We provide you with our best ServiceNow CIS-SPM exam study material, which builds your ability to get high-paying jobs.

ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q12-Q17):

NEW QUESTION # 12

A program is a container for the following except for:

- **A. Portfolios**
- B. Program tasks
- C. Cost plans
- D. Issues

Answer: A

Explanation:

According to the ServiceNow documentation¹, a program is a container for the following:

Program tasks: Tasks that define the scope and deliverables of the program².

Issues: Problems that affect the program or its outcome³.

Cost plans: Plans that estimate the cost of the program and its components⁴.

A portfolio is not a part of a program, but rather a collection of programs and projects that are aligned with a strategic goal or objective.

NEW QUESTION # 13

What is used to generate labor cost if a project or demand does not have an associated rate model?

- A. Time card
- B. Default Resource Management Schedule
- C. Default labor rate
- D. Project plan

Answer: C

NEW QUESTION # 14

To set up a group for selection in a resource plan, the group record needs to include which role?

- A. it_project_user
- B. resource_manager
- C. pps_resource
- D. itil

Answer: C

Explanation:

Explanation

According to the Assigning Resource Roles document, to set up a group for selection in a resource plan, the group record needs to include the pps_resource role. This role grants access to the Resource Management application and allows the group members to view and update their resource allocations. The other options are not correct, as they are not required for a group to be selected in a resource plan. The it_project_user role grants access to the Project Portfolio Management application and allows the user to create and update projects. The itil role grants access to the ITIL application and allows the user to manage incidents, problems, and changes. The resource_manager role grants access to the Resource Management application and allows the user to manage resource plans and allocations.

NEW QUESTION # 15

What features are not included in a teamspace application but can be added in teamspace settings? Choose 2 answers

- A. Demand Assessments
- B. Project
- C. Idea
- D. Workbench configuration

Answer: A,C

Explanation:

Explanation

According to the Teamspace document, features such as idea and demand assessments are not included in a teamspace application by default, but can be added in teamspace settings. Idea is a feature that allows users to submit and vote on ideas for new or improved products, services, or processes. Demand assessments are a feature that allows users to evaluate the demands based on various criteria, such as strategic alignment, risk, and return on investment. The other options are not correct, as they are features that are included in a teamspace application by default. Workbench configuration is a feature that allows users to customize the workbench for the teamspace. Project is a feature that allows users to create and manage projects within the teamspace.

NEW QUESTION # 16

What is a resource event?

- A. An event scheduled by a project manager.

- B. A block of time that a resource spends on a task.
- C. An external event.
- D. A non-scheduled activity impacting capacity.

Answer: D

Explanation:

Explanation

A resource event is a non-scheduled activity that affects the availability and capacity of a resource or a group of resources. Examples of resource events are vacations, holidays, training, or sick leave. Resource events can be created by resource managers or resources themselves, and they can be viewed in the resource calendar or the resource workbench. You can find more information about resource events in the Product Documentation for ServiceNow.

NEW QUESTION # 17

.....
