ASIS Physical Security Professional Exam Sample Questions (Q198-Q203):

NEW QUESTION # 198

LANs and WANs can communicate with each other using a communications rule called:

- A. Internet Protocol packet
- B. Protocol Assembly packet
- C. Ethernet Protocol packet
- D. XOP.210 Protocol packet

Answer: A

Explanation:

The Internet Protocol (IP) is used to route packets of data between LANs and WANs. It allows communication across interconnected networks regardless of the underlying hardware or local network configuration. IP is part of the TCP/IP protocol suite and is the foundational protocol for all modern internetworking.

Ethernet Protocol (A) applies to LANs but not internetwork communication.

Options B and C are not valid or recognized protocol names.

NEW QUESTION # 199

Worms take over computer memory and deny its use to legitimate programs.

- A. True
- B. False

Answer: A

NEW QUESTION # 200

System integration is the process of combining individual technology elements, procedures, and which of the following into one system for providing security at a facility?

- A. Equipment
- B. Management
- C. Safety
- D. Personnel

Answer: D

Explanation:

System integration combines technology, procedures, and people-i.e., personnel-to create a cohesive and effective security solution.

Personnel are essential for operating, monitoring, and responding to events within the system.

A (Safety) and D (Management) are broader organizational functions.

B (Equipment) is a part of the technology component, already implied.

NEW QUESTION # 201

A security supervisor should do which of the following to reinforce training and understanding of the post orders with security officers?

- A. Ask one or more specific questions about the order
- B. Let the officer read the order and then write a report on it
- C. Check the training records
- D. Review the log book entries

Answer: A

Explanation:

Asking targeted questions about post orders helps supervisors verify that security officers understand their duties. It encourages engagement, promotes accountability, and reinforces learning through direct interaction.

A (Checking training records) shows completion but not understanding.

B (Logbook review) focuses on past actions, not comprehension.

D (Written report) may test literacy more than actual understanding.
