1Z0-1066-24

QUESTION: 6

Which disaggregation methods are used for each of these measures: adjusted shipments forecast, target service level, and shipments forecast?

- Option A : Adjusted shipments forecast uses measure, target service level uses same value, and shipments forecast uses self.
Option B : Adjusted shipments forecast uses proportional, target service level uses same value, and shipments forecast uses measure.
Option C : Adjusted shipments forecast uses measure, target service level uses same value, and shipments forecast doesn't have any disaggregation method.
Option D : Adjusted shipments forecast uses measure, target service level uses equal, and shipments forecast doesn't have any disaggregation method.
Option E : Adjusted shipments forecast uses equal, target service level uses same value, and shipments forecast uses measure.

Correct Answer: A

QUESTION: 7

A global company is subject to differing regulations regarding hazardous materials in a product. Version 1 of the product can be sold in North America and Europe. Version 2 of the product can only be sold in Europe. Which sequence of setups could help a planner ensure that supply is available in a timely fashion per these constraints?

- Option A : Create an attribute-based netting rule using region and version; map the rule to collectible attributes; associate the rule to a supply plan; run the plan.
Option B : Define region and version as planning attributes; map them to collectible attributes; create an attribute-based netting rule using region and version; associate the rule to a supply plan; run the plan.
Option C : Define region and version as planning attributes; create an attribute-based netting rule using region and version; associate the rule to a supply plan; run the plan.
Option D : Define segment groups based on region and version; execute segmentation; map the segmentation results to an attribute-based netting rule; associate the rule to a supply plan; run the plan.

Correct Answer: D

QUESTION: 8

Your Manufacturing Organization makes bicycles and ships 50% of its output directly to large chain retailer customers. Your organization also ships products to your Distribution Center so that it can fulfill many other smaller customers. Your Manufacturing Organization uses Oracle SCM Planning Cloud, but your Distribution Center does not. Which setups should you recommend to the Manufacturing Organization?

- Option A : In Edit Plan Options, ensure both organizations are included in plan scope, and select, 'include transfer orders'.
Option B : Map the Distribution Center as a customer in Maintain Supply Network Model; Select 'include transfer orders' in Edit Plan Options.

We have applied the latest technologies to the design of our Oracle 1z0-1066-24 test prep not only on the content but also on the displays. As a consequence you are able to keep pace with the changeable world and remain your advantages with our Oracle Planning and Collaboration Cloud 2024 Implementation Professional 1z0-1066-24 Training Materials.

Oracle 1z0-1066-24 Exam Syllabus Topics:

Topic	Details

Topic 1	Managing Supply Network Model: Designed for supply chain managers and planners, this section assesses their ability to summarize attributes of the supply network model, manage sourcing and approved suppliers, apply item attributes for supply planning, and handle drop shipments. It also addresses planning for counter sales orders.
Topic 2	Configuring Oracle Supply Chain Planning Cloud: This section evaluates the expertise of supply chain managers in setting up key functionalities within Oracle Supply Chain Planning Cloud. It covers configuring pages, tile sets, tables, and graphs, as well as managing planners, configuring security, and setting profile options, all while ensuring optimal use of Demand Management.
Topic 3	Using Production Scheduling: Supply chain managers and planners are tested on their ability to configure and execute production scheduling to improve efficiency in production timelines and resource management.
Topic 4	Evaluating Simulations: Supply chain planners are tested on their skills in evaluating and executing simulations, enabling them to predict outcomes and develop effective strategies under different supply chain conditions.
Topic 5	Configuring Exceptions: This section tests the expertise of supply chain managers in setting up and analyzing exceptions, ensuring they can identify and resolve issues within supply plans and demand forecasts.
Topic 6	Managing Advanced Fulfillment: This part assesses the knowledge of logistics and fulfillment managers in managing complex fulfillment processes such as contract manufacturing, back-to-back fulfillment, and configure-to-order within the supply chain.
Topic 7	Managing Supply Chain Collaboration: This section measures the ability of supply chain collaboration managers to use Oracle tools for facilitating collaboration on supply planning, contract management, and customer demand management.
Topic 8	Configuring Planning Analytics: Here, supply chain consultants are assessed on their ability to configure planning analytics to generate actionable insights that enhance decision-making within the supply chain.

