

Test QSBA2022 Voucher - Latest QSBA2022 Dumps Ebook

QSBA2022

the field in a QAD would be the work of the Data Architect, not least because there may be some particularities in the process. So imagining that you are accessing the application with qad already loaded and following the purpose of the question, what you will do is add the new field in Data Manager. Would that be the right thing to do on a day-to-day life? I don't think so, I need to solve the problems at the root. But the question is whether you would know how to use Data Manager and how to add a calculated column through it. Watch the video to understand the steps here.

QUESTION: 7

A developer has created an application with native objects in a way that is well organized by sheets so that users can gain their insights independently. Users have notebooks, mobile phones and tablets. When the application was created, the developer did not imagine that the application would be accessed by mobile devices, but the good news is that the application adapts very well to any format and screen size. What's the name of this feature?

- Option A : Associative selection model
- Option B : Responsive design
- Option C : User-friendly analytics
- Option D :

Correct Answer: B

Explanation/Reference:

One of the main advantages of Qlik Sense over QlikView is precisely responsive design. The screen and size of objects automatically adapt to any resolution that is used. Of course there are scenarios that this is not the most beautiful solution that exists, see the fantastic works that can be done with Mashup, but it is very useful and everyone wins time, so as to invest time in what matters that is in the agile visualization of the data.

QUESTION: 8

A business analyst is creating an app that requires several visualizations* A scatter plot that shows the margin percentage and total sales by product category* A map with a layer that visualizes lines between retail stores and locations* A KPI that shows total costMargin?n be calculated by dividing profit by revenue Profit is the difference between total cost and total salesWhich two sets of fields can the business analyst use to meet these requirements? (Select two.)

- Option A : Line GeometryMargin%
- Option B : Product CategoryLocation
