Scrum SAFe Practitioner Exam (6.0) Sample Questions (Q254-Q259):

NEW QUESTION # 254

What is one result from Iteration Planning for SAFe Scrum Teams?

- A. Iteration sequencing
- B. Iteration estimate
- **C. Iteration goals**
- D. Iteration demo

Answer: C

Explanation:

One of the results from Iteration Planning for SAFe Scrum Teams is the Iteration goals, which are short, specific, and measurable statements that describe what the Agile team intends to accomplish in an Iteration.

The Iteration goals are derived from the team backlog, the PI objectives, and the team vision. The Iteration goals help to align the team to a common vision of work in the Iteration, and provide clarity, focus, and motivation. The Iteration goals also enable the team to communicate their progress and dependencies to other teams and stakeholders, and to demonstrate value delivery in the system demo. NEW QUESTION # 256

What is typically included in the definition of done for the team increment?

- A. Stories are accepted by Product Management
- B. 45 new questions addStories are accepted by the Product Owner
- C. Customer documentation is ready
- D. Regression testing is done

Answer: D

Explanation:

The definition of done (DoD) is a set of criteria that a product increment must meet for the team to consider it complete and ready for customers¹. It ensures the quality and consistency of a deliverable. The DoD is agreed upon by the entire project team, including developers, testers, product owners, and other stakeholders². One of the common criteria that is typically included in the DoD for the team increment is regression testing, which is the process of verifying that the existing functionality of the system is not affected by the new changes³. Regression testing is done to ensure that the product increment meets the quality standards and does not introduce any defects or errors⁴. References: What is the Definition of Done? NEW QUESTION # 257

How does relentless improvement support value in the SAFe House of Lean?

- A. It allows teams to pivot without mercy or guilt
- B. It builds long-term partnerships based on trust
- C. It uses informed decision-making through fast feedback
- D. It optimizes the whole

Answer: C

Explanation:

Relentless improvement is the fourth pillar of the SAFe House of Lean, which represents the foundational beliefs that are key to SAFe's effectiveness¹. Relentless improvement encourages learning and growth through continuous reflection and process enhancements². It uses informed decision-making through fast feedback, which means that teams and individuals use empirical data and validated learning to evaluate their assumptions and outcomes, and adjust their actions accordingly³. This enables them to deliver value faster, with higher quality and lower risk, and to foster a culture of innovation and experimentation⁴.
