Our company has the highly authoritative and experienced team. In order to let customers enjoy the best service, all Sharing-and-Visibility-Architect exam prep of our company were designed by hundreds of experienced experts. Our Sharing-and-Visibility-Architect test questions will help customers learn the important knowledge about exam. If you buy our products, it will be very easy for you to have the mastery of a core set of knowledge in the shortest time, at the same time, our Sharing-and-Visibility-Architect Test Torrent can help you avoid falling into rote learning habits. You just need to spend 20 to 30 hours on study, and then you can take your exam. In addition, the authoritative production team of our Sharing-and-Visibility-Architect exam prep will update the study system every day in order to make our customers enjoy the newest information.

You can contact our service any time as long as you have questions on our Sharing-and-Visibility-Architect practice engine. They are available 24-hours for guidance and information to help you solve your problem or confusion on the Sharing-and-Visibility-Architect exam braindumps. And they can also give you the fast and professional help as they are trained to deal with matters with high-efficiency on our Sharing-and-Visibility-Architect learning guide. And if you buy our Sharing-and-Visibility-Architect training materials, you will find you can have it in 5 to 10 minutes.

Hot Sharing-and-Visibility-Architect Real Exam Answers 100% Pass | Pass-Sure Sharing-and-Visibility-Architect: Salesforce Certified Sharing and Visibility Architect 100% Pass

We invited a large group of professional experts who dedicated in this Sharing-and-Visibility-Architect training guide for more than ten years. To improve the accuracy of the Sharing-and-Visibility-Architect guide preparations, they keep up with the trend closely. Every page is carefully arranged by them with high efficiency and high quality. Up to now, there are three versions of Sharing-and-Visibility-Architect Exam Materials for your choice. So high-quality contents and flexible choices of Sharing-and-Visibility-Architect learning mode will bring about the excellent learning experience for you.

Salesforce Sharing-and-Visibility-Architect Certification is a highly esteemed certification offered by Salesforce, which is designed to validate the expertise of individuals in the field of sharing and visibility architecture. Salesforce Certified Sharing and Visibility Architect certification is particularly relevant for individuals who are involved in designing and implementing complex sharing and visibility solutions for enterprise-level organizations. Salesforce Certified Sharing and Visibility Architects are highly sought after by organizations seeking to optimize their Salesforce implementation for maximum efficiency and effectiveness.

Salesforce Certified Sharing and Visibility Architect Sample Questions (Q76-Q81):

NEW QUESTION # 76

Universal Containers (UC) uses a custom lightning component with an Apex class to display shipment information (custom object, private OWD). UC sales managers are complaining about two important points:

- * Shipment records that belong to their teams can be seen by other users.
- * Shipment amount should be visible only by managers, but sales reps are able to view it. Which two features did the development team miss that is causing the problems?

Choose 2 answers.

- A. Use runAs in test class to enforce user permissions and field-level permissions.
- B. Use isSharable keyword in Apex classes to assure record visibility.
- C. Use With Sharing keyword in Apex classes to enforce sharing rules evaluation.
- D. Use isAccessible() method in Apex classes to check field accessibility

Answer: C,D

NEW QUESTION # 77

Universal Containers implemented Sales Cloud and requested that only certain branch staff trained to sell high-risk products can create opportunities for high-risk products.

How should an architect allow only specific branch staff to sell high-risk products?

- A. Set the price book OWD to View Only and share the (High Risk) price book with the trained staff via manual sharing.
- B. Set the price book organization-wide default (OWD) to View Only and share the price book (High Risk) with the trained staff.
- C. Set the price book OWD to View Only and share the (High Risk) price book with the trained staff via a sharing rule.

Answer: B

NEW QUESTION # 78

Universal Containers (UC) has created a custom Invoice object. Standard sales users at UC can see the records in search layout, but when they click to view the detail, only record name, created date, and last modified date are shown. When the system admin accesses it, he or she sees the full record detail with many more data fields.

What is the likely cause of this issue?

- A. Org-wide sharing settings have been set to Private and need to be adjusted to Public Read/Write.
- B. Sales users profile does not have access to the remaining fields.

- C. Page layout assigned to sales user profile has only read-only access to the fields.
- D. A role-based sharing is missing and should be added for the sales user's role to grant access to the fields.

Answer: B

NEW QUESTION # 79

What is required to implement Filter-Based Opportunity Territory Assignment?

- A. Define a custom Apex class for Filter-Based Opportunity Territory Assignment in the system.
- B. Define an Opportunity assignment rule with filter criteria for Filter-Based Opportunity Territory Assignment.
- C. Define an account assignment with a filter criteria rule for Filter-Based Opportunity Territory Assignment.
- **D. Define a Territory assignment rule with filter criteria for Filter-Based Opportunity Territory Assignment.**

Answer: D

Explanation:

Explanation

To implement Filter-Based Opportunity Territory Assignment, you need to define a Territory assignment rule with filter criteria for Filter-Based Opportunity Territory Assignment¹. This will allow you to assign opportunities to territories based on field values of the opportunity or its related account¹. Defining an account assignment, a custom Apex class, or an opportunity assignment rule are not required for this feature.

NEW QUESTION # 80

Universal Containers (UC) has created a public group with certain Sales Engineers to help on complex deals and a sharing rule to grant access to these opportunities. Opportunity OWD is private.

What is the impact of these sharing settings?

- A. Sales Engineers direct reports will also have access to these records.
- B. Subordinates of Managers who have Sales Engineers in the public group will also have access to these records.
- C. Sales Engineers that have a similar role of the Sales Engineers of the public group will also have access to these records.
- **D. Sales Engineers Managers and their managers in the role hierarchy will also have access to these records.**

Answer: D

Explanation:

Explanation

The impact of these sharing settings is that Sales Engineers Managers and their managers in the role hierarchy will also have access to these records. This is because sharing rules extend access to users in public groups, roles, or territories. The access granted by a sharing rule is inherited by users above those users in the role hierarchy¹. Subordinates of Managers who have Sales Engineers in the public group, Sales Engineers that have a similar role of the Sales Engineers of the public group, and Sales Engineers direct reports will not have access to these records unless they are explicitly granted by other means.

NEW QUESTION # 81

.....

VCE4Dumps knows the importance of the Salesforce Sharing-and-Visibility-Architect certification exam in the field of information technology. That is why it has prepared the remarkable Salesforce Sharing-and-Visibility-Architect exam questions to help the aspirants pass it on the first go.
