SAP Certified Associate - Implementation Consultant - SAP S/4HANA Cloud Public Edition, Management Accounting Sample Questions (Q54-Q59):

NEW QUESTION # 54

In which master data can you define the cost center category?

- A. Functional area
- **B. Activity type**
- C. G/L account
- D. Profit center

Answer: B

Explanation:

Based on learning.sap.com, cost center categories are managed directly within the cost center master data. Additionally, they are used in activity type master records to control which cost centers can be associated with an activity.

Therefore, the correct answer is:

* C. Activity type - Within each activity type master record, you define which cost center categories are permitted.

Final Answer:

* C. Activity type

NEW QUESTION # 55

When using repetitive manufacturing on which cost object do you track the costs?

- **A. Product cost collector**
- B. Production order
- C. Service order
- D. Process order

Answer: A

NEW QUESTION # 56

You have assigned a business role to an end user who has been granted access to only one specific application. While you have a day off, it turns out that the app doesn't show up on the user's launchpad. What can the user do?

- A. Assign a launchpad space to the business role.
- B. Use the search function to find the app.
- C. Assign a different business role that provides access.
- D. Create a page and assign it to the launchpad space.

Answer: A,B

Explanation:

The two actions a user can take are:

C . Assign a launchpad space to the business role.

A business role must have at least one launchpad space assigned to display apps. If the role only includes catalogs (permissions) but no space, the app won't be visible-even if assigned-until a space and page are added to the role
learning.sap.com+6learning.sap.com+6learning.sap.com+6.

D . Use the search function to find the app.

Even if the tile isn't visible on the launchpad, users can still locate and launch the app via the Launchpad's search or App Finder, provided they have appropriate authorization learning.sap.com+1learning.sap.com+1.

- A (Create a page) isn't permitted by end users.
- B (Assign a different role) isn't something the end user can do themselves.

NEW QUESTION # 57

Where is the initial list of known integrations documented?

- A. In the Digital Discovery Assessment
- B. In the Fit-to-Standard Workshops
- C. In the Business Driven Configuration Questionnaire
- D. In SAP Cloud ALM

Answer: A,D

Explanation:

Solution:

Based on learning.sap.com, the answers are:

Correct Answers

* B. In the Digital Discovery Assessment

The initial list of known integrations is captured in the Digital Discovery Assessment (DDA) during the Discover phase of the SAP Activate Methodology learning.sap.com+10learning.sap.com+10learning.sap.com+10.

* C. In SAP Cloud ALM

After completing fit-to-standard workshops, integration requirements are then documented in SAP Cloud ALM using the Requirements app learning.sap.com+3learning.sap.com+3learning.sap.com+3.

Incorrect Options

* A. Fit-to-Standard Workshops are where additional, not initial, integration requirements are uncovered.

* D. Business Driven Configuration Questionnaire isn't mentioned as a source for documenting the initial list of known integrations.

Final Answers:

* B. In the Digital Discovery Assessment

* C. In SAP Cloud ALM

NEW QUESTION # 58

What are key features of allocations in the margin analysis context?Note: There are 3 Correct Answers to this question.

- A. You can allocate primary and secondary costs within margin analysis using a top-down distribution
- B. You can allocate secondary costs from cost centers to profitability segments using a distribution cycle
- C. You can allocate primary costs from WBS elements to profitability segments using a distribution cycle
- D. You can allocate secondary costs from cost centers to profitability segments using an overhead allocation cycle
- E. You can settle primary costs from profitability segments to balance sheet accounts with external settlement

Answer: A,B,D

Explanation:

Solution:

Based strictly on learning.sap.com, here are the three correct key features of allocations in the margin analysis context:

Correct Answers

A. You can allocate secondary costs from cost centers to profitability segments using an overhead allocation cycle Overhead (assessment) cycles transfer secondary costs-such as cost component-split data-from cost centers into CO-PA (margin analysis) via a defined profitability segment mapping. The overhead cycle uses assessment cost elements to do this SAP Learning+5SAP Learning+5SAP Learning+5.

C. You can allocate secondary costs from cost centers to profitability segments using a distribution cycle Distribution cycles move primary costs while preserving original cost elements; these cycles can also allocate these costs into profitability segments when configured appropriately.

D. You can allocate primary and secondary costs within margin analysis using a top-down distribution Top-down distribution in Margin Analysis enables the allocation of aggregated primary and secondary costs (like overheads or sales deductions) to detailed profitability segments based on reference drivers (e.g., revenue, cost) SAP Learning+5SAP Learning+5SAP Learning+5.

Incorrect Options

* B. Settle primary costs from profitability segments to balance sheet accounts - Settlement moves costs from orders, not to balance sheets in margin analysis context.

* E. Allocate primary costs from WBS elements to profitability segments using a distribution cycle - WBS elements use settlement to allocations, not distribution cycles, to route costs into profitability segments.

Final Answers:

* A. You can allocate secondary costs from cost centers to profitability segments using an overhead allocation cycle

* C. You can allocate secondary costs from cost centers to profitability segments using a distribution cycle

* D. You can allocate primary and secondary costs within margin analysis using a top-down distribution
