You may be complaining that your work abilities can't be recognized or you have not been promoted for a long time. But if you try to pass the 350-801 exam you will have a high possibility to find a good job with a high income. That is why I suggest that you should purchase our 350-801 questions torrent. Once you purchase and learn our 350-801 Exam Materials, you will find it is just a piece of cake to pass the exam and get a better job. You can read the introduction of our 350-801 exam questions carefully before your purchase. We provide the best service to you and hope you will be satisfied.

## Certification Details

- **Cisco Certified Specialist – Collaboration Core**

Finally, Cisco Certified Specialist – Collaboration Core is a title that recognizes your accomplishments at the professional level. It serves as a validation of an individual's skills and ensures a base for further advancements in the industry.

- **CCIE Collaboration**

CCIE Collaboration is Cisco certification that relates to the expert level and addresses a solid expertise in collaboration solutions. Success in this path sets you apart as a distinguished professional who understands the ins and outs of collaboration technologies. Aside from passing the Cisco 350-801 exam, candidates must also pass one lab test to qualify for this certificate, which in this case is the Cisco CCIE Collaboration v3.0. While the vendor does not list any strict prerequisites for attaining this accreditation, the applicants are advised to have about 5 years of working experience in managing collaboration technologies.

- **CCNP Collaboration**

CCNP Collaboration, on the other hand, is a certificate that proves one's ability to work with collaboration solutions on an intermediate level. Achieving it puts you on course to attaining certification supremacy by acting as the second-best option after the above-mentioned CCIE Collaboration.

Generally, learners must pass a two-exam combination to get certified. The core test, Cisco 350-801, and a concentration one from the options listed below:

- Cisco 300-810: Implementing Cisco Collaboration Applications (CLICA)
- Cisco 300-815: Implementing Cisco Advanced Call Control and Mobility Services (CLACCM)
- Cisco 300-820: Implementing Cisco Collaboration Cloud and Edge Solutions (CLCEI)
- Cisco 300-825: Implementing Cisco Collaboration Conferencing (CLCNF)
- Cisco 300-835: Implementing Automation for Cisco Collaboration Solutions (CLAUI)

Usually, CCNP Collaboration candidates are expected to have at least three years of proven experience working with collaboration services.

## Target Audience for 350-801 Test

The candidates who should take the Cisco CLCOR 350-801 exam are formed from network administrators and engineers as well as systems engineers. Moreover, this test plus one concentration exam of your choice is suitable for the students who are interested in preparing to obtain the CCNP Collaboration designation. As you remember, this exam alone is also necessary to obtain the Cisco Certified Specialist – Collaboration Core validation. Finally, by acing 350-801 alongside the CCIE Collaboration v3.0 test, candidates will manage to get the CCIE Collaboration certification.

## 100% Free 350-801 – 100% Free Study Reference | Excellent Test Implementing and Operating Cisco Collaboration Core Technologies Registration

Where there is a will, there is a way. As long as you never give up yourself, you are bound to become successful. We hope that our 350-801 study materials can light your life. People always make excuses for their laziness. It is time to refresh again. You will witness your positive changes after completing learning our 350-801 Study Materials. There will be various opportunities waiting for you. You take the initiative. It is up to you to make a decision. We only live once. Don't postpone your purpose and dreams.

Cisco 350-801 Certification Exam is an essential credential for professionals seeking to advance their careers in the collaboration technology field. Implementing and Operating Cisco Collaboration Core Technologies certification validates the candidate's expertise in implementing and operating Cisco collaboration core technologies and is a valuable asset for individuals seeking to stand out in the job market. With the right preparation and hard work, candidates can achieve this certification and unlock new opportunities for career growth and success.

## Cisco Implementing and Operating Cisco Collaboration Core Technologies Sample Questions (Q200-Q205):

### NEW QUESTION # 200

An engineer with troubleshoots poor voice quality on multiple calls. After looking at packet captures, the engineer notices high levels of jitter.

Which two areas does the engineer check to prevent jitter? (Choose two.)

