Salesforce Certified Sharing and Visibility Architect Sample Questions (Q56-Q61):

NEW QUESTION # 56
Universal Containers (UC) has 600 sales reps. UC has rollout plan to deploy salesforce in 3 weeks. At the end of the second week, they received a "User Role Limit Exceeded" error.
After investigation, they discovered that during the user provisioning process, a new role was generated for every new user.
Which two recommendations could solve this problem?
Choose 2 answers.

- A. Create an Apex class to replace the User Roles by generic one as soon as they are created.
- B. Contact salesforce support and request to increase the number of users' roles allowed.
- C. Remove role hierarchy from salesforce org and control the record access using apex managed sharing.
- D. Review the user provisioning process to not automatically create a user role for any new user.

Answer: B,D

NEW QUESTION # 57

In order to allow community users to collaborate on Opportunities, which license type must the users be given?

- A. Customer Community Plus
- B. Customer Community
- C. Partner Community

Answer: C

Explanation:
To enable community users to collaborate on Opportunities, they must have access to the Opportunity object, which is included in the Partner Community license. This license type is specifically designed for partners and provides access to features like Opportunities, Campaigns, Leads, and other standard objects required for collaborative sales processes.
* Option A: Customer Community Plus licenses do not grant access to Opportunities, as they are primarily focused on external customer engagement without sales collaboration.
* Option B: Customer Community licenses are limited to basic interactions like viewing and updating cases or accessing content, and they exclude access to Opportunities.
* Option C (Correct): Partner Community licenses include access to Opportunities, making them the appropriate choice for this use case.

Community Licenses Overview

NEW QUESTION # 58

Which two options can be selected to share data with when creating a sharing rule?
Choose 2 answers

- A. Public Groups
- B. Profiles
- C. Roles
- D. Users

Answer: A,C

Explanation:
Explanation
Roles and Public Groups are two options that can be selected to share data with when creating a sharing rule.
Sharing rules can grant additional access to records based on the owner's role or public group membership.
Option C is incorrect, since Users are not an option for sharing rules. Option D is incorrect, since Profiles are not an option for sharing rules.

NEW QUESTION # 59

Sales Operations at Universal Containers (UC) has created Public Report and Dashboard folders for sales managers that report to the VP of sales. Sales Operations currently spends a few hours each month updating users that should have access to edit items in these folders.
In which two ways can UC grant access to sales managers to automate access to these Reports and Dashboards folders?

- A. Share the folders lowest roles in the role hierarchy, Superiors will get access automatically.
- B. Share the folders with the "VP of Sales" Role and Subordinates.
- C. Share the folders with the "Sales Managers" Queue.
- D. Share the folders with a "Sales Managers" Public Group.

Answer: B

NEW QUESTION # 60

Universal Containers (UC) has a mostly Private organization-wide default, as it Is a core principle of UC to respect client data privacy. UC has implemented complex processes for granting access to Opportunity dat a. A few key members of the sales reporting team need to always be able to see, but not change, Opportunity data for all opportunities.
What should an architect recommend as an approach to meet these requirements?

- A. Give the View All Data permission to the Sales Reporting profile.
- B. Create a permission set that grants the View All permission for Opportunity.
- C. Create & permission set that grants the View All Data permission.

Answer: B

NEW QUESTION # 61
