

Test Oracle 1z0-1093-25 Book, Trustworthy 1z0-1093-25 Exam Torrent

BTW, DOWNLOAD part of Actual4Cert 1z0-1093-25 dumps from Cloud Storage: <https://drive.google.com/open?id=1zsLYiM9fj7kBq6tpPaD9Guioyi7YbT3d>

Actual4Cert offers highly designed Oracle 1z0-1093-25 exam questions and online 1z0-1093-25 practice test engine to help you successfully clear the Oracle exam. Their study materials cover all the basic to advanced required 1z0-1093-25 Exam Questions material that you need to know to pass the 1z0-1093-25 Exam. These two simple, easy, and accessible learning formats will boost your confidence.

Oracle 1z0-1093-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Oracle Cloud Infrastructure Database Management Service: This section of the exam measures the skills of a Cloud Operations Analyst and provides insight into Oracle's Database Management Service on OCI. It focuses on enabling the service for databases, monitoring their performance, and performing diagnostic and tuning activities. It also covers tasks related to the administration of databases running on Oracle Cloud Infrastructure.

Topic 2	<ul style="list-style-type: none"> MySQL HeatWave Technical Overview: This section of the exam measures the skills of a MySQL Cloud Specialist and introduces MySQL HeatWave, Oracle's high-performance analytics engine for MySQL. It includes provisioning, migrating existing MySQL databases to HeatWave, and working with its analytical and machine-learning capabilities. It also covers day-to-day operational activities within the MySQL HeatWave environment.
Topic 3	<ul style="list-style-type: none"> NoSQL Database Service Technical Overview: This section of the exam measures the skills of a NoSQL Developer and explores Oracle's NoSQL Database Service. It includes understanding the basics of NoSQL architecture, handling table-level security, rate limiting, and data modeling. It also covers concepts like provisioned throughput and the usage of language SDKs for interacting with NoSQL services on Oracle Cloud.
Topic 4	<ul style="list-style-type: none"> Base Database Service - VM (BaseDB): This section of the exam measures the skills of a Cloud Database Administrator and covers the foundational elements of Oracle's Base Database Service. It includes understanding what the BaseDB service is, how to provision and manage it, and lifecycle operations such as backups, recovery, patching, and upgrades. It also tests familiarity with monitoring and management interfaces used to control and observe the BaseDB environment.
Topic 5	<ul style="list-style-type: none"> Exadata Database Service (ExaDB): This section of the exam measures the skills of a Database Infrastructure Engineer and focuses on the advanced Exadata Database Service. It includes the provisioning of Exadata systems, management of Exadata Cloud Infrastructure, and VM Cluster administration. It also evaluates knowledge of lifecycle management tasks and how to interact with various Exadata management utilities and interfaces.

2025 Test 1z0-1093-25 Book | Valid Oracle Trustworthy 1z0-1093-25 Exam Torrent: Oracle Cloud Database Services 2025 Professional

The Actual4Cert is a reliable and trusted platform for quick and complete Oracle 1z0-1093-25 exam preparation. At this platform, you can easily download real and verified Oracle Cloud Database Services 2025 Professional (1z0-1093-25) exam practice questions. These Oracle Cloud Database Services 2025 Professional (1z0-1093-25) exam questions are ideal and recommended study material for quick and complete Oracle 1z0-1093-25 exam preparation.

Oracle Cloud Database Services 2025 Professional Sample Questions (Q18-Q23):

NEW QUESTION # 18

Which two of the following describe capabilities of the Database Management service in relation to database parameter management?

- A. Database Management can automatically detect and correct parameter settings that deviate from Oracle- recommended best practices, regardless of the database edition.
- B. Database Management does not offer parameter management capabilities due to security concerns.
- C. Database Management provides recommendations for parameter tuning based on historical performance data.
- D. Database Management facilitates comparing parameter settings between different databases or across different points in time for a single database.

Answer: C,D

Explanation:

B: Recommendations for parameter tuning:

* Database Management analyzes historical performance data and provides tuning recommendations.

* These recommendations align with Oracle best practices to optimize database performance.

C: Comparison of parameter settings:

* The service allows users to compare parameter configurations between different databases or across time points for a single database.

* This is useful for identifying changes or discrepancies that could impact performance.

Why the other options are incorrect:

* A. Automatic correction of parameters: Database Management does not automatically correct parameters; changes require manual intervention.

* D. Lack of parameter management: Incorrect statement, as the service does offer parameter management features.

NEW QUESTION # 19

Which aspect of NoSQL Database Cloud Service is LEAST impacted by the choice of SDK used in an application?