- A. MTP is enable on the sip trunk to cisco Unified Border Element.
- **B. Voice packets are classified and marked.**
- C. Cisco UBE manages voice traffic, not data traffic.
- D. All devices use wired connections instead of wireless connections.
- **E. The network meets bandwidth requirements.**

**Answer: B,E**

Explanation:

### NEW QUESTION # 201

An administrator uses the Cisco Unified Real-Time Monitoring Tool to investigate recent calls on a Cisco UCM cluster. The SIP trace for an on-net, direct-media call shows two 180 Ringing and two 11 BYE messages. Why are there multiples of each message type in the trace?

- **A. The destination phone signals back to the Cisco UCM that it is ringing, and the Cisco UCM signals back to the source phone.**
- B. The source phone sends a 180 Ringing signal to the Cisco UCM, which sends a 180 Ringing signal to the destination phone. The same process applies to 11 BYE messages.
- C. The calls have an MTP in the call path due to different codec support. The calls are subsequently split into two call legs.
- D. The source phone must signal to the destination phone that it is ringing, and the destination phone signals back with a 180 Ringing message. The same process applies to 11 BYE messages.

**Answer: A**

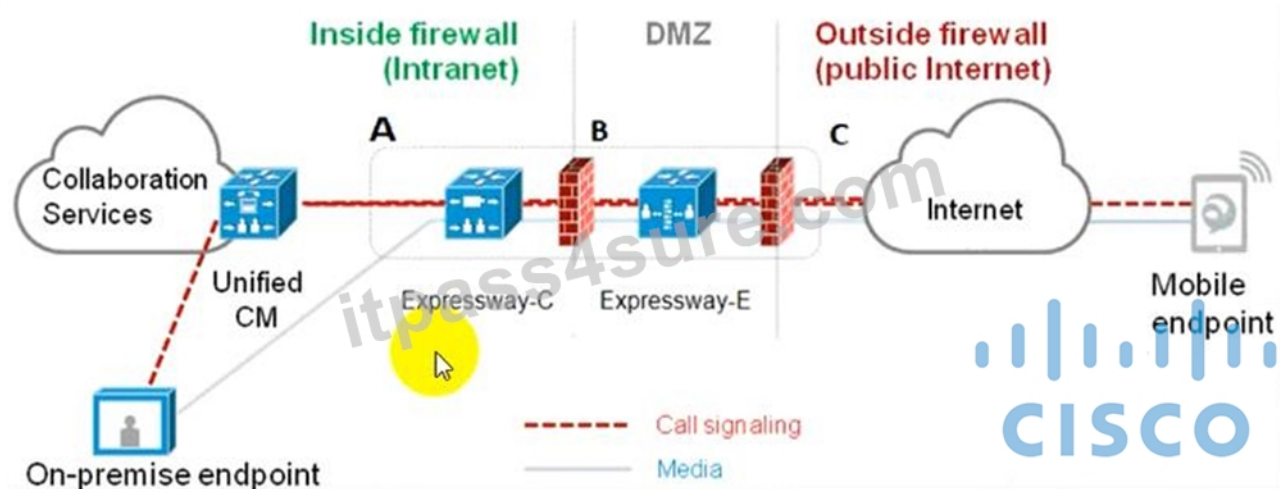

Explanation:

The ringing message actually comes from the destination phone and not from the source one.

#### NEW QUESTION # 202

Refer to the exhibit.

Refer to the exhibit. When making a call to a Mobile and Remote Access client, what are the combinations of protocol on each of the different sections A-B-C?

- A. SIP TCP/TLS (A) + SIP TLS (B) + SIP TLS (C)
- B. SIP TLS (A) + SIP TLS (B) + SIP TLS (C)
- C. IP TCP/TLS (A) + SIP TCP/TLS (B) + SIP TLS (C)
- D. SIP TCP/TLS (A) + SIP TCP/TLS (B) + SIP TCP/TLS (C)

**Answer: A**

#### NEW QUESTION # 203

An engineer configures local route group names to simplify a dial plan. Where does the engineer set the route groups according to the local route group names that are configured?

- A. route list
- B. device pool
- C. route pattern
- D. CSS

**Answer: B**

Explanation:

Use the System > Device Pool menu option in Cisco Unified Communications Manager Administration to configure the Local Route Group setting for the device pools in the Cisco Unified Communications Manager implementation. For each device pool that you configure, specify a route group to use as local route group for that device pool. For each device pool, users may also configure the Called Party Transformation CSS for the devices in that device pool.
