- A. Primary Manager
- B. Manager for Majority of Event
- C. Matrix Manager
- D. Manager

Answer: B

Explanation:

- * In a performance review event spanning multiple months, Workday determines which manager should receive the evaluation step.
- * The optionManager for Majority of Eventensures that the manager who supervised the employee for thelongest portion of the review period(in this case, January-August) is the one who receives the task.
- * Incorrect options:
- * A. Manager # routes to current manager by default, not historical.
- * C. Matrix Manager # used for matrix org relationships, not standard review.
- * D. Primary Manager # is the current primary manager at the time of launch.

NEW QUESTION #16

Your organization launches talent reviews for the entire organization on an annual basis. You created a new Talent Lead security group to initiate the talent review event.

What do you need to modify to enable this configuration?

- A. The Talent Review business process security policy
- B. Both the Launch Talent Reviews business process security policy and the Talent Review domain security policy
- C. Both the Talent Review business process security policy and the Talent Review domain security policy
- D. The Launch Talent Reviews business process security policy

Answer: B

Explanation:

This scenario involves enabling a new security group (Talent Lead) to initiate Talent Review events in Workday. To achieve this, you need to configure both the business process security and domain security that govern Talent Reviews.

- * Launch Talent Reviews business process security policy
- * This policy controls who has permission to initiate the Talent Review event.
- * Without updating this, the new Talent Lead group cannot start the review process.
- * Talent Review domain security policy
- * This policy governs access to Talent Review objects, such as templates, review events, grids, and attributes.
- * Without updating domain security, even if the group can launch the process, they will not be able to view or interact with the talent review itself.
- * Incorrect alternatives
- * Option B (Launch Talent Reviews only): This would allow the group to initiate the process, but they would lack access to view or work with the reviews.
- * Option C (Talent Review business process security policy): There is no generic "Talent Review business process"; the correct one is "Launch Talent Reviews."
- * Option D (Talent Review business process + domain security): Misstated. The business process in question is "Launch Talent Reviews," not a general Talent Review business process.

Therefore, the correct answer is to updateboth the Launch Talent Reviews business process security policy and the Talent Review domain security policyso that the Talent Lead group has both initiation rights and access permissions.

References

- * Workday Pro Talent & Performance Certification Guide Security in Talent Reviews: Explains that both business process security and domain security must be configured for security groups responsible for launching talent reviews.
- * ERP Cloud Training Talent Review Security: Notes that business process security grants initiation rights, while domain security controls access to objects and review content.
- * Workday Community Documentation Talent Review Setup: Confirms that both the Launch Talent Reviews business process policy and the Talent Review domain security policy must be modified when a new security group is added to initiate reviews.
