In the annual examination questions, our L4M3 study questions have the corresponding rules to summarize, and can accurately predict this year's test hot spot and the proposition direction. This allows the user to prepare for the test full of confidence.

CIPS L4M3 exam is a crucial assessment for procurement professionals who are looking to advance their career in commercial contracting. L4M3 exam focuses on the skills and knowledge required to successfully manage commercial contracts and ensure effective supplier performance. L4M3 exam covers a wide range of topics, including contract formation, contract administration, and contract termination.

CIPS L4M3 (CIPS Commercial Contracting) Certification Exam is an essential qualification for procurement and supply chain professionals who are looking to establish themselves as experts in commercial contracting practices. CIPS Commercial Contracting certification is offered by the Chartered Institute of Procurement and Supply (CIPS), which is a global organization that provides education, training, and certification programs for procurement and supply chain professionals.

The CIPS L4M3 Exam covers a wide range of topics related to commercial contracting including the different types of contracts, their formation and termination, contract performance, and legal and regulatory frameworks. It also assesses candidates' ability to manage the contractual relationship with suppliers, and their ability to draft and negotiate effective contracts. Passing the CIPS

Commercial Contracting Certification Exam is an indication of the candidate's capability to deliver successful outcomes through effective contract management. CIPS Commercial Contracting certification is a valuable addition to a procurement and supply management professional's qualifications and enhances their career prospects.

CIPS Commercial Contracting Sample Questions (Q195-Q200):

NEW QUESTION # 195

Which of the following is the model form of contract for construction which is recommended by World Bank?

- A. ITC
- B. JCT
- **C. FIDIC**
- D. CIPS

Answer: C

Explanation:

FIDIC is the International Federation of Consulting Engineers (or Federation Internationale des Ingenieurs Conseils in French). FIDIC has produced many publications, including the model form contracts, best practice guidances, research on sustainability, integrity and risk management. FIDIC model form contracts have been developed by this organisation since 1999, now they consist of several different books which are marked by colours. Thus, FIDIC model contracts also have the nickname "Rainbow suite of contracts". Basically, the "Rainbow Suite" include the following books:

- * Yellow book: Plant and Design-Build Contract (2 editions: 1999 and 2017)
- * Silver book: EPC/Turnkey Contract (2 editions: 1999 and 2017)
- * Red book: Construction Contracts (2 editions: 1999 and 2017)
- * Emerald book: Conditions of Contract for Underground Works (1st Ed 2019)
- * Blue-Green book: Dredgers Contract (2 editions: 2006 and 2016)
- * Gold book: Design, Build and Operate Contract Guide
- * Pink book: Construction Contract Multilateral Development Bank Harmonised Ed (2 editions: 2005 and 2010) This type of model contract is commonly used around the world because its author, International Federation of Consulting Engineers, collaborates closely with development banks such as World Bank, Africa Development Bank, Asia Development Bank, etc. Every construction project that is financed by these institutions must adopt the FIDIC contracts.

The Joint Contracts Tribunal, also known as the JCT, produces standard forms of contract for construction, guidance notes and other standard documentation for use in the construction industry in the United Kingdom. From its establishment in 1931, JCT has expanded the number of contributing organisations.

ITC (International Trade Centre) produces contracts specifically designed for small companies doing international business, covering the sale of goods, distribution, services and joint ventures. Many small companies are now engaged in international trade, but don't have access to the necessary contract forms to protect themselves. ITC and leading legal experts developed eight generic contract templates that incorporate internationally recognized standards and laws for most small business situations.

CIPS has several model forms of contract designed specifically for IT buying and servicing.

NEW QUESTION # 196

Which of the following key performance indicators are most likely to use numerical data as the main source of information?

The critical evaluation of project deliverables

The subjective responses of a satisfaction survey regarding a service

The instances of late deliveries within a given month

The occurrence of accidents and near misses in a year

- A. 2 and 4 only
- B. 1 and 3 only
- **C. 3 and 4 only**
- D. 1 and 2 only

Answer: C

Explanation:

KPIs that involve actual counts or quantifiable incidents are considered quantitative and use numerical data.

"Late deliveries" and "accidents or near misses" are measured in numbers, making them suitable for numerical performance tracking.

The other options relate more to qualitative analysis or subjective feedback.

Reference:CIPS L4M3 Commercial Contracting Study Guide, Chapter 4, Section 4.3.2 - Quantitative KPIs and performance data.

NEW QUESTION # 197

Which of the following KPIs is qualitative?

1. Openness and co-operation of supplier
2. Responsiveness of supplier
3. Customer satisfactory ratings
4. Cost management
5. OTIF deliveries

- A. 2 and 5 only
- **B. 1 and 3 only**
- C. 1 and 4 only
- D. 2 and 3 only

Answer: B

Explanation:

Qualitative KPIs are based on pure opinions about how well or otherwise the goods are performing or the service is being delivered. Most often, these will be linked to, or converted into, a numerical measure.

However, such satisfaction surveys often also include free fields for respondents to explain why they feel the way they do, and what they might have liked to have been different.

On the other hand, quantitative KPIs are based on numerical measure with either definite number (e.g., actual number of orders incomplete or otherwise inaccurate during the time period) or as a percentage (e.g. number of inaccurate orders as a percentage of the total number of orders).

Openness and co-operation means that supplier is open and co-operative in its relationship with purchaser, e.

g., in terms of joint problem solving. This KPI is qualitative since it is measured by individual judgement.

Responsiveness of supplier means the supplier responds rapidly to requests for information and support without having to be chased.

It is measured by the number of times requests chased as a percentage of number of requests. It is a quantitative KPI.

Customer satisfactory ratings means the level of customer's satisfaction. This KPI is measured by periodic survey and it is a qualitative KPI.

Cost management is another quantitative KPI. It can be measured by comparing between the actual costs and the contractual costs.

OTIF (one-time in-full) deliveries is a quantitative KPI. It can be measured by counting the inaccurate deliveries in the period or inaccurate deliveries as a percentage of total number of deliveries for period.

NEW QUESTION # 198

One of the important features in the formation of a contract is the need to have a 'consensus ad idem' between the contracting parties. 'Consensus ad idem' can be translated as meaning:

- A. A promise to commit the contract to written form
- B. Let the buyer beware before agreeing the contract
- **C. A meeting of minds where all parties have the same understanding of the terms**
- D. An agreement on the main item of the contract

Answer: C

Explanation:

'Consensus ad idem' is a Latin term meaning "meeting of the minds." It refers to both parties having the same understanding and intention regarding the contract's terms. This mutual agreement is essential for forming a valid and enforceable contract.

Reference:CIPS L4M3 Commercial Contracting Study Guide, Chapter 1, Section 1.1.1 - Essential elements of a valid contract.

NEW QUESTION # 199

XYZ Ltd and Engineer Corp signed a long-term supply contract in which both parties had agreed on performance targets. Recently, due to increased customer demands, XYZ Ltd realises that they should make changes to the contract with Engineer Corp with

- A. A separate counter-offer to the supplier
- **B. An amendment to the prime contract**
- C. A stand-alone subcontract to the prime contract
- D. An appendix to the prime contract
