## OACETT Internationally Educated Professional Practice Exam Sample Questions (Q45-Q50):

### NEW QUESTION # 45

Which of the following is an example of an ethical problem that is an unsuccessful attempt to remedy a technical issue that has been identified?

- A. A computer programmer brings a problem with a proposed new computer system to the attention of her managers. Her managers take note of her recommendations and implement changes to the new system.
- **B. A computer programmer brings a problem with a proposed new computer system to the attention of her managers. Her managers dismiss her concerns and move ahead with the new system. The organization experiences serious operational consequences as a result of the new system.**
- C. A computer programmer brings a problem with a proposed new computer system to the attention of her managers. She blames a colleague for the problem. Her colleague is fired, but the organization goes ahead with the new system anyway. There are, however, no issues with the system.
- D. A computer programmer brings a problem with a proposed new computer system to the attention of her managers. Her managers dismiss her concerns and move ahead with the new system. The organization does not experience any serious operational consequences as a result of the new system.

**Answer: B**

Explanation:

An ethical problem arises when valid concerns are ignored, leading to preventable failures.

Step-by-Step Explanation:

\* Ethical Obligation to Address Issues:

\* Professionals must report and advocate for technical fixes when risks exist.

\* Ignoring problems can lead to system failures, data breaches, or unsafe operations.

\* Why Option D Is Correct:

\* The manager dismissed concerns instead of investigating.

\* The organization suffered negative consequences, proving the issue was valid.

\* Why Other Options Are Incorrect:

\* A, B (No serious impact)- Ethical failures must lead to negative outcomes to be classified as unsuccessful attempts.

\* C (Managers addressed the concern)- If concerns are acted upon, this is a successful resolution.

### NEW QUESTION # 46

What is the name of OACETT's professional journal?

- A. OACETT Today
- **B. The Ontario Technologist**
- C. The Engineering Technologist
- D. The Ontario Engineering Technologist

**Answer: B**

Explanation:

1. Purpose of OACETT's Professional Journal

\* The Ontario Technologist is OACETT's official professional publication.

\* It provides updates on industry trends, regulatory changes, and continuing education opportunities for members.

2. Key Features of The Ontario Technologist:

\* Articles on technological advancements and best practices.

\* Updates on OACETT certifications and policies.

\* Interviews with engineering technology professionals.

3. Why Option C is Correct:

\* The Ontario Technologist is the official OACETT publication.

4. Why Other Options Are Incorrect:

\* A (The Engineering Technologist)- Incorrect; not the official name.

\* B (The Ontario Engineering Technologist)- Incorrect title.

\* D (OACETT Today)- No such publication.

### NEW QUESTION # 47

What is the best definition of a profession?

- A. An occupation that requires practitioners to complete predetermined assessments in order to be employed in that profession.
- B. An occupation that requires years of education and training at either the college or university level.
- **C. An occupation that requires practitioners to have extensive and detailed knowledge and skills and to complete a process that verifies the knowledge and skills.**
- D. An occupation that requires practitioners to complete a challenging test in order to be approved to practice the occupation.

**Answer: C**

Explanation:

1. What Defines a Profession?

A profession is more than just a job; it is a regulated field that requires specialized knowledge, skills, and ethical responsibility.

\* Extensive knowledge and skills- Professionals must undergo formal education and training.

\* Verification process- Must prove their competence through certification or licensing.

\* Commitment to ethical standards- Professionals must adhere to codes of conduct and continuing education requirements.

2. Why Option B is Correct:

\* Professions like engineering technology, medicine, and law require:

\* Years of training and skill development.

\* Verification of competencies through certifications or licensing.

\* Ongoing professional development.

\* OACETT certification is a verification process that ensures Certified Engineering Technologists (CETs) meet professional standards.

3. Why Other Options Are Incorrect:

\* A (Passing a test defines a profession)- Testing is only one part of a profession; skills, knowledge, and ethics are equally important.

\* C (Years of education required)- Not always true; some professions rely on apprenticeships and certification rather than long formal education.

\* D (Predetermined assessments define a profession)- Assessments are important, but do not fully define a profession.

### NEW QUESTION # 48

What are the steps in the communication process?

- A. A message is created by the sender and then interpreted by the receiver.
- B. A message is encoded by the sender and then it is decoded by the receiver.
- C. A message is sent by one person through a selected communication channel and then it is received by one or more people.
- **D. A message is created by the sender, it is transmitted, it is received, and then it is interpreted by the receiver.**

**Answer: D**

Explanation:

1. What is the Communication Process?

\* Communication is the process of transferring information from one party to another through verbal, written, or non-verbal means.

\* Effective communication ensures that information is clearly understood, reducing errors and misinterpretation.

2. The 4 Steps of the Communication Process:

1##Message Creation# The sender formulates the message and determines its purpose. 2##Transmission# The message is sent through a communication channel (e.g., email, face-to-face, phone call). 3##Reception# The recipient receives the message and prepares to interpret it. 4##Interpretation# The receiver decodes and understands the message based on context, knowledge, and clarity.

3. Why Option B is Correct:

\* It accurately describes all four key steps of the communication process.

4. Why Other Options Are Incorrect:

\* A (Only encoding and decoding)- Missing important steps like message transmission and reception

.

\* C (Only sending and receiving messages)- Lacks clarity on message creation and interpretation.

\* D (Only creating and interpreting)- Ignores transmission and reception steps.

## NEW QUESTION # 49

What is the Ontario Ministry of Northern Development, Mines, Natural Resources, and Forestry responsible for?

- A. It is responsible for protecting Ontario's provincial parks, forests, fisheries, wildlife, mineral aggregates, Crown lands, and waters.
- B. It is responsible for the cost-effective and profitable use of Ontario's natural resources.
- C. It is responsible for ensuring Ontario's air pollution stays within acceptable ranges.
- D. It is responsible for ensuring that mining operations operate according to standards set out by the federal government.

**Answer: A**

Explanation:

1. Role of the Ministry of Northern Development, Mines, Natural Resources, and Forestry

\* This ministry oversees the protection, conservation, and sustainable management of Ontario's natural resources.

\* Responsibilities include:

\* Managing Ontario's forests, lakes, and wildlife.

\* Regulating mining and mineral extraction.

\* Overseeing conservation efforts in provincial parks and Crown lands.

2. Why Option A is Correct:

\* The ministry's primary role is environmental protection and resource management, ensuring sustainability and biodiversity preservation.

3. Why Other Options Are Incorrect:

\* B (Cost-effective use of resources)- The ministry focuses on conservation rather than just profitability.

\* C (Mining regulations only)- Mining is only one part of the ministry's broader responsibilities.

\* D (Air pollution control)- This falls under the Ministry of the Environment, Conservation, and Parks.
