NEW QUESTION # 76

What are two actions a team can take to improve economic outcomes? (Choose two.)

- **A. Research spike/enabler**
- B. Late integration
- C. Delay performance testing
- D. Increase velocity
- **E. Automation testing**

Answer: A,E

NEW QUESTION # 77

What is one Scrum Master/Team Coach technique for guiding team members toward finding solutions together?

- **A. Asking powerful questions**
- B. Facilitating a process improvement workshop
- C. Bringing in new team members to refresh the team dynamic
- D. Pairing team members to grow T-shaped skills

Answer: A

Explanation:

An essential coaching technique for Scrum Masters/Team Coaches in SAFe is asking powerful questions. Instead of providing direct solutions, effective Scrum Masters guide the team toward self-discovery and collaborative problem-solving.

Powerful questions are open-ended, thought-provoking inquiries that stimulate deeper reflection and creative thinking. This approach aligns with the servant-leader mindset, enabling team members to take ownership of their challenges and develop collective accountability.

Examples include:

"What options have we not yet considered?"

"What's the smallest next step we could take?"

"What's blocking our progress, and how might we remove it together?"

From SAFe guidance:

"Scrum Masters and Team Coaches enable teams to find their own solutions by asking powerful questions rather than providing answers. This encourages collaboration and fosters a culture of continuous learning." Therefore, the correct answer is A. Asking powerful questions, as it directly supports self-management and team empowerment.

NEW QUESTION # 78

What is a team's primary goal in an Iteration?

- A. Maintaining steady team syncs across the Iteration
- B. Managing scope at the start of the Iteration
- C. Sharing progress with the organization during the Iteration
- **D. Delivering working functionality at the end of the Iteration**

Answer: D

Explanation:

The primary goal of a team in an Iteration is to deliver working functionality that meets the acceptance criteria and the definition of done. This functionality is demonstrated to the stakeholders and customers in the Iteration Review and Demo event, where the team receives feedback and validation. By delivering working functionality at the end of the Iteration, the team contributes to the Incremental value delivery, one of the SAFe Lean-Agile Principles. (Must be taken from SAFe 6 Scrum Master resources)

NEW QUESTION # 79

What is one way a Scrum Master/Team Coach can support productive team Backlog Refinement sessions?

- **A. Ensure subject matter experts are invited**
- B. Generate ideas for Stories with the team before refinement
- C. Create a reusable agenda for the team ahead of time
- D. Assure teammates that they will be heard

Answer: A

Explanation:

One way a Scrum Master/Team Coach can support productive team Backlog Refinement sessions is to ensure subject matter experts are invited. Subject matter experts (SMEs) are people who have specialized knowledge or skills related to the domain or technical aspects of the product or solution. They can provide valuable input and feedback to the team during Backlog Refinement, such as clarifying requirements, validating assumptions, identifying dependencies, and suggesting solutions. SMEs can also help the team to split, estimate, and prioritize the backlog items more effectively and accurately. By inviting SMEs to the Backlog Refinement sessions, the Scrum Master/Team Coach can facilitate better collaboration, communication, and alignment among the team and the stakeholders.