Pass the Oracle 1z0-1066-24 Certification Exam with Flying Hues

In order to help our candidates know better on our 1z0-1066-24 exam questions to pass the exam, we provide you the responsible 24/7 service. Our candidates might meet different problems on 1z0-1066-24 learning guide during purchasing and using our 1z0-1066-24 prep guide, you can contact with us through the email, and we will give you respond and solution as quick as possible. With the commitment of helping candidates to Pass 1z0-1066-24 Exam, we have won wide approvals by our clients. We always take our candidates' benefits as the priority, so you can trust us without any hesitation.

Oracle Planning and Collaboration Cloud 2024 Implementation Professional Sample Questions (Q99-Q104):

NEW QUESTION # 99

Your Manufacturing Organization makes bicycles and ships 50% of its output directly to large chain retailer customers. Your organization also ships products to your Distribution Center so that it can fulfill many other smaller customers. Your Manufacturing Organizations uses Oracle SCM Planning Cloud, but your Distribution Center does not. Which setups should you recommend to the Manufacturing Organization?

- A. In Edit Plan Options, ensure both organizations are included in plan scope, and select, 'include transfer orders'.
- B. Select 'include transfer orders' in Edit Plan Options' advanced supply options.
- C. Map the Distribution Center as a customer in Maintain Supply Network Model; Select 'include transfer orders' in Edit Plan Options.
- D. Map the Manufacturing Organization as a supplier in Maintain Supply Network Model; Select 'Include transfer orders' in Edit Plan Options.

Answer: C

NEW QUESTION # 100

Which type of data in the Supply Network Model is not collected, but is accessed through a view used by Planning?

- A. Organization data
- B. Customer data
- C. Supplier data
- **D. Carrier data**

Answer: D

Explanation:

Carrier data in Oracle's Supply Network Model is typically accessed through views rather than being collected directly, which allows the system to reference this data without storing it redundantly. Other types, such as Supplier, Customer, and Organization data, are usually collected as they are directly relevant to supply chain execution

NEW QUESTION # 101

Planner 1 works in Europe and needs to see three measures in kilograms (the default UOM). Planner 2 is US-based and needs to see those same three measures in pounds. Both planners need to use five tables in their plan analyses on a regular basis. At the moment, all five tables are displayed in kilograms.

Which two options would most efficiently address this requirement?

- **A. Open each table and format measures to duplicate the three measures and then format the duplicated measures to be displayed in pounds.**
- B. Planner 2 opens a table, formats each measure to be displayed in pounds. When Planner 1 opens the same table, they reformat back to be displayed in kilograms.
- C. Duplicate all five tables, then format the three measures in the copied tables to be displayed in pounds.
- D. There is no efficient solution to this requirement.
- **E. Create duplicates of the three measures in Manage Planning Measures and change each new measure's UOM from kilograms to pounds, then duplicate the five tables but use the new measures.**

Answer: A,E

Explanation:

The most efficient way to accommodate both planners' needs is to create duplicates of the required measures in pounds and then duplicate the tables to include the reformatted measures. This allows both planners to access tables in their preferred units without repetitive reformatting

NEW QUESTION # 102

Which two statements are true about Production Scheduling? (Choose two.)

- A. Releasing a schedule can update Manufacturing Cloud work orders with revised dates, resources, release status, and work definitions.
- **B. If a work order is not firm, Production Scheduling may schedule with an alternate resource.**
- C. A resource's constraint mode has two choices: Relaxed and Constrained.
- D. Refreshing a Production Schedule means that the schedule is being recalculated.
- **E. Schedule options include: Configure Scope, Parameters, and View Settings.**

Answer: B,E

NEW QUESTION # 103

Which two are valid settings when defining a replenishment planning cluster?

- **A. Location hierarchy (required)**
- B. Sweep location (required)

- C. Reserved safety stock percentage (optional)
- D. Source system (required)

Answer: A,D

Explanation:

When setting up a replenishment planning cluster, the location hierarchy is necessary for structuring replenishment relationships, while specifying a reserved safety stock percentage is optional. The Source system setting is not required within the cluster definition context but is typically a part of the broader replenishment configuration ORACLE

NEW QUESTION # 104

.....

As a responsible company, we don't ignore customers after the deal, but will keep an eye on your exam situation. Although we can assure you the passing rate of our 1z0-1066-24 study materials nearly 100 %, we can also offer you a full refund if you still have concerns. If you try our 1z0-1066-24 Study Materials but fail in the final exam, we can refund the fees in full only if you provide us with a transcript or other proof that you failed the exam.
