NEW QUESTION # 78

What are some benefits for customers of using the SAP Activate methodology? Note: There are 3 correct answers to this question.

- A. It relies on a traditional Waterfall approach for all project implementations, thus providing predictable outcomes.
- **B. It offers customers accelerators to help run their project as efficiently as possible.**
- **C. It contains time-phased instructions to help execute tasks throughout the implementation journey.**
- **D. It guides customers through the entire SAP S/4HANA Cloud lifecycle and provides quick value realization.**
- E. It is designed to streamline the implementation process by reducing resource requirements from the customers and partners.

Answer: B,C,D

Explanation:

The SAP Activate methodology is a structured framework designed to streamline SAP S/4HANA Cloud Public Edition implementations, offering specific benefits to customers through its agile and standardized approach.

* Option A: It offers customers accelerators to help run their project as efficiently as possible.

Correct. SAP Activate provides accelerators such as templates, tools, and best practices to enhance project efficiency. The SAP Activate Methodology Guide states, "SAP Activate offers a rich set of accelerators, including templates, checklists, and tools like the Digital Discovery Assessment, to help customers execute projects efficiently and reduce implementation time."

* Option B: It relies on a traditional Waterfall approach for all project implementations, thus providing predictable outcomes. Incorrect. SAP Activate is an agile, iterative methodology, not a traditional Waterfall approach. The SAP S/4HANA Cloud Implementation Guide clarifies, "SAP Activate adopts an agile approach with iterative sprints, unlike the rigid Waterfall methodology, enabling flexibility and faster value delivery."

* Option C: It contains time-phased instructions to help execute tasks throughout the implementation journey. Correct. SAP Activate provides a phased roadmap with detailed, time-phased instructions for tasks across Discover, Prepare, Explore, Realize, Deploy, and Run phases. The SAP Activate Methodology Guide explains, "The methodology includes time-phased instructions and deliverables for each phase, guiding customers through the implementation journey with clear, structured tasks."

* Option D: It is designed to streamline the implementation process by reducing resource requirements from the customers and partners. Incorrect. While SAP Activate streamlines processes, it does not specifically aim to reduce resource requirements; it focuses on efficiency and standardization. The SAP S/4HANA Cloud Study Guide notes, "SAP Activate optimizes implementation through standardization, but resource requirements depend on project scope, not a reduction goal."

* Option E: It guides customers through the entire SAP S/4HANA Cloud lifecycle and provides quick value realization. Correct. SAP Activate supports the full lifecycle, from discovery to operations, and emphasizes rapid value delivery through agile practices. The SAP S/4HANA Cloud Implementation Guide confirms, "SAP Activate guides customers through the entire SAP S/4HANA Cloud lifecycle, enabling quick value realization through iterative deployments and best practices." Extract from Official Documentation:

* SAP Activate Methodology Guide (SAP Community, <https://community.sap.com>): "SAP Activate provides customers with accelerators like templates and tools, time-phased instructions for each phase, and guidance through the entire SAP S/4HANA Cloud lifecycle, ensuring efficient projects and rapid value realization."
