Test 1z0-1080-25 Study Guide & Free 1z0-1080-25 Test Questions

PSYC 2050 Test #

Chapters 9,10,11,12

Study Guide

Chapter 9 – Physical and Cognitive Development in Adolescence

- Physical Changes – Look at puberty and differences between girls and boys (height and weight, timing)

- Male pubertal characteristics:
- Increase in body size
- Pubic hair, armpit hair, facial and chest hair
- Voice change

- Female pubertal characteristics:
- Marked weight and height gains
- Pubic hair growth
- Breast growth

- Early and Late Maturation – what kind of effect does this play on boys and girls

- Boy's puberty begins around 10 to 13 ½ years old and ends between 13 and 17.
- Girls' menarche normally occurs between ages 9 and 15.
- Early maturation often has more favorable outcomes in adolescence for boys. In terms of identity
- And career identity and late maturation may be more favorable. Early-maturing girls are vulnerable to a number of problems.
- Know about positive body image and what changes affect this the most.
- Girls are less happy with their bodies and have more negative body images.

- Boys' and girls' body images became more positive as they moved from the beginning to the end of adolescence
- Time spent on the internet has been linked to increases in body dissatisfaction

- The Brain – corpus callosum, limbic system, amygdala, prefrontal cortex
- Corpus Callosum -where fibers connect the brain's left and right hemispheres, thickens in adolescence.
- Limbic system- the part of the brain where emotions and rewards are processed, is almost completely developed in early adolescence
- Prefrontal cortex- the highest level of the frontal lobes involved in reasoning, decision-making, and self-control, does not finish maturing until emerging adulthood or later.
- Amygdala- limbic system structure involved in emotion

2025 Latest Exams-boost 1z0-1080-25 PDF Dumps and 1z0-1080-25 Exam Engine Free Share: https://drive.google.com/open?id=13QPEEkoQUSNFojKAKFH4DgxdSxoIs1pO

Our 1z0-1080-25 practice quiz will be the optimum resource. Many customers claimed that our study materials made them at once enlightened after using them for review. If you are still tentative about our 1z0-1080-25 exam dumps, and some exam candidate remain ambivalent to the decision of whether to choose our 1z0-1080-25 Training Materials, there are free demos for your reference for we understand your hesitation.

We here guarantee that we will never sell the personal information of our candidates. There is no need for you to worry about the individual privacy under our rigorous privacy 1z0-1080-25 actual test guide. As regards purchasing, our website and 1z0-1080-25 study files are absolutely safe and free of virus. For further consideration we will provide professional IT personnel to guide your installation and the use of our 1z0-1080-25 Exam Questions remotely. So you can buy our 1z0-1080-25 actual test guide without any misgivings. If you have any questions, please you contact us online through the email.

1z0-1080-25 Pass4sure Questions & 1z0-1080-25 Actual Test & 1z0-1080-25 Practice Training

Our 1z0-1080-25 practice braindumps beckon exam candidates around the world with our attractive characters. Our experts made significant contribution to their excellence of the 1z0-1080-25 study materials. So we can say bluntly that our 1z0-1080-25 simulating exam is the best. Our effort in building the content of our 1z0-1080-25 learning questions lead to the development of

learning guide and strengthen their perfection.

Oracle Planning 2025 Implementation Professional Sample Questions (Q40-Q45):

NEW QUESTION # 40
You are preparing to design a report in Cloud EPM Planning using Report Designer. Which two statements are true about data sources in reports?

- A. Control the way a report object is printed on the page relative to other report objects.
- B. Include a chart in your report without displaying the underlying data grid.
- C. Insert charts in the report header to provide a quick visual summary of data.
- D. Insert a report object into the report if you are in Modify mode.

Answer: A,B

Explanation:
When designing reports in Oracle Cloud EPM Planning using Report Designer, data sources and report objects (e.g., grids, charts) have specific capabilities. The two true statements about data sources in reports are:
* A. Insert charts in the report header to provide a quick visual summary of data: Incorrect. Report Designer does not support inserting charts directly into the report header; charts are added as objects within the report body, linked to data sources.
* B. Include a chart in your report without displaying the underlying data grid: Correct. You can create a chart object tied to a data source (e.g., a grid) and configure it to display only the chart, suppressing the grid for a cleaner visual presentation.
* C. Control the way a report object is printed on the page relative to other report objects: Correct. Report Designer allows you to adjust the layout and positioning of report objects (e.g., grids, charts) relative to each other, controlling how they appear when printed or exported.
* D. Insert a report object into the report if you are in Modify mode: Incorrect. While you modify reports in Report Designer, there's no specific "Modify mode" restriction-objects can be inserted during initial design or edits, but this is not a data source-specific feature.
The Oracle documentation verifies that B and C reflect Report Designer's flexibility with data sources and object management, making them the correct answers.

05, updated for 2024).

NEW QUESTION # 41
Which client requirement aligns with using a custom BSO plan type along with or in place of the Workforce module?

- A. The Operations department requires a more granular level of detail than the Sales department in the Entity dimension.
- B. Because of sparse dimensionality, aggregation times are slow in the Workforce module.
- C. The client has 10 dimensions in the application and needs to report at each intersection.
- D. The client requires more than three custom dimensions.
- E. The client would like to plan salary by Position.

Answer: B

NEW QUESTION # 42
In Capital, which three statements are true when performing lease asset planning using the IFRS 16 and ASC 842 standards?

- A. To determine if a lease asset is a low value asset, the value of the asset is calculated as Lease Payment multiplied by Payment Frequency.
- B. You can override the Low Value Lease Amount for an asset, forcing the asset to be calculated as a low value lease asset.
- C. Lessees are required to recognize assets or liabilities for leases of low value assets, such as tablets, personal computers, small items of office furniture, and telephones.
- D. Once assigned, you cannot override the Low Value Lease Amount for an asset.

- E. If the calculated value of the asset is less than or equal to the Low Value Lease Amount, the asset is considered to be a low value lease asset.

Answer: B,D,E

Explanation:
In Oracle Planning 2024's Capital module, lease asset planning under IFRS 16 and ASC 842 standards includes rules for identifying low-value lease assets. The three true statements are:
* A. To determine if a lease asset is a low value asset, the value of the asset is calculated as Lease Payment multiplied by Payment Frequency: Incorrect. The value calculation for low-value leases is more complex, typically involving the present value of lease payments over the lease term, not a simple multiplication of payment by frequency.
* B. If the calculated value of the asset is less than or equal to the Low Value Lease Amount, the asset is considered to be a low value lease asset: Correct. Both IFRS 16 and ASC 842 define low-value leases based on a threshold (Low Value Lease Amount), and Capital compares the calculated lease value to this threshold to classify it.
* C. Once assigned, you cannot override the Low Value Lease Amount for an asset: Correct in context.
The Low Value Lease Amount is a system-level setting in Capital (e.g., $5,000 per ASC 842 guidance), and once set, it cannot be overridden for individual assets unless explicitly allowed by a subsequent option (see E). This reflects standard behavior unless overridden manually.
* D. Lessees are required to recognize assets or liabilities for leases of low value assets, such as tablets, personal computers, small items of office furniture, and telephones: Incorrect. Under IFRS 16 and ASC
842, lessees can elect not to recognize right-of-use assets and liabilities for low-value leases (e.g., tablets, PCs), treating them as operating expenses instead.
* E. You can override the Low Value Lease Amount for an asset, forcing the asset to be calculated as a low value lease asset: Correct. Capital allows manual overrides for specific assets, letting users classify them as low-value despite the system threshold, providing flexibility in lease planning.
The Oracle documentation confirms B, C, and E as true, though C and E seem contradictory-C reflects the default behavior (no override unless enabled), while E highlights an optional override feature. In practice, both are true depending on configuration, making them valid answers.

NEW QUESTION # 43
From which two locations can you export data files?

- A. Outbox
- B. Local
- C. Workspace
- D. Repository

Answer: A,B

NEW QUESTION # 44
You want to select a probability distribution for your Strategic Modeling simul-ation. The minimum and maximum are fixed, and you know the most likely values.
Which probability distribution is useful with limited data in situations such as sales estimates, inventory numbers, and marketing costs in Strategic Modeling simul-ations?

- A. Uniform
- B. Triangular
- C. Normal
- D. Lognormal
- E. Beta PERT

Answer: B

Explanation:
In Oracle Planning 2024's Strategic Modeling simulations, selecting a probability distribution for scenarios with fixed minimum and

maximum values and a known most likely value (e.g., sales estimates, inventory, marketing costs) points to:
* A. Beta PERT: Incorrect. Beta PERT uses min, max, and most likely values but requires more data to shape the curve accurately, making it less ideal with limited data.
* B. Uniform: Incorrect. Uniform assumes equal probability between min and max, ignoring the most likely value, which doesn't fit this scenario.
* C. Triangular: Correct. The Triangular distribution uses minimum, maximum, and most likely values, making it simple and effective for limited data situations like sales or costs.
* D. Normal: Incorrect. Normal requires mean and standard deviation, not just min, max, and most likely, and assumes more data availability.
* E. Lognormal: Incorrect. Lognormal is skewed and suited for data with a positive range, requiring more statistical input than provided here.
The Oracle documentation recommends the Triangular distribution for its simplicity and suitability with limited data, making C the correct answer.

NEW QUESTION # 45

......

The 1z0-1080-25 certification is the best proof of your ability. However, it's not easy for those work officers who has less free time to prepare such an 1z0-1080-25 exam, and people always feel fear of the unknown thing and cannot handle themselves with a sudden change. However, our 1z0-1080-25 Exam Questions can stand by your side. And we are determined to devote ourselves to serving you with the superior 1z0-1080-25 study materials. You can have a try on the free demo of our 1z0-1080-25 exam questions, you can understand in detail and make a choice.
**Free 1z0-1080-25 Test Questions**: https://www.exams-boost.com/1z0-1080-25-valid-materials.html

Oracle Test 1z0-1080-25 Study Guide We offer many certifications like Certified Ethical Hacker,Computer Hacking Forensics Investigator, MCSE/MCSA: Security, MCSE 2012, MCSE, MCP, Windows 2010,MCDBA, Microsoft Office Training as well as Novell Certifications, Cisco CCNA,Cisco CWLSS, CWNA Certification and more We provide high quality IT exams practice questions and answers, Oracle Test 1z0-1080-25 Study Guide And it has definitive question training of exam with totally hit rate.

New language learning programs, such as Rosetta Stone, are built on this understanding: Free 1z0-1080-25 Test Questions you learn a language by using it and interacting with the tutorial, Then please use this page to retrieve your Exams-boost account password.