- A. Syntax for querying data.
- B. Error handling mechanisms.
- C. Method for authenticating with the service.
- **D. Underlying database architecture and scalability characteristics.**

Answer: D

Explanation:

C: Underlying database architecture and scalability characteristics:

* The architecture and scalability of Oracle NoSQL Database Cloud Service are inherent to the platform and do not change based on the SDK.

* SDKs are designed to provide language-specific interfaces for data interaction but do not alter the core architecture.

* Whether using Java, Python, or another SDK, the database's sharding, replication, and consistency characteristics remain constant.

Why the other options are impacted:

* A. Query syntax: SDKs may offer different syntax or query formats.

* B. Authentication method: Varies between SDKs, e.g., API keys vs. IAM tokens.

* D. Error handling: Each SDK may implement error handling differently, influencing how exceptions are processed.

NEW QUESTION # 20

Which two statements are accurate regarding the placement of VM Clusters within an Exadata Cloud Infrastructure?

- **A. Multiple VM Clusters can be created within a single Exadata Cloud Infrastructure, allowing for workload isolation.**
- **B. VM Clusters within the same Exadata Infrastructure can share a single VCN, simplifying network management.**
- C. Only one VM Cluster can exist within an Exadata Cloud Infrastructure.
- D. VM Clusters can span multiple Exadata Cloud Infrastructures, providing a single, unified database environment.
- E. Each VM Cluster must be associated with its own dedicated VCN, isolating network traffic between clusters.

Answer: A,B

Explanation:

B: Multiple VM Clusters within a single Exadata Infrastructure:

* Multiple clusters can coexist, each isolated for specific workloads.

* Supports resource optimization and isolation.

E: Sharing a single VCN:

* VM Clusters within the same Exadata Infrastructure can be configured to use the same Virtual Cloud Network (VCN), streamlining network management.

Why the other options are incorrect:

* A. Only one VM Cluster: Incorrect as multiple clusters are supported.

* C. Spanning multiple infrastructures: VM Clusters do not span Exadata Infrastructures; they are confined to a single infrastructure.

* D. Dedicated VCN for each cluster: Unnecessary, as clusters can share a VCN.

NEW QUESTION # 21

What is the primary purpose of installing and configuring the Oracle Management Agent when enabling Database Management Service for a cloud database on a Compute instance?

- A. To automate database patching and upgrades.
- B. To manage the underlying operating system of the Compute instance.
- C. To handle database backups and recovery operations.

- **D. To provide a secure communication channel between the Database Management Service and the database.**

Answer: D

Explanation:

A: Secure Communication Channel:

- * The Oracle Management Agent acts as a bridge between the Database Management Service and the database.
- * Enables secure data collection, monitoring, and performance analysis.
- * Uses encryption to protect data during transmission.
- * Facilitates monitoring, alerting, and management through OCI services.

Why the other options are incorrect:

- * B. Backup and recovery operations: These are typically handled by backup tools, not the management agent.
- * C. OS management: The agent does not manage the operating system itself.
- * D. Patching and upgrades: While it can assist, it is not specifically designed for patch management.

NEW QUESTION # 22

Which data formats are directly supported by the HeatWave Lakehouse feature for querying data in object storage?

- **A. CSV, Parquet, and Avro files.**
- B. Only JSON files.
- C. Only XML files.
- D. Only CSV (Comma Separated Values) files.
- E. Only Parquet files.

Answer: A

Explanation:

C: CSV, Parquet, and Avro files:

- * HeatWave Lakehouse can directly query data stored in OCI Object Storage without loading it into MySQL.
- * Supports widely-used data formats:
- * CSV (Comma Separated Values): Simple, text-based data format.
- * Parquet: Columnar storage format optimized for analytical queries.
- * Avro: Row-oriented format used for data serialization.
- * This versatility allows integrating data from various sources and querying directly.

Why the other options are incorrect:

- * A. Only CSV files: HeatWave supports more than just CSV.
- * B. Only Parquet files: HeatWave also supports CSV and Avro.
- * D. Only JSON files: JSON is not directly supported by HeatWave Lakehouse.
- * E. Only XML files: XML is not directly supported.

NEW QUESTION # 23

.....

Our 1z0-1093-25 Study Materials are compiled by domestic first-rate experts and senior lecturer and the contents of them contain all the important information about the test and all the possible answers of the questions which maybe appear in the test. You can use the practice test software to check your learning outcomes. Our 1z0-1093-25 study materials' self-learning and self-evaluation functions, the statistics report function, the timing function and the function of stimulating the test could assist you to find your weak links, check your level, adjust the speed and have a warming up for the real exam. You will feel your choice to buy Oracle Cloud study materials are too right.
