Scrum SSM (6.0) - SAFe® Scrum Master Sample Questions (Q90-Q95):

NEW QUESTION # 90

Is the ART Sync a cadenced event?

- A. Yes
- **B. No**

Answer: B

NEW QUESTION # 91

According to SAFe, what is one common characteristic of effective Scrum Masters/Team Coaches?

- A. Ambitious
- **B. Conflict navigator**
- C. Charismatic
- D. Competitive

Answer: B

Explanation:

According to the SAFe (Scaled Agile Framework) guidelines, an effective Scrum Master or Team Coach (SM/TC) exhibits several key traits that enable them to support Agile Teams effectively. One of the most emphasized characteristics is the ability to navigate conflict constructively.

A "conflict navigator" refers to someone who helps the team identify and work through disagreements in a productive way. Rather than avoiding or suppressing conflict, a skilled Scrum Master uses it as an opportunity to surface issues, enhance team learning, and drive continuous improvement. This aligns with the servant-leadership stance encouraged both in SAFe and the Scrum Guide.

While traits like being charismatic or ambitious may be personally beneficial, they are not explicitly listed in SAFe or Scrum literature as core attributes for Scrum Masters. Similarly, competitiveness could actually contradict the collaborative, team-focused nature of Agile frameworks.

From the SAFe Scrum Master role description:

"Effective Scrum Masters are servant leaders who display characteristics such as active listening, empathy, persuasion, and conflict facilitation." This highlights the importance of conflict facilitation, making "Conflict navigator" the correct answer.

NEW QUESTION # 92

What is one way a Scrum Master/Team Coach can support productive team Backlog Refinement sessions?

- A. Create a reusable agenda for the team ahead of time
- **B. Ensure subject matter experts are invited**
- C. Assure teammates that they will be heard
- D. Generate ideas for Stories with the team before refinement

Answer: B

Explanation:

One way a Scrum Master/Team Coach can support productive team Backlog Refinement sessions is to ensure subject matter experts are invited. Subject matter experts (SMEs) are people who have specialized knowledge or skills related to the domain or technical aspects of the product or solution. They can provide valuable input and feedback to the team during Backlog Refinement, such as clarifying requirements, validating assumptions, identifying dependencies, and suggesting solutions. SMEs can also help the team to split, estimate, and prioritize the backlog items more effectively and accurately. By inviting SMEs to the Backlog Refinement sessions, the Scrum Master/Team Coach can facilitate better collaboration, communication, and alignment among the team and the stakeholders.
