Try to Practice PSA-Sysadmin Exam Pdf with our test engine and you will get used to the atmosphere of the formal test easily.

Certinia PSA System Administrator 2023 Sample Questions (Q10-Q15):

NEW QUESTION # 10

When a Timecard is entered into the system, a record is generated that can be used in calculating Actuals. What is that record called?

- A. A "Revenue Item" record
- B. An "Accounting Log" record
- C. A "Transaction Delta" record

Answer: C

NEW QUESTION # 11

Your company has asked you as the Sysadmin to edit a few Timecards that have already been approved. There are no Billing Events associated with the Timecards. What specific system permission allows you to perform this action?

- A. None - PSA does not allow any updates to approved Timecards
- B. The System Administrator Profile
- C. The Timecard Ops Edit Permission Control

Answer: C

Explanation:

Editing approved Timecards in PSA is restricted by permissions. However, if no Billing Events are associated with the timecard, an administrator with the correct permission control can make changes.

* Timecard Ops Edit Permission Control:

* Allows users with this permission to edit approved timecards when necessary.

* Ensures that financial records remain accurate while allowing flexibility for adjustments.

* System Administrator Profile Does NOT Automatically Grant This:

* The System Administrator profile alone does not provide access to modify approved timecards.

* Additional Timecard Ops Edit permission control is required.

* Why PSA Restricts Editing Approved Timecards:

* If Billing Events have been created, Timecards are locked to prevent financial discrepancies.

* Only unbilled timecards can be edited under special permissions.

* PSA System Administration Guide
