- A. To schedule downtime for system maintenance
- B. To plan marketing campaigns around new releases
- C. To align with semi-annual innovation cycles
- D. To synchronize data between test and production instances

TheSAP S/4HANA Cloud Study Guidenotes, "Upgrade windows focus on release updates, with maintenance handled through separate processes."

* Option D: To plan marketing campaigns around new releasesIncorrect. Marketing campaigns are unrelated to upgrade windows, which are technical activities. TheSAP S/4HANA Cloud Implementation Guideclarifies, "Upgrade windows are for technical updates, not marketing activities, which are managed by business teams." Extract from Official Documentation:
