

Splendid Deep-Security-Professional Exam Materials: Trend Micro Certified Professional for Deep Security Present You a brilliant Training Dump - RealExamFree

P.S. Free & New Deep-Security-Professional dumps are available on Google Drive shared by RealExamFree:
https://drive.google.com/open?id=1RIhETE__WIF7an6KpgmqAIEYh7qe36TA

Before the clients decide to buy our Deep-Security-Professional test guide they can firstly be familiar with our products. The clients can understand the detailed information about our products by visiting the pages of our products on our company's website. Firstly you could know the price and the version of our Deep-Security-Professional study question, the quantity of the questions and the answers. Secondly you could look at the free demos of our Deep-Security-Professional learning prep to see if the questions and the answers are valuable. And our pass rate of Deep-Security-Professional exam questions is more than 98%.

Our Deep-Security-Professional valid practice questions are designed by many experts in the field of qualification examination, from the user's point of view, combined with the actual situation of users, designed the most practical learning materials, so as to help customers save their valuable time. Whether you are a student or a working family, we believe that no one will spend all their time preparing for Deep-Security-Professional exam, whether you are studying professional knowledge, doing housework, looking after children, and so on, everyone has their own life, all of which have to occupy your time to review the exam. Using the Deep-Security-Professional Test Prep, you will find that you can grasp the knowledge what you need in the exam in a short time. Because users only need to spend little hours on the Deep-Security-Professional quiz guide, our learning materials will help users to learn all the difficulties of the test site, to help users pass the qualifying examination and obtain the qualification certificate. If you think that time is important to you, try our learning materials and it will save you a lot of time.

What are you waiting for? Unlock your potential and download RealExamFree actual Deep-Security-Professional questions today! Start your journey to a bright future, and join the thousands of students who have already seen success by using Trend Dumps of RealExamFree, you too can achieve your goals and get the Trend Micro Certified Professional for Deep Security (Deep-Security-Professional) certification of your dreams. Take the first step towards your future now and buy Deep-Security-Professional exam dumps. You won't regret it!

Trend Micro Certified Professional for Deep Security Sample Questions (Q24-Q29):

NEW QUESTION # 24

Based on the configuration setting highlighted in the exhibit, what behavior can be expected during a malware scan?

- A. With the highlighted setting enabled, Deep Security Agents will scan files for viruses and malware using supplementary aggressive detection pattern files.
- B. With the highlighted setting enabled, Deep Security Agents will scan files for known viruses and malware using patterns and any files deemed suspicious will be submitted to a configured Deep Discovery Analyzer for further analysis.
- C. With the highlighted setting enabled, Deep Security Agents will scan files for unknown malware using Predictive Machine Learning.
- D. With the highlighted setting enabled, Deep Security Agents will scan files for known malware as well as newly encountered malware by accessing the Suspicious Objects List.

Answer: A

Explanation:

The highlighted option specifies, "Scan for exploits against known critical vulnerabilities and aggressive detection of unknown suspicious exploits." This means the agent uses additional, more aggressive detection patterns to identify not just known exploits but also suspicious and unknown exploit techniques in document files. Predictive Machine Learning and Suspicious Objects List are separate features, and Deep Discovery Analyzer integration is not referenced by this setting.

NEW QUESTION # 25

Which of following statements best describes Machine Learning in Deep Security?

- A. Machine Learning is a malware detection technique in which files are scanned based on the true file type as determined by the file content, not the extension.
- B. Machine Learning is malware detection technique in which processes on the protected computer are monitored for actions that are not typically performed by a given process.
- **C. Machine Learning is malware detection technique in which features of an executable file are compared against a cloud-based learning model to determine the probability of the file being malware.**
- D. Machine Learning is a malware detection technique in which the Deep Security Agent monitors process memory in real time and once a process is deemed to be suspicious, Deep Security will perform additional checks with the Smart Protection Network to determine if this is a known good process.

Answer: C

Explanation:

Predictive Machine Learning

NEW QUESTION # 26

Which of the following statements correctly identifies the purpose of the Integrity Monitoring Protection Module?

- A. The Integrity Monitoring Protection Module monitors incoming traffic to confirm the integrity of header information including packet source and destination details.
- B. The Integrity Monitoring Protection Module monitors and analyzes the integrity of application logs to identify tampering, corruption and other suspicious modifications to the logs.
- **C. The Integrity Monitoring Protection Module monitors critical operating system objects such as services, processes, registry keys and ports to detect and report malicious or unexpected changes.**
- D. The Integrity Monitoring Protection Module monitors traffic to verify the integrity of incoming traffic to identify protocol deviations, packets fragments and other protocol anomalies.

Answer: C

Explanation:

The Integrity Monitoring module is designed to watch over key OS objects-such as files, registry keys, processes, and ports-and detect/report unauthorized or unexpected changes for compliance and security auditing.

NEW QUESTION # 27

A collection of servers protected by Deep Security do not have Internet access. How can Smart Scan be used on these computers?

- A. Smart Scan can be configured to use a local pattern file containing the same information as the Smart Protection Network.
- B. Promote one of the Deep Security Agents on the air gapped computers to become a Relay.
- **C. Install a Smart Protection Server in the environment and set it as the source for File Reputation information.**
- D. Smart Scan must contact the Smart Protection Network to function. Any servers without Internet access will be unable to use Smart Scan.

Answer: C

Explanation:

For environments without Internet access, a Smart Protection Server can be deployed locally. This server provides File Reputation and Web Reputation services for Smart Scan, allowing air-gapped systems to use Smart Scan without requiring direct Internet access.

NEW QUESTION # 28

How can you prevent a file from being scanned for malware?

- A. Edit the "Scan Exclusions" section of the dsa.properties configuration file on the Deep Security Agent computer to include the file name. Save the configuration file and restart the Deep Security Agent service.

- B. Add the file to the Exclusions list in the Malware Scan Configuration.
- C. Enable "File Types scanned by IntelliScan" in the Malware Scan Configuration properties in the Deep Security Manager Web console. Click "Scan All Except" and type the filename to exclude from the scan.
- D. Add the file to the Exclusions list in the "Allowed Spyware/Grayware Configuration".

Answer: B

NEW QUESTION # 29

.....

Owing to the industrious dedication of our experts and other working staff, our Deep-Security-Professional study materials grow to be more mature and are able to fight against any difficulties. Our Deep-Security-Professional preparation exam have achieved high pass rate in the industry, and we always maintain a 99% pass rate with our endless efforts. We have to admit that behind such a startling figure, there embrace mass investments on our Deep-Security-Professional Exam Questions from our company.
