The system of FCP_GCS_AD-7.6 study materials is very smooth and you don't need to spend a lot of time installing it. We take into account all aspects and save you as much time as possible. After the installation is complete, you can devote all of your time to studying our FCP_GCS_AD-7.6 Exam Questions. We use your time as much as possible for learning. This must remove all unnecessary programs. Our FCP_GCS_AD-7.6 study materials are so efficient!

If you choose the help of TestKingIT, we will spare no effort to help you pass the exam. Moreover, we also provide you with a year of free after-sales service to update the exam practice questions and answers. Do not hesitate! Please select TestKingIT, it will be the best guarantee for you to pass FCP_GCS_AD-7.6 Certification Exam. Now please add TestKingIT to your shopping cart.

FCP_GCS_AD-7.6 Latest Practice Materials & FCP_GCS_AD-7.6 Exam Objectives

We can calculate that FCP - Google Cloud Security 7.6 Administrator (FCP_GCS_AD-7.6) certification exam is the best way by which you can learn new applications, and tools and mark your name in the list of best employees in your company. You don't have to be dependent on anyone to support you in your professional life, but you have to prepare for TestKingIT real FCP - Google Cloud Security 7.6 Administrator (FCP_GCS_AD-7.6) exam questions.

Fortinet FCP - Google Cloud Security 7.6 Administrator Sample Questions (Q26-Q31):

NEW QUESTION # 26
You have been tasked with destroying all resources relating to a recent active-active high-availability (HA) FGSP Terraform deployment in Google Cloud.
What steps do you have to take to ensure a successful deletion? (Choose two.)

- A. Delete all resources manually because active-active HA clusters cannot be destroyed using Terraform.
- B. Use the command terraform destroy to delete all resources deployed by the Terraform template.
- C. Delete all dependencies to resources relating to the Terraform template.
- D. Use the command terraform plan before destroying the Terraform template.

Answer: B,C

Explanation:
Removing dependencies prevents resource conflicts during deletion.
terraform destroy is the correct command to cleanly and completely remove all resources created by the Terraform deployment.

NEW QUESTION # 27
Refer to the exhibit.

In this hybrid environment, in which two ways does the traffic flow from a network node in the on-premises network to Workload B in Google Cloud? (Choose two.)

- A. Once the traffic has been inspected, the active FortiGate uses VPC peering to forward the traffic to the Server project A VPC.
- B. When the packet reaches the external VPC, it is forwarded to the active FortiGate cluster member using a custom static route.
- C. Traffic will not reach the FortiGate devices because both load balancers are internal.
- D. Traffic will be routed using VPC peering from the Internal VPC to the destination subnet.

Answer: B,D

Explanation:
Traffic from on-premises enters the external VPC and is routed to the active FortiGate VM via custom routes for inspection.
After inspection, traffic is routed through VPC peering from the internal VPC to the service project subnet where Workload B resides.

NEW QUESTION # 28
An administrator is tasked to deploy two FortiGate devices in two different zoned to achieve geographical redundancy.
Which two architectural considerations must the administrator address? (Choose two.)

- A. The FortiGate devices must not be deployed in the same VPC.
- B. The FortiGate devices cannot be assigned the second IP address in the subnets that they are deployed in.
- C. The FortiGate devices must be deployed in two different regions.
- D. The FortiGate devices can be deployed in the same subnet.

Answer: B,C

Explanation:
Deploying FortiGate devices in different regions ensures geographic redundancy.
The second IP address in a subnet is reserved for the default gateway in Google Cloud, so FortiGate devices cannot use that IP.

NEW QUESTION # 29
Refer to the exhibit.

Cloud Shell Terraform output

```
Plan: 1 to add, 0 to change, 0 to destroy.

Changes to Outputs:
  + FortiGate-Username = "admin"

  Error: Failed to retrieve project, pid: , err: project: required field is not set

    with google_compute_image.fgtvmgvnic[0],
    on main.tf line 19, in resource "google_compute_image" "fgtvmgvnic":
    19: resource "google_compute_image" "fgtvmgvnic" {

  Error: Failed to retrieve project, pid: , err: project: required field is not set

    with google_compute_disk.logdisk,
    on main.tf line 39, in resource "google_compute_disk" "logdisk":
    39: resource "google_compute_disk" "logdisk" {

  Error: Failed to retrieve project, pid: , err: project: required field is not set

    with google_compute_disk.logdisk2,
    on main.tf line 47, in resource "google_compute_disk" "logdisk2":
    47: resource "google_compute_disk" "logdisk2" {
```

An administrator is attempting to deploy a Terraform template using Google Cloud Shell.
Which step must the administrator take to solve the error?

- A. Manually create a Google Cloud storage bucket for logging functionality.
- B. Use the command terraform init to initialize the Terraform directory.
- C. Use the command gcloud config set project to set the Google Cloud project in Google Cloud Shell.
- D. Delete the admin user to proceed with the Terraform script.

Answer: C

Explanation:
The error indicates the Google Cloud project is not set, which is required for Terraform to access resources.
Setting the project with gcloud config set project [PROJECT_ID] resolves this by specifying the active project in Cloud Shell.

NEW QUESTION # 30
An organization is deploying an active-passive high availability (HA) cluster using passthrough load balancers in Google Cloud.
What is a critical factor for ensuring successful HA formation, failover, and traffic flow?

- A. VDOM exceptions must be configured.
- B. Unicast FortiGate Clustering Protocol (FGCP) must be used.
- C. There can be more than two cluster members.
- D. Incoming traffic must be source NATed to ensure traffic flow symmetry.

Answer: D

Explanation:
Source NAT ensures that traffic is symmetric by keeping the source IP consistent, which is critical for proper failover and session synchronization in an active-passive HA cluster using passthrough load balancers.

NEW QUESTION # 31
......

FCP_GCS_AD-7.6 preparation materials will be the good helper for your qualification certification. We are concentrating on providing high-quality authorized FCP_GCS_AD-7.6 study guide all over the world so that you can clear exam one time. FCP_GCS_AD-7.6 reliable exam bootcamp materials contain three formats: PDF version, Soft test engine and APP test engine so that our products are enough to satisfy different candidates' habits and cover nearly full questions & answers of the real FCP_GCS_AD-7.6 test.

FCP_GCS_AD-7.6 Latest Practice Materials: https://www.testkingit.com/Fortinet/latest-FCP_GCS_AD-7.6-exam-dumps.html

Our FCP_GCS_AD-7.6 exam training vce would be the most cost-efficient deal for you, I believe you can feel the power of our FCP_GCS_AD-7.6 preparation prep in these trial versions, Let's find out the prominent features of these latest Fortinet FCP_GCS_AD-7.6 exam questions format, As for our service, we support "Fast Delivery" that after purchasing you can receive and download our latest FCP_GCS_AD-7.6 certification guide within 10 minutes, Fortinet Free FCP_GCS_AD-7.6 Practice Exams It will ensure the safety of your money.

This might seem overwhelming but is by no means impossible, If you set out to change careers with a defeatist" attitude, you will fail, Our FCP_GCS_AD-7.6 Exam Training vce would be the most cost-efficient deal for you.

Fortinet FCP_GCS_AD-7.6 Questions Tips For Better Preparation

I believe you can feel the power of our FCP_GCS_AD-7.6 preparation prep in these trial versions, Let's find out the prominent features of these latest Fortinet FCP_GCS_AD-7.6 exam questions format.

As for our service, we support "Fast Delivery" that after purchasing you can receive and download our latest FCP_GCS_AD-7.6 certification guide within 10 minutes, It will ensure the safety of your money.
