digital Adoption Consultant Sample Questions (Q33-Q38):

NEW QUESTION # 33

What is the purpose of using the small ghost icon in the WalkMe Editor when customizing an invisible Launcher?

- A. To add animations to the Launcher.
- **B. To automatically make all colors of the Launcher transparent.**
- C. To change the Launcher's shape.
- D. To adjust the size of the Launcher.

Answer: B

Explanation:

In the WalkMe Editor, the small ghost icon is a tool used when customizing Launchers to make them invisible by setting their colors to fully transparent. This feature is particularly useful for creating invisible Launchers that overlay and block interaction with specific UI elements without being visible to users. By clicking the ghost icon, the Launcher's colors (background, border, etc.) are automatically set to transparent, ensuring it blends seamlessly into the webpage while still functioning as an interactive element.

The other options are incorrect:

- * Adding animations(A) is handled through other customization settings, not the ghost icon.
- * Adjusting the size(B) is done via resizing controls, not the ghost icon.
- * Changing the shape(C) is managed through shape settings, not transparency.

Extract from Official WalkMe Documentation:

According to the WalkMe Editor User Guide (SAP WalkMe Digital Adoption Consultant Study Guide, Section 2.3: Launchers):

"The ghost icon in the WalkMe Editor's Launcher customization panel sets all colors of the Launcher to fully transparent, creating an invisible Launcher. This is ideal for scenarios where the Launcher needs to block interaction with an underlying element without being visible." The course Advancing Your Skills in Building WalkMe Solutions notes:

"To create an invisible Launcher, use the ghost icon to automatically apply transparency to all color settings, ensuring the Launcher is undetectable to users while maintaining its functionality." Option D correctly describes the purpose of the ghost icon.

NEW QUESTION # 34

You are working on a Smart Walk-Thru step for which there are two buttons a user could click to move forward in the process. After they click either button, the remainder of the process is the same.

Which option below is the best way to address this?

- A. Add a Peer Step.
- **B. Add a Custom Trigger with multiple conditions.**
- C. Create a Split Step.
- D. Use a SmartTip to let the users know they can click either button for the flow to continue.

Answer: B

NEW QUESTION # 35

Which two types of WalkMe content can make up an Onboarding Task?

- A. SmartTips and Launchers
- B. Resources and Shuttles
- **C. Smart Walk-Thrus and Resources**
- D. Smart Walk-Thrus and Shuttles

Answer: C

Explanation:

An Onboarding Task in WalkMe is a collection of steps or content designed to guide users through a set of actions to complete an onboarding process. The two types of WalkMe content that can be included in an Onboarding Task are Smart Walk-Thrus, which provide step-by-step guidance through processes, and Resources, which link to help articles or external documentation to support onboarding. These content types are versatile and align with the goal of guiding users through critical tasks.

The other options are incorrect:

- * SmartTips and Launchers(A) are not part of Onboarding Tasks; SmartTips are field-specific, and Launchers trigger other content.
- * Resources and Shuttles(C) are partially correct, but Shuttles only navigate to pages, not guide through tasks.
- * Smart Walk-Thrus and Shuttles(D) are also partially correct, but Shuttles are not task components.

Extract from Official WalkMe Documentation:

According to the WalkMe Editor User Guide (SAP WalkMe Digital Adoption Consultant Study Guide, Section 1.8: Onboarding Tasks):

"Onboarding Tasks consist of Smart Walk-Thrus, which guide users through processes, and Resources, which provide supplementary help content to complete onboarding." The course Getting Started with Building WalkMe Solutions states:

"Build Onboarding Tasks using Smart Walk-Thrus for process guidance and Resources for additional support, ensuring users have the tools to complete onboarding." Option B, Smart Walk-Thrus and Resources, is the correct answer.

References:

SAP WalkMe Digital Adoption Consultant Study Guide, Section 1.8: Onboarding Tasks.

Course: Getting Started with Building WalkMe Solutions, Module 9: Onboarding Solutions.

NEW QUESTION # 36

You just created a SmartTip that is attached to a button. This button is only displayed on a popup modal window that will show up or disappear depending on how the user interacts with the page. When you publish the SmartTip to your site and are testing it, you notice that the SmartTip does not appear at all when opening the popup modal window and the SmartTip is supposed to appear every time the window is opened.

What is the first configuration you should check to fix this issue?

- A. SmartTip Position
- B. Lock to Element
- C. Element Behavior Setting - Appears and Disappears as Result of User Action
- D. Element Behavior Setting - Appears After Page Load and Stays Visible

Answer: C

NEW QUESTION # 37

You just published WalkMe content from your Editor for the first time. When you refresh your web page, you do not see any of the content.

Which of the options could you check?

Note: There are 3 correct answers to this question.

- A. Switch from Build Mode to Play Mode in the Editor.
- B. Confirm WalkMe is deployed to the environment.
- C. Confirm that you added categories to the WalkMe Menu.
- D. Investigate whether any Segmentation rules are configured incorrectly.
- E. Reinstall the WalkMe Editor on your computer.

Answer: A,B,D
