C-WME-2506 Test Sample Online - C-WME-2506 Exam Quizzes

The pass rate of the C-WME-2506 training materials is 99%, we pass guarantee, and if you can't pass, money guarantee for your failure, that is money will return to your account. You just need to send the participation and the failure scanned, money will be returned. We can ensure that your money will be returned, either the certification or the money back. Besides the C-WME-2506 Training Materials include the question and answers with high-quality, you will get enough practice.

SAP Certified Associate - WalkMe Digital Adoption Consultant Sample Questions (Q30-Q35):

NEW QUESTION # 30

When are SmartTip validation rules evaluated?

- A. When the user enters content into a field.
- **B. When the user enters content into a field and then clicks or tabs outside of the field.**
- C. When the user clicks into a field.
- D. When the user refreshes the page.

Answer: B

NEW QUESTION # 31

How does WalkMe help organizations enforce policy and compliance requirements?

- A. By monitoring employees through real-time video feeds
- **B. By displaying pop-ups for policy acknowledgment and using invisible Launchers to block sensitive fields**
- C. By automatically restricting employees from using external software
- D. By disabling access to all non-compliant employees

Answer: B

Explanation:

WalkMe supports organizations in enforcing policy and compliance requirements by providing tools to guide users and prevent non-compliant actions. Specifically, it uses pop-ups for policy acknowledgment (e.g., via ShoutOuts or Smart Walk-Thrus) to ensure users confirm understanding of policies, and invisible Launchers to block sensitive fields, preventing unauthorized interactions without altering the underlying application.

This approach ensures compliance while maintaining a seamless user experience.

The other options are incorrect:

- * Restricting external software (A) is not a WalkMe capability; it focuses on in-app guidance.
- * Monitoring via video feeds (B) is unrelated to WalkMe's functionality.
- * Disabling access to non-compliant employees (C) is too extreme and not a WalkMe feature.

Extract from Official WalkMe Documentation:

According to the SAP WalkMe Digital Adoption Consultant Study Guide (Section 1.1: WalkMe Fundamentals):

"WalkMe enforces compliance by displaying policy acknowledgment pop-ups through ShoutOuts or Smart Walk-Thrus and using invisible Launchers to block sensitive fields, ensuring adherence to regulations." The course WalkMe Fundamentals states:

"To support compliance, WalkMe uses tools like pop-ups for policy confirmation and invisible Launchers to restrict access to sensitive areas, promoting secure user behavior." Option D accurately describes how WalkMe enforces policy and compliance.

SAP WalkMe Digital Adoption Consultant Study Guide, Section 1.1: WalkMe Fundamentals.

WalkMe Overview Guide, "Compliance and Policy Enforcement" Section.

Course: WalkMe Fundamentals, Module 5: Supporting Compliance.

NEW QUESTION # 32

What are the key benefits of using WalkMe's Digital Adoption Platform (DAP)? Note: There are 3 correct answers to this question.

- A. Eliminates the need for IT support teams
- B. Replaces all software within an organization
- **C. Automated onboarding and in-app guidance**
- **D. Enhanced visibility into user engagement and friction points**
- **E. Improved feature awareness and faster platform activation**

Answer: C,D,E

Explanation:

WalkMe's Digital Adoption Platform (DAP) offers several key benefits to organizations:

- * Enhanced visibility into user engagement and friction points (A): Through Insights and Digital Experience Analytics (DXA), WalkMe provides data on user interactions, highlighting areas of difficulty.
- * Improved feature awareness and faster platform activation (C): Tools like ShoutOuts and Smart Walk-Thrus promote new features, accelerating user adoption.
- * Automated onboarding and in-app guidance (E): WalkMe automates onboarding processes with Smart Walk-Thrus and SmartTips, reducing training needs.

The other options are incorrect:

- * Replaces all software (B) is false; WalkMe enhances existing software, not replaces it.
- * Eliminates IT support teams (D) is an exaggeration; WalkMe reduces support needs but doesn't eliminate them.

Extract from Official WalkMe Documentation:

Per the SAP WalkMe Digital Adoption Consultant Study Guide (Section 1.1: Introduction to Digital Adoption):

"Key benefits of WalkMe's DAP include enhanced visibility into user behavior, faster feature adoption through targeted guidance, and automated onboarding with in-app support." The course WalkMe Fundamentals explains:

"WalkMe's DAP drives adoption by offering analytics for engagement insights, promoting features for quicker activation, and automating onboarding with guided content." Options A, C, and E are the key benefits.

Course: WalkMe Fundamentals, Module 2: DAP Advantages.

NEW QUESTION # 33

What is the function of WalkMe Discovery's License Optimization feature?

- A. To disable unused applications permanently
- B. To automatically renew software licenses without user intervention
- C. To increase the number of applications used in an organization
- **D. To identify potential wasted spend on app licenses**

Answer: D

Explanation:

WalkMe Discovery's License Optimization feature analyzes application usage data to identify potential wasted spend on app licenses. By tracking which licenses are underutilized or unused, it helps organizations optimize software investments, reducing costs without disrupting operations.

The other options are incorrect:

- * Automatically renewing licenses(A) is not a WalkMe function.
- * Disabling unused applications permanently(C) is too extreme; Discovery provides insights, not actions.
- * Increasing applications(D) contradicts the goal of optimization.

Extract from Official WalkMe Documentation:

Per the SAP WalkMe Digital Adoption Consultant Study Guide (Section 3.6: WalkMe Discovery):

"The License Optimization feature in WalkMe Discovery identifies underused or unused software licenses, highlighting opportunities to reduce wasted spend." The course WalkMe Fundamentals explains:

"WalkMe Discovery's License Optimization helps organizations save costs by pinpointing licenses that are not fully utilized, enabling informed decisions." Option B correctly describes the function of License Optimization.

References:

SAP WalkMe Digital Adoption Consultant Study Guide, Section 3.6: WalkMe Discovery.

WalkMe Discovery User Guide, "License Optimization" Section.

Course: WalkMe Fundamentals, Module 4: Discovery Features.

NEW QUESTION # 34

There is a new process on your site that is crucial for all employees to complete. Users need to navigate to the time submission page, log their time for the quarter, and submit it in the platform. You have created a Smart Walk-Thru for this process. What should be the Goal?

- **A. User is on the time submission page and clicks the submit button**
- B. User inputs time into input fields
- C. User is on the site and clicks a submit button
- D. User navigates to the time submission page

Answer: A

Explanation:

The Goal of a Smart Walk-Thru defines the successful completion of the intended process, which in this case is employees submitting their quarterly time. The most precise Goal is User is on the time submission page and clicks the submit button, as it confirms both that the user has reached the correct page and completed the submission action, ensuring the process is fully executed. This Goal is measurable in WalkMe Insights and directly aligns with the process's objective.

The other options are less accurate:

- * User inputs time into input fields(A) is a partial step, not the final outcome.
- * User clicks a submit button(B) lacks context about the page, risking false positives.
- * User navigates to the time submission page(C) is incomplete, as navigation alone doesn't ensure submission.

Extract from Official WalkMe Documentation:

Per the WalkMe Editor User Guide (SAP WalkMe Digital Adoption Consultant Study Guide, Section 2.2:

Smart Walk-Thrus):

"Set Goals to reflect the completion of the process, such as a user reaching a specific page and performing a key action, like clicking a submit button, to track success accurately." The course Getting Started with Building WalkMe Solutions explains:

"For a process like time submission, define the Goal as the user being on the target page and clicking the submit button, capturing the full completion of the task." Option D is the correct Goal for the Smart Walk-Thru.
