After you purchase PSM-I Exam Dumps, you will get a year free updates. Within a year, only if you would like to update the materials you have, you will get the newer version. With the dumps, you can pass Scrum PSM-I test with ease and get the certificate.

Scrum Professional Scrum Master I Sample Questions (Q73-Q78):

NEW QUESTION # 73

Marian is the Product Owner envisioning a project for a new release of her product. She made a projection of a release date based upon a sustained velocity of 17 completed units of work per Sprint. Over the first 3 Sprints, the average velocity was 13 for work that the Development Team estimated as 90% done. The Development Teams, feeling the need to meet the plan, figured that a velocity of 17 was within their reach.

A good way to continue is:

- A. The opportunity to inspect and adapt is lost. Opaqueness has replaced transparency. Predictability has dropped below zero. The produced software is not usable. As the rules of Scrum have not been respected, it is the Scrum Master's duty to assess whether repair is possible, or a restart with a more reliable team. If not, the Scrum Master should cancel the project.
- B. Add enough people to the Development Team for the deadline to be made.
- C. The Development Team should remind Marian to find funding for enough Release Sprints in which the remaining work can

be done.

- D. The Development Team makes sure that all of the selected scope per Sprint is as "Done" as possible.
The undone work is estimated and added to the Sprint Backlog of the next Sprint, so it doesn't mess up the Product Backlog.

Answer: D

NEW QUESTION # 74

The length of a Sprint should be:

- A. No more than one calendar month.
- B. All of these answers are correct.
- C. Short enough to keep the business risk acceptable to the Product Owner.
- D. Short enough to be able to synchronize the development work with other business events.

Answer: B

Explanation:

Explanation/Reference:

NEW QUESTION # 75

What is included in the Sprint Backlog?

- A. User Stories.
- B. Use Cases.
- C. Any of the above (or others) which are a decomposition of the selected Product Backlog items.
- D. Tasks.
- E. Tests.

Answer: C

Explanation:

The correct answer is E, because any of the above (or others) which are a decomposition of the selected Product Backlog items can be included in the Sprint Backlog. The Scrum Guide states that "the Sprint Backlog is the set of Product Backlog items selected for the Sprint, plus a plan for delivering the product Increment and realizing the Sprint Goal." Therefore, any work items that help the Development Team achieve the Sprint Goal can be part of the Sprint Backlog.

NEW QUESTION # 76

Who should make sure everyone on the Development Team does his or her tasks for the Sprint?

- A. The Scrum Master.
- B. All of the above.
- C. The Product Owner.
- D. The Project Manager.
- E. The Development Team.

Answer: E

NEW QUESTION # 77

The length of a Sprint should be:

- A. No more than one calendar month.
- B. All of these answers are correct.
- C. Short enough to keep the business risk acceptable to the Product Owner.
- D. Short enough to be able to synchronize the development work with other business events.

Answer: B

NEW QUESTION # 78

.....

The evergreen field of Scrum is so attractive that it provides non-stop possibilities for the one who passes the Scrum PSM-I exam. So, to be there on top of the Scrum sector, earning the Professional Scrum Master I (PSM-I) certification is essential. Because of using outdated PSM-I study material, many candidates don't get success in the Professional Scrum Master I (PSM-I) exam and lose their resources.
