NEW QUESTION # 22

In which phase of SAP Activate does the SAP Project Manager set up project governance?

- **A. Prepare**
- B. Discover
- C. Realize
- D. Explore

Answer: A

Explanation:

In the SAP Activate methodology, the SAP Project Manager sets up project governance during the:

* B. Prepare phase: This early phase of the project includes establishing the project's governance structure. This involves defining roles, responsibilities, decision-making processes, and communication plans to ensure effective oversight and successful delivery of the project.

Options A (Explore), C (Realize), and D (Discover) involve other critical activities, but the foundational governance structure is typically established in the Prepare phase to guide the entire project. References:

NEW QUESTION # 26

What activity do you perform in the Deploy phase?

- A. Final assessment of data quality
- B. Implement operations processes
- C. Perform productive cutover
- D. Complete integration testing

Answer: C

Explanation:

In the Deploy phase of the SAP Activate methodology, the primary activity performed is:

* B. Perform productive cutover: This involves transitioning all project deliverables, configurations, and data from the test environment to the production environment, marking the system's readiness to go live.

The productive cutover ensures that all components are functionally integrated, tested, and ready to support business operations in the live environment. The Deploy phase is critical as it signifies the move to production, where the system becomes fully operational and available for end-users. References:
