1Z0-947 practice test questions, answers, explanations

Probably you've never imagined that preparing for your upcoming certification 1Z0-947 could be easy. The good news is that Lead2Passed's dumps have made it so! The brilliant certification exam 1Z0-947 is the product created by those professionals who have extensive experience of designing exam study material. These professionals have deep exposure of the test candidates' problems and requirements hence our 1Z0-947 cater to your need beyond your expectations.

Oracle GoldenGate 19c Implementation Professional Sample Questions (Q109-Q114):

NEW QUESTION # 109

Which formats can extract trails be written in?

- A. LOB, RAW, JSON
- B. Only Canonical and SQL
- C. Binary, CSV, JSON
- D. Canonical, LCR, Text (ASCII/UTF), SQL, XML

Answer: D

Explanation:

Oracle GoldenGate trail format: canonical, LCR, Text (ASCII or UTF), SQL, XML

NEW QUESTION # 110

You want to eliminate the reporting output from processing a Macro. How should you proceed?

- A. Use the optional parameter NOLIST.
- B. Use the optional parameter UNLIST.
- C. Use the optional parameter NOREPORT.
- D. Use the optional parameter NOMACROOUTPUT.

Answer: A

Explanation:

The NOLIST parameter is used in Oracle GoldenGate to suppress the listing of macros and included parameter files in the process report file. This is particularly useful when including long macro libraries to keep the report concise.

NEW QUESTION # 111

A Pump can push data to:

- A. Only a source system
- B. **Multiple target systems**
- C. Only one target system
- D. A target database directly

Answer: B

Explanation:

In Oracle GoldenGate, a Data Pump (secondary Extract) can be configured with multiple RMTHOST and RMTTRAIL pairs, allowing it to push data to multiple target systems or trail files, enhancing flexibility in multi-target replication setups.

NEW QUESTION # 112

You have configured and added the Extract and Replicat tasks by using the Direct Load method. What do you need to do to get the processes up and running?

- A. **Start the Extract task, wait for it to stop, and then start the Replicat task**
- B. Start the Extract task and then start the Replicat task
- C. Start the Extract task
- D. Start the Replicat task

Answer: A

Explanation:

In the Direct Load method, the Extract performs a one-time data load and then stops. Only after that should the Replicat be started to apply the loaded data. Starting both simultaneously is not valid for this method.

NEW QUESTION # 113

Oracle GoldenGate can be deployed quickly and easily. You need to prepare the environment, configure and start change capture to GoldenGate trail files, perform Initial Load to synchronize databases, and configure and start change delivery. You can perform the tasks for Initial Load before or after starting change capture. When do you not need to do an Initial Load at all?

- A. You created the target database with Initial Load enabled.
- B. **You already have the tables and data on the target needed for replicating data changes.**
- C. You don't need to address Initial Load as it is just optional.
- D. You need only to replicate to the new table on the target database with changes from the source table starting at a specific time.

Answer: B

Explanation:

An Initial Load is used to synchronize source and target databases before real-time replication begins.

NEW QUESTION # 114

There are three different versions for all customers to choose. The three different versions include the PDF version, the software version and the online version, they can help customers solve any questions and meet their all needs. Although the three different versions of our 1Z0-947 study materials provide the same demo for all customers, they also have its particular functions to meet different the unique needs from all customers. The most important function of the online version of our 1Z0-947 Study Materials is the practicality. The online version is open to any electronic equipment, at the same time, the online version of our 1Z0-947 study materials can also be used in an offline state.
