All the language used in PSA-Sysadmin Study Materials is very simple and easy to understand. With PSA-Sysadmin test answers, you don't have to worry about that you don't understand the content of professional books. You also don't need to spend expensive tuition to go to tutoring class. PSA-Sysadmin test dumps can help you solve all the problems in your study.

Certinia PSA System Administrator 2023 Sample Questions (Q18-Q23):

NEW QUESTION # 18

Your company has both full time and part time resources. From a Human Resources perspective, part time resources can work any number of hours per week. From a Resource Planning perspective, management has agreed that part time workers can be estimated at 20 hours per week.

Based on this information, how many work calendars should be created?

- A. One full time work calendar, one part time work calendar, and one generic flexible work calendar
- **B. One full time work calendar, and one part time work calendar**
- C. One full time work calendar, and one work calendar for each unique part time contract

Answer: B

Explanation:

Step-by-Step Comprehensive Detailed Explanation

* Understanding Work Calendars in Certinia PSA

* Work calendars define the default number of hours per day and week that a resource is expected to work.

* They are crucial for resource scheduling, utilization calculations, and capacity planning.

* Every active PSA Resource must have an associated work calendar to allow project assignments.

* Scenario Analysis

* Your company has both full-time and part-time resources.

* Full-time resources have a standard workweek (e.g., 40 hours per week).

* Part-time resources have variable work hours but are estimated at 20 hours per week for planning purposes.

* This means you need at least one calendar for full-time and one for part-time workers.

* Why Option B is Correct

* Creating a single full-time work calendar (e.g., 40 hours per week) covers all full-time employees.

* Creating one part-time work calendar (e.g., 20 hours per week) provides a consistent framework for part-time resource planning.

* This approach ensures standardized reporting, scheduling, and forecasting without unnecessary complexity.

* Why the Other Options Are Incorrect

* A. One full-time work calendar, and one work calendar for each unique part-time contract

* This would require multiple work calendars for different part-time contracts, making resource scheduling overly complex.

* Since management has agreed on an estimated 20 hours per week for all part-time workers, a single part-time work calendar suffices.

* C. One full-time work calendar, one part-time work calendar, and one generic flexible work calendar

* A flexible work calendar is not necessary if all part-time workers are estimated at 20 hours per week.

* Work calendars should align with clear scheduling rules, not individual flexibility.

* Implementation in PSA

* Navigate to PSA - Admin App > Click Work Calendar tab.

* Create the following calendars:

* Full-Time Work Calendar: Set working hours to 40 per week.

* Part-Time Work Calendar: Set working hours to 20 per week.

* Assign the correct work calendar to each resource during onboarding.

* Setting Up Work Calendars.

NEW QUESTION # 19

In your Company, a Resource Manager wants to provide the option for Resources to nominate themselves for upcoming work they are interested in. How can you set this up?

- A. Enable "Self-Nominate for Resource Request" custom setting > add the "PSA Resource Self-Nomination" Lightning component to the Resource Request Detail Page
- B. Enable "Candidates Can Self-Nominate for Work" custom setting > add the "PSA Resource Self-Nomination" Lightning component to the Lightning Home page
- C. Enable "Self-Nominate for Work" custom setting > add the "PSA Self-Nomination" Lightning component to the Project Detail Page

Answer: A

NEW QUESTION # 20

Managers want to be able to edit expenses once they are marked as approved, "Include in Financials" is selected, but before the Billing Events are created. Which of the following options do you choose under the Permission Control record?

- A. Expense Ops Edit
- B. Expense Edit
- C. Expense Entry

Answer: B

NEW QUESTION # 21

Currently Project Managers and Resource Managers are using Gantt. You do not want your Project Managers creating assignment, resource requests or milestones from the Gantt. Which of the following custom settings should you configure to hide these buttons?

- A. Project Task Gantt Global Settings
- B. Project Task Gantt Preferences
- **C. Gantt Global Settings**

Answer: C

NEW QUESTION # 22

Managers want to be able to edit expenses once they are marked as approved, "Include in Financials" is selected, but before the Billing Events are created. Which of the following options do you choose under the Permission Control record?

- A. Expense Edit
- **B. Expense Ops Edit**
- C. Expense Entry

Answer: B

Explanation:

- * Understanding Expense Editing in PSA:
- * Once an expense is approved and the "Include in Financials" field is selected, expenses are locked for modification.
- * However, managers can still edit expenses before a billing event is created with the correct permission control.
- * Options Analysis:
- * Option A: "Expense Ops Edit" #Correct! Grants edit access to approved expenses before they are included in billing events.
- * Option B: "Expense Entry" #Incorrect. This allows expense creation, not modification of approved expenses.
- * Option C: "Expense Edit" #Incorrect. This general permission does not override locked expense records.
- * Steps to Enable Expense Editing for Managers:
- * Go to Permission Controls in PSA Administration.
- * Create a new Permission Control for the manager.
- * Assign Expense Ops Edit permission.
- * Save and test the ability to edit approved expenses.
