

# Seeing The NS0-528 Latest Test Preparation Means that You Have Passed Half of Implementation Engineer - Data Protection Exam

New **NS0-528** Practice  
Test with Actual NS0-528  
Questions and Answers -  
Make Preparations  
with Full Confidence

BONUS!!! Download part of PDF4Test NS0-528 dumps for free: <https://drive.google.com/open?id=1fcqw8yVpoDBiyWMhTM4nzEkH-D2Or2NW>

Network Appliance NS0-528 training materials have won great success in the market. Tens of thousands of the candidates are learning on our NS0-528 practice engine. First of all, our Network Appliance NS0-528 study dumps cover all related tests about computers. It will be easy for you to find your prepared learning material. If you are suspicious of our NS0-528 Exam Questions, you can download the free demo from our official websites.

## Network Appliance NS0-528 Exam Syllabus Topics:

| Topic   | Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|---------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Topic 1 | <ul style="list-style-type: none"><li>• Data Protection Solutions: This section of the exam measures the skills of Storage Architects and covers the foundational principles of designing data protection solutions. It focuses on creating comprehensive design documentation, understanding the various components involved, and identifying all critical solution dependencies to ensure a robust and reliable data protection strategy.</li></ul>                          |
| Topic 2 | <ul style="list-style-type: none"><li>• NetApp ONTAP Core Data Protection Features: This section of the exam measures the skills of Systems Administrators and validates core knowledge of data protection and redundancy within the ONTAP environment. It encompasses understanding how data efficiencies impact protection strategies and the practical knowledge required to deploy these data protection solutions effectively in a hybrid cloud infrastructure.</li></ul> |
| Topic 3 | <ul style="list-style-type: none"><li>• Troubleshooting and Testing: This section of the exam measures the skills of Support Engineers and focuses on the practical skills needed to maintain data integrity. It involves troubleshooting common data protection configuration issues, executing well-defined Disaster Recovery (DR) procedures, and performing data restore operations to recover from data loss.</li></ul>                                                   |
| Topic 4 | <ul style="list-style-type: none"><li>• NetApp ONTAP Business Continuity Solutions: This section of the exam measures the skills of Disaster Recovery Specialists and covers advanced business continuity technologies. This includes the configuration and operation of SnapMirror active sync for continuous data replication and the execution of SVM-DR (Storage Virtual Machine Disaster Recovery) operations to ensure high availability.</li></ul>                      |
| Topic 5 | <ul style="list-style-type: none"><li>• NetApp Data Protection Software: This section of the exam measures the skills of DevOps Engineers and focuses on the deployment and administration of NetApp's proprietary data protection software. A key part of this domain involves applying these solutions to protect modern containerized applications running in Kubernetes environments.</li></ul>                                                                            |

## 2025 Network Appliance Unparalleled NS0-528 Latest Test Preparation

In this version, you don't need an active internet connection to use the NS0-528 practice test software. This software mimics the style of real test so that users find out pattern of the real test and kill the exam anxiety. PDF4Test offline practice exam is customizable and users can change questions and duration of Implementation Engineer - Data Protection Exam (NS0-528) mock tests.

### Network Appliance Implementation Engineer - Data Protection Exam Sample Questions (Q232-Q237):

#### NEW QUESTION # 232

You are asked to perform a NetApp Snapshot copy single-file restore on a corrupted thin-provisioned LUN that is 10 GB in size and is currently at 80% full.

How much additional free space do you need in the volume to perform this operation?

- A. 16 GB
- B. 8 GB
- C. 10 GB
- D. 20 GB

**Answer: C**

#### NEW QUESTION # 233

What is the purpose of NetApp ONTAP Business Continuity Solutions?

- A. To optimize data access speed
- B. To ensure high availability and fast disaster recovery
- C. To compress data to reduce storage space
- D. To encrypt data to protect it from unauthorized access

**Answer: B**

#### NEW QUESTION # 234

You have two sites running NetApp ONTAP 9.14.1 clusters that have databases connecting through FC that have a near-zero RTO requirement.

What NetApp solution would allow a failover between the sites with a near-zero RTO?

- A. SVM data mobility
- B. BlueXP
- C. SnapMirror SVM
- D. SnapMirror active sync

**Answer: D**

Explanation:

SnapMirror active sync provides active-active synchronous replication for SAN workloads (including FC-attached databases), ensuring zero RPO and near-zero RTO. It enables automatic failover and failback between sites, making it the ideal solution for mission-critical applications requiring continuous availability.

#### NEW QUESTION # 235

You are the administrator of a large NAS environment that includes multiple NetApp and non-NetApp onsite storage systems, as well as multiple cloud storage solutions. One of your responsibilities is to replicate data between these systems.

Which NetApp tool enables you to replicate data between these autonomous systems?

- A. BlueXP backup and recovery
- **B. BlueXP copy and sync**
- C. BlueXP disaster recovery
- D. BlueXP tiering

**Answer: B**

Explanation:

BlueXP copy and sync enables efficient data replication and synchronization between NetApp and non-NetApp storage systems, both on-premises and in the cloud. It's specifically designed for cross-platform and cross-environment data movement, making it ideal for this scenario.

### NEW QUESTION # 236

Using SnapCenter 4.0, you are restoring a virtual machine.  
Which additional tool would be used to monitor the restore?

- **A. VMware vSphere Web client**
- B. OnCommand Unified Manager
- C. OnCommand System Manager
- D. Virtual Storage Console

**Answer: A**

### NEW QUESTION # 237

.....

There are some prominent features that are making the NS0-528 exam dumps the first choice of NS0-528 certification exam candidates. The prominent features are real and verified Implementation Engineer - Data Protection Exam exam questions, availability of NS0-528 exam dumps in three different formats, affordable price, 1 year free updated NS0-528 Exam Questions download facility, and 100 percent Network Appliance NS0-528 exam passing money back guarantee. We are quite confident that all these NS0-528 exam dumps feature you will not find anywhere. Just download the Network Appliance NS0-528 Certification Exams and start this journey right now.
