#### NEW QUESTION # 43

What should you consider during scoping during the Application Portfolio Assessment initiative?

- A. Plan enough time to finish every step, one by one.
- B. Start small and achieve some quick wins.
- C. Think big and focus on the big picture.

**Answer: B**

Explanation:

During the scoping phase of an Application Portfolio Assessment initiative, it is crucial to start small and achieve some quick wins.

This approach helps in demonstrating the value of the initiative early on, gaining stakeholder buy-in, and building momentum for further phases. Quick wins can provide tangible results that validate the efforts and pave the way for broader, more comprehensive assessments.

- A. A commercial add-on the software
- B. A compilation of automatically generated reports
- **C. A central repository of all fact sheets**
- D. A central repository for applications

**Answer: C**

#### NEW QUESTION # 46

What are some purposes of an application landscape report? Note: There are 2 correct answers to this question.

- A. To provide a color-coded view of the primary applications used in the market
- **B. To provide a color-coded view indicating applications that pose a risk**
- C. To showcase which applications need to be imported
- **D. To highlight applications that have reached their end-of-life**

**Answer: B,D**

Explanation:

\* To provide a color-coded view indicating applications that pose a risk: Application landscape reports in SAP LeanIX use color coding to indicate the risk level associated with different applications.

This visual representation helps stakeholders quickly identify and focus on high-risk applications that may require immediate attention.

\* To highlight applications that have reached their end-of-life: These reports also highlight applications that are at the end of their lifecycle. Identifying such applications is crucial for planning upgrades, replacements, or decommissioning, thus ensuring that the IT landscape remains up-to-date and secure.
