Our C-BCBTM-2509 Exam Questions will ease your pressure of learning, using less Q&A to convey more important information, thus giving you the top-notch using experience. With our C-BCBTM-2509 practice engine, you will have the most relaxed learning period with the best pass percentage.

SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Sample Questions (Q13-Q18):

NEW QUESTION # 13

What is one of WalkMe's differentiators when compared to other Digital Adoption Platforms (DAP)?

- A. Limited scalability for smaller businesses
- **B. Offering a combination of guidance tools and actionable analytics**
- C. Ability to operate without integrating into other software
- D. Exclusive focus on customer experience workflows

Answer: B

Explanation:

WalkMe's Digital Adoption Platform (DAP) stands out in the market for its unique combination of real-time user guidance, workflow automation, and actionable analytics. This blend allows organizations to measure and improve digital adoption and employee productivity.

"WalkMe differentiates itself by combining in-app guidance, automation, and actionable analytics that empower organizations to monitor and improve digital adoption at scale." Reference:

Through its AI-driven DeepUI technology, WalkMe provides contextual insights and user behavior analytics to continuously optimize business processes and adoption success.

"The WalkMe platform unifies guidance, engagement, and analytics capabilities - enabling enterprises to measure user experience and optimize adoption journeys." Incorrect Options:

A: WalkMe does integrate with enterprise applications; it overlays them for contextual guidance.

B: Its focus is not exclusive to customer experience workflows; it supports all enterprise systems, including SAP S/4HANA, SuccessFactors, and Ariba.

C: WalkMe is highly scalable and used by global enterprises; it's not limited to small businesses.

Therefore, the correct answer based on SAP BTM and WalkMe documentation is:

D: Offering a combination of guidance tools and actionable analytics.

NEW QUESTION # 14

Of the following options, which technologies does SAP provide to help organizations transform?

- A. SAP Finance and SAP Marketing
- B. SAP ERP and SAP CRM
- **C. SAP Signavio and SAP LeanIX solutions**
- D. SAP Sales and SAP HR

Answer: C

Explanation:

SAP enables digital transformation primarily through its Business Transformation Management (BTM) portfolio, led by SAP Signavio and SAP LeanIX. These technologies give organizations the tools to visualize, plan, and manage transformation initiatives effectively.

"SAP helps organizations accelerate transformation with SAP Signavio for business process transformation and SAP LeanIX for enterprise architecture and technology management." Reference:

SAP Signavio enables business process analysis, mining, and optimization, while SAP LeanIX supports enterprise architecture, application portfolio management, and technology risk compliance - together offering full visibility from business to IT.

"The combination of SAP Signavio and SAP LeanIX forms the backbone of SAP's transformation offerings, aligning business process improvements with IT landscape modernization." Incorrect Options:

A, B, and C refer to standard ERP or LOB modules, not transformation-focused solutions.

Verified Correct answer: D: SAP Signavio and SAP LeanIX solutions.

NEW QUESTION # 15

How does the integration between SAP Signavio and SAP LeanIX enhance IT and business alignment?

- **A. The integration allows linking of business applications to business processes.**
- B. Business processes are directly controlled by SAP LeanIX applications.
- C. Integration solely enhances reporting capabilities.
- D. The tools only provide visualization without actionable insights.

Answer: A

Explanation:

The integration between SAP Signavio and SAP LeanIX provides a unified view of business and IT, allowing companies to connect business processes (Signavio) with IT applications and systems (LeanIX). This integration bridges operational and architectural perspectives, ensuring full alignment between business goals and IT capabilities.

"Through the SAP Signavio and SAP LeanIX integration, organizations can link business processes to supporting IT applications, creating a shared view that strengthens IT-business alignment." Reference:

This integration supports transformation governance by combining process intelligence (what the business does) with enterprise architecture insights (how IT supports it).

"SAP enables enterprises to visualize dependencies between processes and applications, ensuring coordinated decision-making and improved transformation outcomes." Incorrect Options:

A: Reporting is a secondary feature; integration focuses on alignment, not reporting alone.

B: Both tools provide actionable insights via analytics and process intelligence.

C: LeanIX does not "control" processes; it maps IT dependencies and applications.

Verified Correct answer: D: The integration allows linking of business applications to business processes.

NEW QUESTION # 16

How does the SAP Signavio Process Collaboration Hub help organizations?

- A. By providing transparency into processes and enabling collaboration.
- B. By creating marketing strategies based on customer feedback.
- C. By replacing existing process modeling tools with AI-driven automation.
- D. By automatically generating legal compliance reports and enabling collaboration.

Answer: A

Explanation:

The SAP Signavio Process Collaboration Hub is designed to make business processes transparent and accessible across the organization while fostering collaboration among stakeholders.

"The SAP Signavio Process Collaboration Hub provides a central entry point for all users to access, share, and collaborate on process-related information, offering transparency across business processes." Reference:

It allows employees, analysts, and management to view, discuss, and contribute to process improvement initiatives, supporting collaborative transformation and process governance.

"It enables everyone in the organization to access process information, provide feedback, and collaborate for continuous improvement." Options A, C, and D are incorrect:

A: Compliance reporting is not a function of Collaboration Hub.

C: Marketing strategy and customer feedback analysis are outside its purpose.

D: It does not replace modeling tools; it integrates with Process Manager and Process Intelligence.

Thus, the correct and SAP-verified answer is B: By providing transparency into processes and enabling collaboration.

NEW QUESTION # 17

What are the key functional categories of WalkMe's capabilities in the new pricing model?

- A. Digital Adoption, Process Optimization, Compliance Management
- B. Data & Analytics, Action & Experience, Platform & Admin
- C. Workflow Automation, User Engagement, Security & Privacy
- D. Content Creation, Deployment, Analytics & Insights

Answer: B

Explanation:

In WalkMe's new pricing and capability model, its platform capabilities are structured into three primary functional categories: Data & Analytics, Action & Experience, and Platform & Admin.

These categories align with WalkMe's enterprise focus on digital adoption, measurement, and governance.

"WalkMe's new pricing model organizes core capabilities into Data & Analytics, Action & Experience, and Platform & Admin, ensuring clarity, scalability, and measurable outcomes for enterprise customers." Reference:

Data & Analytics provide insights into user behavior and adoption.

Action & Experience focuses on guidance, automation, and in-app user experiences.

Platform & Admin manages security, governance, and deployment administration.

"These capability pillars ensure organizations can measure adoption, act to improve user journeys, and govern platform usage

effectively." Incorrect Options:

A: Content creation and deployment are part of "Action & Experience," but not the complete categorization.

C & D: These describe solution outcomes, not the functional capability categories.

Verified Correct answer: B: Data & Analytics, Action & Experience, Platform & Admin.
