## ISO-IEC-27001-Foundation Reliable Exam Review & New ISO-IEC-27001-Foundation Test Syllabus

In order to save you a lot of installation troubles, we have carried out the online engine of the ISO-IEC-27001-Foundation latest exam guide which does not need to download and install. This kind of learning method is convenient and suitable for quick pace of life. But you must have a browser on your device. Our online workers are going through professional training. Your demands and thought can be clearly understood by them. Even if you have bought our high-pass-rate ISO-IEC-27001-Foundation training practice but you do not know how to install it, we can offer remote guidance to assist you finish installation. In the process of using, you still have access to our after sales service. All in all, we will keep helping you until you have passed the ISO-IEC-27001-Foundation exam and got the certificate.

## APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q12-Q17):

### NEW QUESTION # 12

Which ISMS documentation is part of the minimum scope of documented information required to be managed and controlled?

- A. A statement of correspondence between other ISO standards and the ISMS
- B. Third party information security awareness materials
- C. Records of management decisions related to continual improvement
- D. The budget assigned to operate the ISMS and its related allocations

**Answer: C**

Explanation:

Clause 7.5 (Documented Information) specifies that organizations must maintain documentation necessary for the effectiveness of the ISMS. Additionally, Clause 9.3 (Management Review) requires "records of decisions related to continual improvement opportunities" as an output of management review. This is a core requirement and forms part of the documented information that must be retained and controlled. Third-party materials (B), budgets (C), and cross-reference statements to other ISO standards (D) are not required by ISO/IEC 27001. Only documents that directly demonstrate compliance, decision-making, and continual improvement are mandated. Therefore, the verified minimum required documentation includes records of management review decisions related to continual improvement, confirming answer: A.

### NEW QUESTION # 13

Which is a control title within Annex A of ISO/IEC 27001?

- A. Information security in supplier relationships
- B. Responsibilities and procedures
- C. Change control
- D. Protection of documents

**Answer: A**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:

In ISO/IEC 27002:2022, which provides control guidance for Annex A of ISO/IEC 27001, Clause 5.19 is titled: "Information security in supplier relationships." This control requires organizations to ensure that information security is addressed in supplier

agreements and relationships. It is part of the Organizational Controls theme. The other options are not control titles in Annex A:

\* "Responsibilities and procedures" (B) was used in older standards like ISO/IEC 27001:2005 but no longer exists.

\* "Protection of documents" (C) relates to document control but is not a specific Annex A control.

\* "Change control" (D) is relevant to ITIL/ITSM but not listed as a control title in Annex A.

Therefore, the correct Annex A control title is A: Information security in supplier relationships.

#### NEW QUESTION # 14

To whom are the information security policies required to be communicated, according to the control in Annex A of ISO/IEC 27001?

- A. Only staff with accountability for ISMS operation
- **B. Relevant personnel and relevant interested parties**
- C. Employees within the scope of the ISMS
- D. Top management

**Answer: B**

Explanation:

Comprehensive and Detailed Explanation From Exact Extract ISO/IEC 27002:2022 standards:

Annex A.5.1 (Policies for information security) clearly specifies:

"Information security policy and topic-specific policies should be defined, approved by management, published, communicated to and acknowledged by relevant personnel and relevant interested parties..." This means the communication obligation is not limited to top management (A) or only ISMS staff (B), nor does it stop at employees only (C). Instead, ISO/IEC 27001/27002 mandate a broader scope: all relevant personnel and relevant interested parties must be informed. This ensures both internal stakeholders (employees, contractors, temporary staff) and external interested parties (suppliers, partners, regulators, customers, etc.) receive the right policy communications where applicable. Therefore, the correct and verified answer is D.

#### NEW QUESTION # 15

Who is required to ensure that staff are supported so that they can contribute to the information security management system?

- **A. Top management of the organization**
- B. Management responsible for each area of operation
- C. ISO/IEC 27001 practitioners within the organization
- D. Auditors who audit each area of operation

**Answer: A**

Explanation:

Clause 5.1 (Leadership and Commitment) requires that:

"Top management shall demonstrate leadership and commitment with respect to the information security management system by... ensuring that the resources needed for the ISMS are available... and supporting persons to contribute to the effectiveness of the ISMS." This makes it explicit that top management has the responsibility to ensure personnel are supported so they can contribute to the ISMS. Option B (line management) may provide local support, but ultimate accountability rests with top management. Auditors (C) only evaluate compliance, not provide support.

Practitioners (D) help implement, but they don't bear formal responsibility under the standard.

Thus, the verified answer is A: Top management of the organization.

#### NEW QUESTION # 16

Which action must top management take to provide evidence of its commitment to the establishment, operation and improvement of the ISMS?

- A. Producing a risk assessment report
- B. Communicating feedback from interested parties to the organization
- C. Implementing the actions from internal audits
- **D. Ensuring information security objectives are established**

**Answer: D**

Explanation:

Clause 5.1 (Leadership and Commitment) requires top management to demonstrate leadership by:

\* "ensuring the information security policy and the information security objectives are established and are compatible with the strategic direction of the organization;"

\* "ensuring the integration of the ISMS requirements into the organization's processes;"

\* "ensuring that the resources needed for the ISMS are available;"

Among the options, the one explicitly mandated is ensuring that information security objectives are established. Risk assessments (C) and implementing audit actions (D) are responsibilities of management but not the direct leadership evidence required in Clause 5.1. Communicating interested party feedback (A) is relevant but not specifically cited as leadership evidence. Thus, the verified answer is B.

## NEW QUESTION # 17

.....

With the development of science and technology the internet in our daily life is playing a more and more important role! IT workers become high-salary people. APMG-International certifications become hot vocational qualification certificate. GuideTorrent offers the best ISO-IEC-27001-Foundation Guide Torrent files to help people clear exams and realize their idea better. We are engaged in this field more than 8 years. If you have dream in this field, our valid ISO-IEC-27001-Foundation guide torrent files will be a good chance for you.
