PRINCE2 7 Foundation written Exam Sample Questions (Q12-Q17):

NEW QUESTION # 12

Which control must be used as a minimum requirement for applying the 'progress' theme?

- A. A project plan
- **B. Tolerances**
- C. An Issue register
- D. Highlight reports

Answer: B

NEW QUESTION # 13

How should effective issue management be applied When changing management products?

- **A. By creating new versions of a management product when a change is approved**
- B. By Implementing a change budget to fund changes to the project product
- C. By changing the issue management approach at the end of each stage to reflect lessons
- D. By recording the required change to a management product as an off-specification

Answer: A

Explanation:

Effective issue management in PRINCE2 should involve creating new versions of management products whenever a change is approved. This practice ensures that all documentation reflects the most current understanding and agreements regarding the project's scope and requirements. It helps maintain the integrity and relevance of the project documentation throughout its lifecycle, facilitating effective governance and control.

- **A. Agreeing a work package with a team manager to deliver products using specific tools**
- B. Ensuring that a co-located project team uses the agreed communication methods
- C. Creating a stage plan and product descriptions for the products to be created in the next stage
- D. Understanding and working with different departments outside of the project team

Answer: A

Explanation:

A leadership activity within a PRINCE2 project involves several responsibilities, one of which is agreeing on work packages with team managers. This agreement includes specifying the tools and techniques to be used for product delivery. This activity is crucial for ensuring clarity and mutual understanding of how work is to be conducted, facilitating effective delegation and accountability within the project team.
