NEW QUESTION # 28

One of the teams you manage has committed to delivering 45 story points for this Sprint, but it looks like they will only complete 25. As an Agile Manager, what should you do?

- A. Add more Developers to the team.
- B. Extend the Sprint.
- C. Ask Developers to work overtime.
- D. Be transparent and remove 20 points from Sprint Backlog. The remaining 20 points can be completed in the next Sprint.
- E. Coach the team to identify a set of User Stories that sum up 25 story points and will meet the Sprint Goal.

Answer: E

NEW QUESTION # 29

You are an Agile Leader working with five Scrum Teams. One of the Scrum Team requires a new working environment to replicate the production environment and help the team perform security and performance testing. The strict company policies allow creating new environments only for actual production purposes and not for any testing. Security and performance testing are needed as part of the Team's Definition of Done before the completed work can be shippable.

How would you manage this situation? Select two possible answers.

- A. Ask the Scrum Team to come up with alternate solutions to resolve this issue themselves. You will support them as needed.
- B. Remove security and performance testing from the Definition of Done.
- C. Extend the Sprint to focus on security and performance testing.
- D. Support the needs of the team. Work with the senior management to get the environment approved.
- E. Work with the Scrum Team to see how they can do the testing in their existing development environment. They should try to replicate the production environment as much as possible.

Answer: A,E

NEW QUESTION # 30

Which of the following may increase the effectiveness of a Scrum Team?

- A. Share different initiatives across multiple teams so that individual members can work on other products when they have no active tasks to do in their current team.
- B. Having teams consisting of specialists that are experts in their function.
- C. Having teams consisting of cross-functional individuals who can work in any function and any task needed.
- D. Having dedicated team members focused on the work of a single product at a time.

Answer: D

NEW QUESTION # 31

Scrum Teams are most effective when: (choose the best answer)

- A. They consist of team members who are shared across multiple initiatives at a time, since then they can take advantage of time otherwise spent waiting to do productive work.
- B. They consist of people who have mostly deeply specialized skills.
- **C. They consist of team members who work only on one product and team at a time, so that they can focus.**
- D. They consist of team members who have broad enough skills to do many kinds of work, but who are not deeply specialized in any one area.

Answer: C

Explanation:

Scrum Teams are most effective when team members can dedicate themselves to a single product and project.

This focus ensures that the team is not distracted or context-switching between tasks, which improves efficiency, collaboration, and delivery of value.

NEW QUESTION # 32

A company adopted Agile 20 years ago. Since then, its teams have learned to master and implement Scrum to perfection. They are high-performance teams with a high level of agile maturity. Because they are so good with Scrum and because of the self-managed nature of Scrum Teams, the company no longer needs managers.

- A. TRUE
- **B. FALSE**

Answer: B
